practices can help us understand the role of institutions in contemporary society

Institutions Interaction and Social Theory takes the reader through the core conceptual foundations of Symbolic Interactionism Ethnomethodology and Conversation Analysis Engaging with a rich tradition in sociological thought it suggests that interactionist perspectives have remained largely absent in the study of institutions and how they contrast with and contribute to the broader field of research in institutional contexts With chapters on healthcare education markets and art and culture this text will be of interest to those studying institutions organisations and work in sociology and in business schools It will also be valuable for students of social theory interested in interactionism and in the challenges and opportunities of connecting complex theoretical discussions to real world examples

Vocation and the Politics of Work Jeffrey Scholes, 2013-03-08 Since Martin Luther vocations or callings have had a close relationship with daily work It is a give and take relationship in which the meaning of a vocation typically negotiates with the kinds of work available and vice versa at any given time While vocation language still has currency in Western culture today s predominant meaning of vocation has little to do with the actual work performed on a job Jeffrey Scholes contends that recent theological treatments of the Protestant concept of vocation both academic and popular often unwittingly collude with consumer culture to circulate a concept of vocation that is detached from the material conditions of work The result is a consumer friendly vocation that is rendered impotent to inform and if necessary challenge the political norms of the workplace For example he classifies Rick Warren s concept of purpose in his best selling book The Purpose Driven Life as a functional equivalent of vocation that acts in this way Other popular uses of vocation along with insights culled from traditional theology and consumer culture studies help Scholes reveal the current state of vocations in the West Using recent scholarship in the field of political theology he argues that resisting commodification is a possibility and a prerequisite for a political vocation if it is at all able to engage the norms that regulate and undermine the pursuit of justice in many modern workplaces
