Short History Of The Netherlands

JR Anderson

Short History Of The Netherlands:

A Short History of the Netherlands Ivo Schöffer, 1973 **A Short History of the Netherlands (Holland and Belgium)** Alexander Young, 1886 A Short History of the Netherlands P. J. A. N. Rietbergen, 1998

The development of the Netherlands over the centuries has been a remarkable one. Situated at the end of Europe between land and water its people have for more than three thousand years fought to make the best of a country unfavoured by nature. They have shaped it into one of the world's foremost economic powers but also and even more importantly into a society that prides itself on having reached a fair balance between material and social well being. The history of this achievement is a fascinating one. Since time immemorial it is the history of the struggle against the sea of man seeking to dominate the forces of water. It is the history of the early medieval Dutch traders who travelled all over Europe to sell their wares. It is the history of the activities of the world's first multinationals the Dutch East and West India Companies that spanned the entire globe. It is also the history of the loss of colonial empire and of the triumphant rebuilding of a mainly commercial economy into a mainly industrial one whose activities once again span the globe. It is of course also the history of a culture to match of commonsense and realism of the wonderful works of art produced by the Dutch Golden Age of the seventeenth century and of the many attainments of Dutch civilization in more recent years. For all those who are often amazed at the industry and achievements of this small nation the *Short History of the Netherlands* offers a succinct historical tale that goes a long way to elucidate the country's past and thus explain its present.

A Short History of the Netherlands Antilles and Surinam Cornelis C. Goslinga, 2012-12-06

To English speaking historians the author of this book a Dutchman who for many years now finds his base at the University of Florida became well known when his *The Dutch in the Caribbean and on the Wild Coast 1581-1680* was published in 1972. At that time Professor Goslinga who prior to his academic career in the United States lived for an extended period in Curaçao Netherlands Antilles had already acquired a solid reputation among Dutch Caribbeanists by his manifold publications on social political and maritime aspects of Dutch West Indian history. By his training interests and present position Dr Goslinga would seem to me to be singularly well equipped to write a comprehensive history geared to an English speaking university public of what was once known as the Netherlands West Indies. The present book is the product of this professional equipment and of his long teaching experience. It should go a long way in filling the old and wide gap in historical information on this part of the former Dutch empire and I hope an equally wide but younger audience will appreciate it.

A Short History of the Netherlands Petrus Johannes Antonius Nicolaas Rietbergen, 2014

The development of the Netherlands over the centuries has been a remarkable one. Situated at the end of Europe between land and water its people have for more than three thousand years fought to make the best of a country unfavoured by nature. They have shaped it into one of the world's foremost economic powers but also and even more importantly into a society that prides itself on having reached a fair balance between material and social well being.
