Ships In The Coral:

The Ship of Coral Henry De Vere Stacpoole, 1911 Encyclopaedia of Ships and Shipping Herbert B. Mason, 1908
Archaeology and the Social History of Ships Richard A. Gould, 2000-04-13 Maritime archaeology deals with shipwrecks and is carried out by divers rather than diggers But this is by no means a marginal branch of archaeology It embraces maritime history analysing changes in ship building navigation reconstructing the infrastructure of waterborne commerce and offers fresh perspectives on the cultures and societies that produced the ships and sailors Drawing on detailed and recent case studies Richard Gould provides an up to date review of the field and a clear exposition of new developments in undersea technologies He also argues for the careful management of underwater cultural resources Ships & Shipbuilders Fred M. Walker, 2010-05-05 In the past three centuries the ship has developed from the relatively unsophisticated sail driven vessel which would have been familiar to the sailors of the Tudor navy to the huge motor driven container ships nuclear submarines and vast cruise liners that ply our seas today Who were the innovators and builders who during that span of time prompted and instigated the most significant advances In the past three centuries the ship has developed from the relatively unsophisticated sail driven vessel which would have been familiar to the sailors of the Tudor navy to the huge motor driven container ships nuclear submarines and vast cruise liners that ply our seas today Who were the innovators and builders who during that span of time prompted and instigated the most significant advances In this new book the author describes the lives and deeds of more the 120 great engineers scientists philosophers businessmen shipwrights naval architects and inventors who shaped ship design and shipbuilding world wide Covering the story chronologically and going back briefly even to Archimedes such well known names as Anthony Deane Peter the Great James Watt Robert Fulton and Isambard Kingdom Brunel share space with lesser known characters like the luckless Frederic Sauvage a pioneer of screw propulsion who unable to interest the French navy in his tests in the early 1830s was bankrupted and landed in debtors prison With the inclusion of such names as Ben Lexcen the Australian yacht designer who developed the controversial winged keel for the 1983 Americas Cup the story is brought right up to date Concise linking chapters place all these innovators in context so that a clear and fascinating history of the development of ships and shipbuilding emerges from the pages An original and important new reference book In the Wake of the Wind-ships Frederick William Wallace, 1927 **Uss Coral Sea Cv-42 Cvb-43 Cva-43 and Cv-43 History and Those Aircraft Carriers Operating with Coral Sea During Her Tour of Service and a Tour of Duty in the U.
