Shias Shiaism Their Genesis Evolutio:

The Pakistan Paradox Christophe Jaffrelot, 2016-06-16 The idea of Pakistan stands riddled with tensions Initiated by a small group of select Urdu speaking Muslims who envisioned a unified Islamic state today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism A small entrenched elite continue to dominate the country s corridors of power and democratic forces and legal institutions remain weak But despite these seemingly insurmountable problems the Islamic Republic of Pakistan continues to endure The Pakistan Paradox is the definitive history of democracy in Pakistan and its survival despite ethnic strife Islamism and deepseated elitism This edition focuses on three kinds of tensions that are as old as Pakistan itself The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces between civilians and army officers who are not always in favour of or against democracy and between the Islamists and those who define Islam only as a cultural identity marker Dismantling Orientalist Narratives: A Critique of Orientalists' Approach to Hadith with special focus on Juynboll Dr. Syed Nooruzuha Barmaver, 2025-07-23 In a previous book titled Status and Preservation of Hadith Answering the Contentions of Orientalists Christian Missionaries and Modernists on Hadith published in 2021 author has covered other points not mentioned in this book The aim the book is to provide a comprehensive refutation of the orientalist narratives and restore the trust in the authority and reliability of Hadith

Death, Dominance, and State-Building Roger D. Petersen, 2024-02-02 In Death Dominance and State Building Roger D Petersen offers a definitive work on the course conduct and aftermath of the Iraq war He uniquely combines an accessible analytical framework with detailed case studies that unpack the dynamics between the US military and various Shia and Sunni insurgents The book covers the entire 2003 2023 period in Iraq incorporating the insights and voices of US military personnel Iraqi citizens and even Iraqi insurgents While it comprehensively covers the past in Iraq it also draws lessons for the future of American military intervention The Making of Pakistani Human Bombs , Khuram Iqbal, 2015-10-30 A multi level analysis of Pakistani human bombs reveals that suicide terrorism is caused by multiple factors with perceived effectiveness vengeance poverty and religious fundamentalism playing a varying role at the individual organizational and environmental levels Nationalism and resistance to foreign occupation appear as the least relevant factors behind suicide terrorism in Pakistan The findings of this research are based on a multi level analysis of suicide bombings incorporating both primary and secondary data In this study the author also decodes personal demographic economic and marital characteristics of Pakistani human bombs On average Pakistani suicide bombers are the youngest but the deadliest in the world and more than 71 percent of their victims are civilians Earlier concepts of a weak link linking terrorism with poverty and illiteracy do not hold up against the recent data gathered on the post 9 11 generation of fighters in Pakistan in suicidal and non suicidal categories as the majority of fighters from a variety of terrorist organizations are economically deprived and semi literate The majority of Pakistani human bombs come from rural backgrounds with very few from major urban centres

Suicide bombings in Pakistan remain a male dominated phenomenon with most bombers being single men Demographic profiling of Pakistani suicide bombers based on a random sample of 80 failed and successful attackers dents the notion that American drone strikes play a primary role in promoting terrorism in all its manifestations The study concludes that previous scholarly attempts to explain suicide bombings are largely based on Middle Eastern data thus their application in the case of Pakistan can be misleading The Pakistani case study of suicide terrorism demonstrates unique characteristics hence it needs to be understood and countered through a context specific and multi level approach

Islamic Fundamentalism in Pakistan, Egypt and Iran Sohail Mahmood,1995

Islam and Religious Change in Pakistan Saadia Sumbal,2021-07-28 This book examines the history of and the contestations on Islam and the nature of religious change in 20th century Pakistan focusing in particular on movements of Islamic reform and revival This book is the first to bring the different facets of Islam particularly Islamic reformism and shrine oriented traditions together within the confines of a single study ranging from the colonial to post colonial era Using a rich corpus of Urdu and Arabic material including biographical accounts Sufi discourses malfuzat letter collections polemics and unexplored archival sources the author investigates how Islamic reformism and shrine oriented religiosity interacted with one another in the post colonial state of Pakistan Focusing on the district of Mianwali in Pakistani northwestern Punjab the book demonstrates how reformist ideas could only effectively find space to permeate after accommodating Sufi thoughts and practices the text based religious identity coalesced with overlapped traditional religious rituals and practices The book proceeds to show how reformist Islam became the principal determinant of Islamic identity in the post colonial state of Pakistan and how one of its defining effects was the hardening of religious boundaries Challenging the approach of viewing the contestation between reformist and shrine oriented Islam through the lens of binaries modern traditional and moderate extremist this book makes an important contribution to the field of South Asian religion and Islam in modern South Asia

