Shinrans Gospel Of Pure Grace:

Shinran's Gospel of Pure Grace Alfred Bloom,1965 *Shinran's Gospel of Pure Grace* Alfred Bloom,1991 **The Essential Shinran** Shinran,2007 Renowned scholar Alfred Bloom presents the life and teachings of Shinran Shonin the founder of Shin or Pure Land Buddhism the most populist form of Buddhism in Japan drawing extensively on the writings of this influential Japanese religious reformer **Iron Eyes** Helen J. Baroni,2012-02-01 Iron Eyes focuses on the Japanese Zen master Tetsugen Doko 1630 1682 the best known exponent of boku in Japan and the West boku Zen arose during the seventeenth century and became the third major Zen sect in Japan boku monks encouraged the laity to deepen their knowledge of and commitment to Buddhism Tetsugen is credited with producing the first complete wood block edition of the Chinese Buddhist scriptures in Japan Legend has it that Tetsugen had to raise the money for the project three times twice his great compassion led him to give away the money he had raised to the starving victims of natural disasters This Zen story is well known in Japan and has gained popularity among contemporary Buddhists in the West The first part of this book offers an introduction and a series of analytical chapters describing Tetsugen's life work and teachings as well as the legends related to him The second part comprises annotated translations of his major teaching texts important letters and other historical documents a selection of his poetry and several traditional biographies Discourse and Ideology in Medieval Japanese Buddhism Richard K. Payne,Taigen Dan Leighton,2006-04-18 The medieval period of Japanese religious history is commonly known as one in which there was a radical transformation of the religious culture This book suggests an alternate approach to understanding the dynamics of that transformation One main topic of analysis focuses on what Buddhism its practices and doctrines its traditions and institutions meant for medieval Japanese peoples themselves This is achieved by using the notions of discourse and ideology and juxtaposing various topics on shared linguistic practices and discursive worlds of medieval Japanese Buddhism Collating contributions from outstanding scholars in the field of Buddhist Studies the editors have created an important work that builds on preliminary work on rethinking the importance and meaning of Kamakura Buddhism published recently in English and adds greatly to the debate **Buddhism** Keith Yandell,Harold Netland,2009-05-22 In this clear introduction to Buddhism Keith Yandell and Harold Netland lay out the central metaphysical claims of this significant world religion and then offer an honest comparison with Christianity acknowledging some overlap of belief while also noting the clear and significant differences between the two religions **Living In Amida's Universal Vow** Alfred Bloom,2004-05-14 This is the first comprehensive collection of essays on Shin Buddhism by many of the most important Shin scholars and religious authorities of the last one hundred years **Buddhism** Charles S. Prebish,2010-11-01 Constructing Reality in Comparative Theology Paul S Chung,2023-01-01 In contemporary Western society the church has been pushed to the margins leading experts to describe the current era as a time after Christendom Many traditional churches and congregations are struggling a condition worsened by the COVID 19 pandemic regulations As the practice of

churchgoing wanes the performance of the sacrament is called into question How can we bring the traditional communal experience of sacrament into the modern world Theology in the Context of World Christianity Timothy C.

Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ s global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity
