Religion and American Cultures Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the nones those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

Religious Violence in Contemporary Japan Ian Reader, 2013-10-11 The Tokyo subway attack in March 1995 was just one of a series of criminal activities including murder kidnapping extortion and the illegal manufacture of arms and drugs carried out by the Japanese new religious movement Aum Shinrikyo under the guidance of its leader Asahara Shoko Reader looks at Aum's claims about itself and asks why did a religious movement ostensibly focussed on yoga meditation asceticism and the pursuit of enlightenment become involved in violent activities Reader discusses Aum's spiritual roots placing it in the context of contemporary Japanese religious patterns Asahara's teaching are examined from his earliest public pronouncements through to his sermons at the

time of the attack and statements he has made in court In analysing how Aum not only manufactured nerve gases but constructed its own internal doctrinal justifications for using them Reader focuses on the formation of what made all this possible Aum s internal thought world and on how this was developed Reader argues that despite the horrors of this particular case Aum should not be seen as unique nor as solely a political or criminal terror group Rather it can best be analysed within the context of religious violence as an extreme example of a religious movement that has created friction with the wider world that escalated into violence
