CB

Consumer Behaviour, 3rd Edition Barry J. Babin, Eric G. Harris, 2023-03-03 The third Canadian edition of CB provides a thorough introduction to consumer behaviour. Students will discover how organizations can create and enhance their marketing strategy, advertising and campaign plans, and product offerings by better understanding their target audiences. This includes a thorough examination of the internal such as perception and motivation and external such as cultural and societal elements that affect consumer decision making. The third edition includes cases based on Canadian businesses, several current examples of customer behaviour, critical thinking exercises, and the latest academic research. *Reasonable Faith (3rd edition)* William Lane Craig, 2008-06-09 Perfect as a textbook yet excellent for lay readers, this updated edition builds a positive case for Christianity by applying the latest thought to core theological themes. J. Gresham Machen once said, "False ideas are the greatest obstacles to the reception of the gospel," which makes apologetics that much more important. Wanting to engage not just academics and pastors but Christian laypeople and seekers, William Lane Craig has revised and updated key sections in this third edition of his classic text to reflect the latest work in astrophysics, philosophy, probability, calculus, the arguments for the existence of God, and Reformed epistemology. His approach, that of positive apologetics, gives careful attention to crucial questions and concerns, including the relationship of faith and reason, the existence of God, the problems of historical knowledge and miracles, the personal claims of Christ, and the historicity of the resurrection of Jesus. He shows that there is good reason to think Christianity is true. As Craig says, "If you have a sound and persuasive case for Christianity, you don't have to become an expert in comparative religions and Christian cults." A positive justification of the Christian faith automatically overwhelms all competing world views lacking an equally strong case. **Eloquent JavaScript, 3rd Edition** Marijn Haverbeke, 2018-12-04 Completely revised and updated, this best-selling introduction to programming in JavaScript focuses on writing real applications.
