Shin Takamatsu:

Works Shin Takamatsu, 1984 Responding to Chaos David N Buck, 2014-04-04 A celebration of a unique culture and its experience of design this sensitive text is a timely examination of Japanese design at the start of a new century The country's economic boom in the 1980s produced a surge of interest in land and building and consequently in design in all its forms From restaurant interiors to products from private housing to recreational spaces design received an unprecedented degree of attention However the bursting in the early 1990s of this so called bubble economy has prompted a re examination of design and its role in urban society *Shin Takamatsu* Shin Takamatsu, Patrice Goulet, Dorian O. Mandrelli, Mario Pisani, 1989 *Shin Takamatsu* Maurizio Vitta, 1996-08 **Works Takamatsu Shin** Shin Takamatsu, 1984 **Felix Guattari** Gary Genosko, 2002-08-01 This is the first detailed assessment of the life and work of Felix Guattari Mr Anti as the French press labelled him the friend of and collaborator with Gilles Deleuze Jacques Lacan and Antonio Negri and one of the 20th Century's last great activist intellectuals Guattari is widely known for his celebrated writings with Deleuze but these writings do not represent the true breadth and impact of his thinking writing and activism Guattari's major work as a clinical and theoretical innovator in psychoanalysis was closely linked to his participation in struggles against European right wing politics Felix Guattari introduces the reader to the diversity and sheer range of Guattari's interests from anti psychiatry to Japanese culture political activism and his theorizing of subjectification Highlighting why Guattari's work is of increasing relevance to contemporary political psychoanalytical and philosophical thought Felix Guattari *An Aberrant Introduction* presents the reader with an adventurous and provocative introduction to this radical thinker 田中 幸雄, 1990 田中 幸雄, 1993 **Building Sci-fi Moviescapes** Matt Hanson, 2005 *Building Sci fi Moviescapes* provides a rare behind the scenes examination of how the digital city and space scapes in science fiction movies are created through the eyes of directors producers production designers and visualization artists This is a stunning showcase of some of the most impressive digital city and space scapes to come out of the movies from Hollywood as well as the Japanese and European film industries From seminal movies of the 1980s such as *Tron* and *Bladerunner* to classic series such as *The Matrix* and *Star Wars* to recent films such as *Sky Captain* and *the World of Tomorrow* this book is the definitive guide to the imagined aesthetics of the future Through authoritative commentary and interviews with key directors producers production designers and 3D visual artists *Building Sci fi Moviescapes* explores trends and digital visualization methods in science fiction films from the last three decades A celebration in design and creativity in Sci Fi filmmaking for the CG artist Access to revealing interviews with key 3D industry professionals Rich creative inspiration for Sci Fi filmmakers Architecture for a Free Subjectivity Dr Simone Brott, 2013-06-28 *Architecture for a Free Subjectivity* reformulates the French philosopher Gilles Deleuze's model of subjectivity for architecture by surveying the prolific effects of architectural encounter and the spaces that figure in them For Deleuze and his Lacanian collaborator Felix Guattari subjectivity does not refer to a person but to the potential for and event

of matter becoming subject and the myriad ways for this to take place By extension this book theorizes architecture as a self actuating or creative agency for the liberation of purely impersonal effects Imagine a chemical reaction a riot in the banlieues indeed a walk through a city Simone Brott declares that the architectural object does not merely take part in the production of subjectivity but that it constitutes its own This book is to date the only attempt to develop Deleuze s philosophy of subjectivity in singularly architectural terms Through a screening of modern and postmodern American and European works this provocative volume draws the reader into a close encounter with architectural interiors film scenes and other arrangements while interrogating the discourses of subjectivity surrounding them and the evacuation of the subject in the contemporary discussion The impersonal effects of architecture radically changes the methodology just as it reimagines architectural subjectivity for the twenty first century
