The Origins of Religious Violence Nicholas F. Gier, 2014-08-20 Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan but interfaith conflict also followed colonial incursions in India Sri Lanka and Burma Before that time there was a general premodern harmony among the resident religions of the latter countries and only in the late nineteenth and twentieth centuries did religiously motivated violence break out While conflict caused by Hindu fundamentalists has been serious and widespread a combination of medieval Tibetan Buddhists and modern Sri Lankan Japanese and Burmese Buddhists has caused the most violence among the Asian religions However the Chinese Taiping Christians have the world record for the number of religious killings by one single sect A theoretical investigation reveals that specific aspects of the Abrahamic religions an insistence on the purity of revelation a deity who intervenes in history but one who still is primarily transcendent may be primary causes of religious conflict Only one factor a mystical monism not favored in Judaism Christianity and Islam was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler The Origins of Religious Violence An Asian Perspective uses a methodological heuristic of premodern modern and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence **Art of Generalship** Lt Gen K K Khanna (Retd), 2015-01-01 History has thrilling accounts of brilliant Generals leading small armies to defeat huge forces of their opponents Better the Generalship greater the victories The Indian Army too has produced many great Generals who have defeated evil designs of adversaries Yet they have produced none like Rommel Manstein Model or even like some old Indian warriors like Maharana Pratap Hari Singh Nalwa or Zorawar Singh India can and must produce Generals of that calibre Generals who don t just defend territory or restore status quo but those who annihilate aggressors to teach memorable lessons to adversaries who transgress who initiate punitive actions for conventional and nuclear deterrence to be effective To produce Generals of such calibre the first step is to understand what is good a Generalship Then study Generalship in previous conflicts to appreciate achievements and also learn lessons from opportunities missed Only then the Armed Forces can institute measures to improve the quality of Generalship for the future This book is written to facilitate such study in that order *300 brave Men* Gautam Pradhan, 31-07-17 Land of the Marathas Western India 1641 1660 The Indian sub continent is ruled by three tyrannical Sultanates the powerful Mughals in the North and the Shia rulers Adilshah and Qutubshah in the South The native population suppressed for centuries is subjected to slavery bigotry injustice and even

torture Through generations of subservience the very idea of freedom has been wiped from their minds As incessant battles rage between the Sultanates the soldiers who fight and die on the battlefields are mostly Marathas sons of the soil Villages and crops are repeatedly razed by the invading armies men killed in both peacetime and war their women abducted Maharashtra once a prosperous land ruled by competent native rulers and inhabited by peaceful people has been reduced almost to a wasteland In this dark era the sixteen year old son of an Adilshahi jagirdar stands up to declare I shall not serve and neither shall my people The dream of a free State and an identity for his peoples mouldering in his heart he dares to rebel against the powerful Sultan Adilshah He begins with nothing no army no weapons and an empty treasury Yet he achieves what no soldier chieftain or king has ever achieved in defiance of the imperialists who rule 300 Brave Men is the incredible story of Chhatrapati Shivaji Raje Bhosale a legendary warrior king guerrilla fighter brilliant tactician and clever diplomat But above all a remarkable human being You have read history now read his story India's Wars Arjun

Subramaniam, 2017-09-15 India's armed forces play a key role in protecting the country and occupy a special place in the Indian people's hearts yet standard accounts of contemporary Indian history rarely have a military dimension In India's Wars serving Air Vice Marshal Arjun Subramaniam seeks to rectify that oversight by giving India's military exploits their rightful place in history Subramaniam begins India's Wars with a frank call to reinvigorate the study of military history as part of Indian history more generally Part II surveys the development of the India's army navy and air force from the early years of the modern era to 1971 In Parts III and IV Subramaniam considers conflicts from 1947 to 1962 as well as conflicts with China in 1962 and Pakistan in 1965 and 1971 Part V concludes by assessing these conflicts through the lens of India's ancient strategist Kautilya who is revered in India as much as Sun Tzu is in China Not merely a wide ranging historical narrative of India's military performance in battle India's Wars also offers a strategic operational and human perspective on the wars fought by independent India's armed forces Subramaniam highlights possible ways to improve the synergy between the three services and argues in favor of the declassification of historical material pertaining to national security The author also examines the overall state of civil military relations in India leadership within the Indian armed forces as well as training capability building and other vitally important issues of concern to citizens the government and the armed forces This objective and critical analysis provides policy cues for the reinvigoration of the armed forces as a critical tool of statecraft and diplomacy Readers will come away from India's Wars with a greater understanding of the international environment of war and conflict in modern India Laced with veterans intense experiences in combat operations and deeply researched and passionately written it unfolds with surprising ease and offers a fresh perspective on independent India's history

Sketches of Rulers of India ... George Devereux Oswell, 1908 The Anglo-Maratha Campaigns and the Contest for India Randolph G. S. Cooper, 2003 This is a cross cultural study of the political economy of war in South Asia Randolph G S Cooper combines an overview of Maratha military culture with a battle by battle analysis of the 1803 Anglo Maratha

Campaigns Building on that foundation he challenges ethnocentric assumptions about British superiority in discipline drill and technology He argues that these campaigns in which Arthur Wellesley served with distinction represent the military high water mark of the Marathas who posed the last serious opposition to the formation of the British Raj Dr Cooper asserts that the real contest for India was never a single decisive battle for the subcontinent Rather it turned on a complex social and political struggle for control of the South Asian military economy The author shows that victory in 1803 hinged as much on finance diplomacy politics and intelligence as it did on battlefield manoeuvre and war itself **Sketches of Rulers of India** George Devereux Oswell,1972 Indian Arms and Armour: Human armour and shield Gayatri Nath Pant,1983
