Penelope's Web Susan Stanford Friedman, 1990 Penelope's Web published in 1991 was the first book to examine fully the brilliantly innovative prose writing of Hilda Doolittle H D's reputation as a major modernist poet has grown dramatically but she also deserves to be known for her innovative novels and essays

The Poetry of William Carlos Williams of Rutherford Wendell Berry, 2011-02-10 A superb study that reminds us that Williams remains our contemporary not only for the lively cadences and fresh imagery that animate his poems but for the ethical imperative of his example The Sewanee Review Acclaimed essayist and poet Wendell Berry was born and has always lived in a provincial part of the country without an established literary culture In an effort to adapt his poetry to his place of Henry County Kentucky Berry discovered an enduringly useful example in the work of William Carlos Williams In Williams' commitment to his place of Rutherford New Jersey Berry found an inspiration that inevitably influenced the direction of his own writing Both men would go on to establish themselves as respected American poets and here Berry sets forth his understanding of that evolution for Williams who in the course of his local membership and service became a poet indispensable to us all Generously quoting many of Williams' best lines Berry produces a work of aesthetics more than evaluation of love more than critique Booklist

Poets of Reality Joseph Hillis Miller, 1992 The Poem as Icon Margaret H. Freeman, 2020-03-13 The Poem as Icon resolves long standing questions of poetic function from a cognitive perspective Margaret Freeman shows how poetry as one expression of the aesthetic faculty enables us to iconically access and experience the being of reality

The Zen of Ecopoetics Enaiê Mairê Azambuja, 2023-12-22 This book is the first comprehensive study investigating the cultural affinities and resonances of Zen in early twentieth century American poetry and its contribution to current definitions of ecopoetics focusing on four key poets William Carlos Williams Marianne Moore Wallace Stevens and E E Cummings Bringing together a range of texts and perspectives and using an interdisciplinary

approach that draws on Eastern and Western philosophies including Zen and Taoism posthumanism and new materialism this book adds to and extends the field of ecocriticism into new debates Its broad approach informed by literary studies ecocriticism and religious studies proposes the expansion of ecopoetics to include the relationship between poetic materiality and spirituality It develops cosmopoetics as a new literary theoretical concept of the poetic imagination as a contemplative means to achieving a deeper understanding of the human interdependence with the non human Addressing the critical gap between materialism and spirituality in modernist American poetry The Zen of Ecopoetics promotes new forms of awareness and understanding about our relationship with non human beings and environments It will be of interest to scholars researchers and students in ecocriticism literary theory poetry and religious studies

Passionate Intellect Michael Kirkham, 1999-01-01 This critical study looks at the first four decades of Charles Tomlinson's poetic career and is the only published full scale exclusive treatment of his poetry Tomlinson is a major British poet whose work has received more recognition in North America and continental Europe than it has in his own country where still in some quarters its character is misunderstood and therefore misjudged The purpose of Kirkham's study is to increase understanding and appreciation of the exceptional achievement of Tomlinson's poetry emphasizing both the startling originality of his vision a unified vision of a natural human world and the subtlety of his poetic art The study is a reading of the poems which aims to show what they yield to close scrutiny and to remove misconceptions Known for its analytical rendering of sense impressions and its avoidance of the personal pronoun the objectivism of Tomlinson's poetry is not an exercise in asceticism but a means of enlarging the circumference of the perceiving self an expansion of self which is not at the same time an inflation of the self regarding ego Its theme is not objects as such but relations the relation of the perceiving self to the other of the human to the non human world Its reputation for cool detachment is based on a misreading it is a poetry of energy and excitement which combines self restraint with passionate conviction

New Bearings in English Poetry F. R. Leavis, 2015-07-16 It is difficult now to imagine the shock that this book caused when it was first published in 1932 The author was a teacher at a Cambridge college an intensely serious man who had been seriously wounded by poison gas on the Western Front and he was not disposed to suffer foolishness gladly His opening sentences were arresting Poetry matters little to the modern world That is very little of contemporary intelligence concerns itself with poetry What followed was nothing less than the welcoming of a revolution in English verse set against the moral and social crisis that followed the trauma of the First World War It was this situation this feeling of breakdown and disorder that gave such force to Leavis's dismissal of most late Romantic poetry and his welcoming of the modernists T S Eliot and Ezra Pound and of the writer who Leavis regarded as their forebear Gerard Manley Hopkins The tone of high moral urgency and the message that the experience of literature could become an engagement with life that was almost a secular equivalent to religion seemed new and abrasively refreshing Leavis despised the reigning dilettantism in both poetry and criticism and in this book he threw down the gauntlet to the establishment as he

