Native Life in South Africa was written by one of the South Africa's most talented early twentieth century black leaders and journalists. Plaatje's pioneering book arose out of an early African National Congress campaign to protest against the discriminatory 1913 Natives Land Act. Native Life vividly narrates Plaatje's investigative journeying into South Africa's rural heartlands to report on the effects of the Act and his involvement in the deputation to the British imperial government. At the same time it tells the bigger story of the assault on black rights and opportunities in the newly consolidated Union of South Africa and the resistance to it. Originally published in war time London but about South Africa and its place in the world, Native Life travelled far and wide being distributed in the United States under the auspices of prominent African American W. E. B. Du Bois. South African editions were to follow only in the late apartheid period and beyond. The aim of this multi-authored volume is to shed new light on how and why Native Life came into being at a critical historical juncture and to reflect on how it can be read in relation to South Africa's heightened challenges today. Crucial areas that come under the spotlight in this collection include land, race, history, mobility, belonging, war, the press, law, literature, language, gender, politics and the state.

Anarchism and Syndicalism in the Colonial and Postcolonial World, 1870-1940 Steven Hirsch, Lucien van der Walt, 2010-11-11. Before communism, anarchism and syndicalism were central to labour and the Left in the colonial and postcolonial world. Using studies from Africa, Asia, Eastern Europe and Latin America, this groundbreaking volume examines the revolutionary, libertarian Left's class politics and anti-colonialism in the first globalization and imperialism, 1870-1930.

The South African Communist Party Thomas Stanley Kolasa, 2016-01-11. Since the collapse of communism in Eastern Europe in the early 1990s, communist parties are widely regarded as passe or irrelevant. But these parties still exist, act and sometimes thrive in various corners of the world. This comprehensive history describes how the South African Communist Party has not only survived but flourished in a harsh political environment. Formed in 1921 as an umbrella organization of leftist groups, the SACP for decades fought against the racist Apartheid regime, ascending to power in 1994 with its senior alliance partner, the African National Congress. Approaching its centennial, the SACP now faces possibly its greatest challenge: working towards a socialist future for South Africa while governing a diverse and complex capitalist country. **The Communist Party in South Africa** Mia Roth, 2016-01-20. Why is the history of communism in a country at the bottom of the African continent still important enough to warrant this book? South Africa is one of the few countries in the world that still has a strong communist party whose views are not only taken into account by the government but whose members hold important positions in both the cabinet and in government offices. This is the first account of the history of the Communist Party of South Africa based on archival sources. The initial accounts were written by party members and had very little to do with reality. The months that Mia Roth spent in the newly opened Russian and South African Archives in 1998 and the number of years she spent in writing it revealed to her not only the racism in the South African party but also the role it played in destroying the ICU, the only genuine African mass movement of that time. Its depiction of the part played by African

communists was only a facade **The Origins of Non-Racialism** David Everatt,2009-06-01 How did South Africa embrace non racialism After centuries of white domination and decades of increasingly savage repression freedom came to South Africa far later than elsewhere in the continent and yet was marked by a commitment to non racialism Nelson Mandela s Cabinet and government were made up of women and men of all races and many spoke of the birth of a new Rainbow Nation How did this come about How did an African nationalist liberation movement resisting apartheid a universally denounced violent expression of white supremacy open its doors to other races and whites in particular And what did non racialism mean This is the real miracle of South Africa that at the height of white supremacy and repression black and white democrats in their different organisations coming from vastly different backgrounds and traditions agreed on one thing that the future for South Africa would be non racial **WITS: The 'Open' Years** Bruce Murray,2022-09 In the period between the outbreak of World War II in 1939 and the enactment of university apartheid by the Nationalist Government in 1959 the University of the Witwatersrand Johannesburg Wits developed as an open university admitting students of all races This the second volume of the history of Wits by historian Bruce Murray has as its central theme the process by which Wits became open the compromises this process entailed and the defence the University mounted to preserve its open status in the face of the challenges posed by the Nationalist Government The University s institutional autonomy is highlighted by Yunus Ballim in his preface to the centenary edition of WITS The Open Years He writes The emerging posture of a university willing to rise in defence of academic freedom was important because this was to become infused into the institutional culture of Wits The book looks at the University s role in South Africa s war effort its contribution to the education of ex volunteers after the war its leading role in training job seeking professionals required by a rapidly expanding economy and the rise of research and postgraduate study Students feature prominently through their political activities the flourishing of a student intelligentsia the heyday of the Remember and Give Rag parade rugby intervarsity and the stunning success of Wits sportsmen and women WITS The Open Years paints a vivid picture of the range of personalities who enlivened the campus among them some well known figures in the new South Africa The book includes chapters by Alf Stadler who was Professor of Political Studies at Wits and the author of *The Political Economy of Modern South Africa* and Jonty Winch former Sports Officer at Wits and the author of *Wits Sport* *Imperialism, Race and Resistance* Barbara Bush,2002-01-04 *Imperialism Race and Resistance* marks an important new development in the study of British and imperial interwar history Focusing on Britain West Africa and South Africa *Imperialism Race and Resistance* charts the growth of anti colonial resistance and opposition to racism in the prelude to the post colonial era The complex nature of imperial power is explored as well as its impact on the lives and struggles of black men and women in Africa and the African diaspora Barbara Bush argues that tensions between white dreams of power and black dreams of freedom were seminal in transforming Britain s relationship with Africa in an era bounded by global war and shaped by ideological conflict **The ANC's Early Years** Peter Limb,2024-12-02 The African

