Shifting Obsessions Three Ebays On The Politics Of Anticorruption:

Shifting Obsessions Ivan Krastev, 2004-06-10 Annotation Rather than being a study of anti corruption policies this work looks at the politics of anti corruption and their institutional motivations Krastev argues that anti corruption sentiments are not driven by the actual level of corruption but by general disappointment with liberal reforms that cause rising social inequality In this collection of essays the author makes the provocative argument that the current corruption focused policies are doomed

The Social Construction of Global Corruption Elitza Katzarova, 2018-12-06 This book offers new ways of thinking about corruption by examining the two distinct ways in which policy approaches and discourse on corruption developed in the UN and the OECD One of these approaches extrapolated transnational bribery as the main form of corrupt practices and advocated a limited scope offense while the other approach tackled the broader structure of the global economic system and advocated curbing the increasing power of multinational corporations Developing nations in particular Chile initiated and contributed much to these early debates but the US sponsored issue of transnational bribery came to dominate the international agenda In the process the corrupt corporation was supplanted by the corrupt politician the corrupt public official and their international counterpart the corrupt country This book sheds light on these processes and the way in which they reconfigured our understanding of the state as an economic actor and the multinational corporation as a political actor

Hard Diplomacy and Soft Coercion James Sherr, 2013-08-29 During the Cold War Soviet influence and Leninist ideology were inseparable But the collapse of both systems threw Russian influence into limbo In this book James Sherr draws on his in depth study of the country over many years to explain and analyse the factors that have brought Russian influence back into play Today Tsarist Soviet and contemporary approaches combine in creative and discordant ways

The result is a policy based on a mixture of strategy improvisation and habit. The novelty of this policy and its apparent successes pose possible dangers for Russia's neighbours the West and Russia itself.

Los grandes problemas de México. Tomo 13. *Políticas públicas* José Luis Méndez, coordinador, *Governments, NGOs and Anti-Corruption* Luís de Sousa, Barry Hindess, Peter Larmour, 2012-08-21. The purpose of this book is to understand the rise, future and implications of two important new kinds of integrity warriors: official anti-corruption agencies (ACAs) and anti-corruption NGOs, and to locate them in a wider context and history of anti-corruption activity. Key issues of corruption and anti-corruption are discussed in an integrated and innovative way through a number of country studies including Taiwan and South Korea, South East Europe, Fiji, Russia and the Baltic States. Some of the questions used to examine the development of new anti-corruption actors include: In what context were these born? How do they operate in pursuing their mission and mandate? How successful have they been in relation to expected results? To what extent are governmental and non-governmental actors aware of each other and how far do they cooperate towards the common goal of fighting corruption? What explains the shift in emphasis after the end of the cold war from national to international action? Governments, NGOs and Anti-Corruption will be of interest to students and scholars of corruption, public policy, political science, developmental studies and law. Luís de Sousa is an Associate Researcher at CIES ISCTE Portugal and Calouste Gulbenkian Fellow at the European University Institute, Italy. Barry Hindess is Emeritus Professor of Political Science at the Australian National University, Australia. Peter Larmour is a Reader in Public Policy and Governance at the Crawford School of Economics and Government, Australian National University, Australia.

The Social Construction of Corruption in Europe Dirk Tänzler, Konstadinos Maras, 2016-02-24. The volume demonstrates the suitability of the theory of social constructivism in portraying and analyzing the diversity of the phenomenon of corruption. The approach of social constructivism taken in this volume is able to reconstruct the construction of corruption both from a societal perspective by assessing it as generally accepted or tolerated behaviour in more or less standardized rule-governed social situations and from the perspective of actors who perceive corrupt behaviour as problem-solving in everyday life. The volume proves the usefulness of a social construction perspective for empirical research. It contains case studies of social definitions of corruption in eleven European countries that contribute in different ways to establishing a grounded theory of the phenomenon of corruption.

Corruption, Empire and Colonialism in the Modern Era Ronald Kroeze, Pol Dalmau, Frédéric Monier, 2021-06-15. Answering the calls made to overcome methodological nationalism, this volume is the first examination of the links between corruption and imperial rule in the modern world. It does so through a set of original studies that examine the multi-layered nature of corruption in four different empires: Great Britain, Spain, the Netherlands and France, and their possessions in Asia, the Caribbean, Latin America and Africa. It offers a key read for scholars interested in the fields of corruption, colonialism, empire and global history.
