Paul Oliver,1976 *Shelter and Society* C. Theodore Koebel,1998-04-23 Dissatisfied with the performance of government and the for profit sector in the provision of low income housing housing policymakers have increasingly turned to the nonprofit sector The nonprofit housing sector despite its small size in the United States and its serious problems with production and management capacity benefits in the public eye from the positive aura of volunteerism coupled with the vague promise of shifting governmental fiscal burdens to philanthropy and private charity But despite the favorable aura of nonprofit housing governments and housing advocates in the United States display limited understanding of the nonprofit sector This book addresses this deficiency by examining theory research and policy It moves beyond descriptions of current nonprofit housing providers and the programs they use to a deeper level of understanding of the nonprofit housing sector providing the policymaker administrator and advocate as well as the scholar and student with the theoretical and research grounding from which to develop better policies practices and research Contributors to this book include Peter J Boelhouwer Rachel G Bratt Peter Dreier Robert Dyck Scott Hebert C Theodore Koebel William M Rohe Bishwapriya Sanyal Richard Steinberg Harry M H van der Heiden James Wallace and Robert B Whittlesey *The National Humane Review* ,1925