National Congress ANC is the oldest and most durable of African nationalist movements not only in South Africa but also across the continent Since 1994 it has governed the country as leader of the Tripartite Alliance with the Congress of South African Trade Unions Cosatu and South African Communist Party SACP The early decades of the twentieth century saw the establishment survival and growth of ANC and black labour organisations This book focuses on the formative period of engagement of these political and socioeconomic forces before permanent alliances emerged It analyses the ANC s attitudes and relationships with the nascent formations of the black working class with particular attention to the most conscious and active workers The subject matter in this book also discusses migrant rural domestic and women workers not always then clearly defined as part of a formal working class Print editions not for sale in Sub Saharan Africa This book is part of Routledge s co published series 30 Years of Democracy in South Africa in collaboration with UNISA Press which reflects on the past years of a democratic South Africa and assesses the future opportunities and challenges

Revolutionary lives of the Red and Black Atlantic since 1917 David Featherstone,Christian Høgsbjerg,Alan Rice,2022-04-05 Revolutionary lives of the Red and Black Atlantic brings to light the life histories of a wide range of radical figures whose political activity in relation to the black liberation struggle was profoundly shaped by the global impact and legacy of the Russian Revolution of October 1917 The volume introduces new perspectives on the intellectual trajectories of well known figures and critical activists including C L R James Paul Robeson Walter Rodney and Grace P Campbell This biographical approach brings a vivid and distinctive lens to bear on how racialised social and political worlds were negotiated and experienced by these revolutionary figures and on historic black radical engagements with left political movements in the wake of the Russian Revolution

South Africa and the Communist International: Socialist pilgrims to Bolshevik footsoldiers, 1919-1930 Apollon Borisovich Davidson,2003 This publication is a comprehensive selection of unique documents pertaining to the Communist Party of South Africa CPSA from the formerly closed archives of the Communist International

Discordant Comrades Allison Drew,2019-07-12 This title was first published in 2000 This book considers the fortunes of socialism in South Africa from the doctrine s arrival around 1900 to its legal suppression in 1950 Socialism s universal claims had to come to terms with South Africa s singular national experience in which a racial ideology and a racial division of the working class played a far greater role than in any other country The left in South Africa had to deal with all the complexities of ideology and strategy that faced their counterparts in Europe and North America but in South Africa it was further vexed by challenges of profound racial and national inequalities and a white labour movement which sought protection through racial segregation Communism rather than Social Democracy prevailed hence the reverberations of the splits in the Communist International were far more debilitating in South Africa than anywhere else In the years after World War II African nationalism became the

dominant influence on the South African left chiefly through the relationship between the ANC and the Communist Party. *Discordant Comrades* draws on a wide range of primary sources from inside and outside South Africa including the archives of the Communist International in Moscow. The result is a scholarly and challenging analysis of the South African left.

Plant Collectors in Angola Estrela Figueiredo, Gideon F. Smith, 2024-07-04. An authoritative treatise on the history of botanical studies and exploration in Angola. For any region cataloging, interpreting and understanding the history of botanical exploration and plant collecting, and the preserved specimens that were amassed as a result, are critically important for research and conservation. In this book, published in cooperation with the International Association for Plant Taxonomy, Estrela Figueiredo and Gideon F. Smith, both botanists with expertise in the taxonomy of African plants, provide the first comprehensive contextualized account of plant collecting in Angola, a large country in south tropical Africa. An essential book for anyone concerned with the biodiversity and history of Africa, this authoritative work offers insights into the lives, times and endeavors of 358 collectors. In addition, the authors present analyses of the records that accompanied the collectors' preserved specimens. Illustrated in color throughout, the book fills a large gap in the current knowledge of the botanical and exploration history of Africa.