Politics Of Hate Farahnaz Ispahani,2023-01-12 Over the years politicians across the world have exploited ethnic and religious sentiments to mobilize support in their favour Majoritarian communalism entails rehashing historical grievances and creating fear among the majority that minorities threaten the former s religion culture or tradition In many instances the minority groups are described as privileged unduly supported by the state a threat to economic and job opportunities for the majority and so on South Asia home to almost 200 crore people representing every major and minor religious belief has also witnessed religious extremism often supported by the state apparatus Beginning with Pakistan s Islamization following the Partition in 1947 and especially over the last two decades Hindu supremacist sentiment in India Buddhist supremacism in Sri Lanka and attacks on minorities in Bangladesh have been on a steady rise across South Asia In Politics of Hate noted scholars experts on the subject and the region discuss their research on the role of the media and political leaders in deploying hatred for political advantage covering developments in India Bangladesh Pakistan and Sri Lanka In an era of media incitement orchestrated

attacks on mosques churches and temples and identity politics this book serves as a timely study of the phenomenon of politically motivated religious and ethnic division Leaders in the Middle East and North Africa Özgür Özdamar, Sercan Canbolat, 2023-08-17 The study of politics in the MENA region has traditionally been dominated by historical and case study approaches In this innovative book Özgür Özdamar and Sercan Canbolat instead adopt a social science based methodology to reconsider the dynamics of power and leadership in Africa and the Middle East By analysing the psychological profiles of fourteen leaders across eight countries and three non state organizations they develop a nuanced portrait of modern leadership Using this approach the authors are able to draw connections between apparently disparate political ideologies from Sunni Islamism to Shia revolutionism from secular nationalism and armed non state groups Demonstrating the previously unacknowledged commonalities and divergences in these leaders' approaches Özdamar and Canbolat illuminate their tactics and strategies and offer novel insights into how best to negotiate with them *Faith-Based Violence and Deobandi Militancy in Pakistan* Jawad Syed, Edwina Pio, Tahir Kamran, Abbas Zaidi, 2016-11-09 This book documents and highlights the Deobandi dimension of extremism and its implications for faith based violence and terrorism This dimension of radical Islam remains largely ignored or misunderstood in mainstream media and academic scholarship The book addresses this gap It also covers the Deobandi diaspora in the West and other countries and the role of its radical elements in transnational incidents of violence and terrorism The specific identification of the radical Deobandi and Salafi identity of militants is useful to isolate them from the majority of peaceful Sunni and Shia Muslims Such identification provides direction to governmental resources so they focus on those outfits mosques madrassas charities media and social media channels that are associated with these ideologies This book comes along at a time when there is a dire need for alternative and contextual discourses on terrorism

A History of the Seventies: The political, cultural, social and economic developments that shaped the modern world Bas Dianda, 2019-03-01 Relegated to the back bench the Seventies are often considered as no more than a bridge between the more momentous decades of the Sixties and Eighties However delving into this historical period this book asks how significant were the Seventies in terms of political economic and cultural developments And to what extent did this decade change the course of the second half of the twentieth century Seeking to uncover the extraordinary transformative capacity of this era this book reveals how important events from this decade marked history for many years to come Grounded in a history of developments this book investigates connections of causality or concomitant causality with events that were yet to come The first part of this volume traces the economic political and cultural trends that prevailed during this decade before turning its attention to the legacies of the Seventies and the events that changed the course of history and that are still having repercussions to this day From the oil crisis to microwaves this book offers an in depth and complete look at the Seventies that will not only be of interest to historians and economists but also sociologists and those intrigued by the evolution of political economic and cultural developments
