Debating Otaku in Contemporary Japan Patrick W. Galbraith, Thiam Huat Kam, Björn-Ole Kamm, 2015-05-21 With the spread of manga Japanese comics and anime Japanese cartoons around the world many have adopted the Japanese term otaku to identify fans of such media The connection to manga and anime may seem straightforward but when taken for granted often serves to obscure the debates within and around media fandom in Japan since the term otaku appeared in the niche publication Manga Burikko in 1983 Debating Otaku in Contemporary Japan disrupts the naturalization and trivialization of otaku by examining the historical contingency of the term as a way to identify and contain problematic youth consumers and fan cultures in Japan Its chapters many translated from Japanese and available in English for the first time and with a foreword by Otsuka Eiji former editor of Manga Burikko explore key moments in the evolving discourse of otaku in Japan Rather than presenting a smooth triumphant narrative of the transition of a subculture to the mainstream the edited volume repositions otaku in specific historical social and economic contexts providing new insights into the significance of the otaku phenomenon in Japan and the world By going back to original Japanese documents translating key contributions by Japanese scholars and offering sustained analysis of these documents and scholars Debating Otaku in Contemporary Japan provides alternative histories of and approaches to otaku For all students and scholars of contemporary Japan and the history of Japanese fan and consumer cultures this volume will be a foundation for understanding how otaku at different places and times and to different people is meaningful

Japanese Cinema in the Digital Age Mitsuyo Wada-Marciano, 2012-05-31 Digital technology has transformed cinema's production distribution and consumption patterns and pushed contemporary cinema toward increasingly global markets In the case of Japanese cinema a once moribund industry has been revitalized as regional genres such as anime and Japanese horror now challenge Hollywood's preeminence in global cinema In her rigorous investigations of J horror personal documentary anime and ethnic cinema Mitsuyo Wada Marciano deliberates on the role of the transnational in bringing to the mainstream what were formerly marginal B movie genres She argues persuasively that convergence culture which these films represent constitutes Japan's response to the variegated flows of global economics and culture With its timely analysis of new modes of production emerging from the struggles of Japanese filmmakers and animators to finance and market their work in a post studio era this book holds critical implications for the future of other national cinemas fighting to remain viable in a global marketplace As academics in film and media studies prepare a wholesale shift toward a transnational perspective of film Wada Marciano cautions against jettisoning the entire national cinema paradigm Discussing the technological advances and the new cinematic flows of consumption she demonstrates that while contemporary Japanese film on the one hand expresses the transnational as an object of desire i e a form of total cosmopolitanism on the other hand that desire is indeed inseparable from Japan's national identity Drawing on a substantial number of interviews with auteur directors such as Kore eda Hirokazu Kurosawa Kiyoshi and Kawase Naomi and incisive analysis of select film texts this compelling original work challenges the presumption that Hollywood is the only authentically global cinema