understood it In the same year he founded the journal *Scrutiny* and began his long career as the most formidably serious literary critic of his time *The Unappeasable Shadow* Adele M. Dalsimer, 2016-09-13 Yeats and his shadow are one of the most closely scrutinised pairs in contemporary literary history The meaning and significance Yeats gave to the entity by which he was constantly pursued and with which he held frequent colloquy have been held under the critical microscope and the shadow has emerged alternately as the course of human history the poet's alter ego his inner self the natural man or as anything that Yeats wanted but believed himself not to be This title first published in 1988 examines the influence that Shelley had on Yeats and this shadow The study concentrates primarily on the complex influence of Shelley's *Alastor* on Yeats tracing the problems it suggests and the questions it raises from Yeats's early highly imitative poems through the austere unromantic middle poems to the late poems where Yeats sees himself as the last of the romantics This title will be of interest to students of literature **The Revolution in the Visual Arts and the Poetry of William Carlos Williams** Peter Halter, 1994-07-29 This book is a major step toward a fuller exploration of the connection between the visual arts and Williams' concept of the Modernist poem and of his achievement in transcending an art for art's sake formalism to create poems that both reflect their own nature as a work of art and vividly evoke the world of which they are a part

Swinburne's Theory of Poetry Thomas Edmund Connolly, 1965-01-01 Charles Algernon Swinburne's literary reputation rests almost exclusively upon his poetry and though his critical writings were voluminous they are usually slighted by literary historians Examinations of Swinburne's aesthetic principles too are generally based upon interpretations of his poetry though these may be as misleading as the discrepancies between other artists' principles and practices Believing that a solid and consistent core of poetic theory underlay all of Swinburne's critical essays casual pieces and letters Professor Connolly has attempted to reconstruct the theory from a careful analysis of this body of writing In this book he sets forth his findings as general principles and as they apply to lyric and dramatic poetry Swinburne was a far sounder and more consistent critic than he is usually given credit for being Professor Connolly concludes and the various critical principles that can be discovered in his essays hang together in a more integrated theory of poetry than is usually imagined He had as other critics had a number of basic principles and themes that he used with astonishing versatility in his criticism The successful poet who is also a critic usually has a valuable contribution to make to the general understanding and appreciation of poetry Swinburne in this respect was not an exception **Walter de la Mare**, 1926 **Out of What Began** Gregory A. Schirmer, 2019-05-15 The first book of its kind *Out of What Began* traces the development of a distinctive tradition of Irish poetry over the course of three centuries Beginning with Jonathan Swift in the early eighteenth century and concluding with such contemporary poets as Seamus Heaney and Eavan Boland Gregory A. Schirmer looks at the work of nearly a hundred poets Considering the evolving political and social environments in which they lived and wrote Schirmer shows how Irish poetry and culture have come to be shaped by the struggle to define Irish identity Schirmer includes a large number of

accomplished poets who have been unjustly neglected in standard accounts of Irish literature many of these writers are women whose work has been kept in the shadows cast by that of well known male poets He also emphasizes the importance of political poetry in a country that continues to be torn by sectarian violence With its rich selection of poetic voices Out of What Began reveals the political social and religious diversity of Irish culture Asian American Poets Guiyou Huang,2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet s major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet s critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography Conceptions of Reality in Modern American Poetry L. S. Dembo,1966 The Pacific Monthly ,1911 **Notations Of The Wild** Gyorgyi Voros,1997-02 Focusing on three governing metaphors in Stevens s poems Nature as house body and self the author argues that Stevens s youthful wilderness experience yielded his primary poetic subject the relationship between humans and nature and shifted his understanding of nature from romantic to phenomenological She draws on the extraliterary discourses of phenomenology and ecology mapping the landscape of Stevens s career and canon Annotation copyrighted by Book News Inc Portland OR **Sermons in All Souls Monthly, 1888-1891** Richard Heber Newman,1888
