

# Sexual Orientation

## The Biological Component:

### ⌘ Evolutionary considerations:

Premise 1: Sexual desire and romantic love are functionally independent

Premise 2: Romantic love is not intrinsically oriented to same-gender or other-gender partners.

Premise 3: The links between love and desire are bidirectional.

### ⌘ Heritability estimates account for only about 50% of same-sex orientation. (Twin studies)

⌘ Seem through twin studies.

⌘ Other hormonal effects on human sexuality are difficult to assess because studies are dependent on “experiment of nature” to determine effects.

Alexis, 2022-04-25 In Kevin MacDonald's Metaphysical Failure Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald's thought in particular MacDonald's belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique

of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's *Metaphysical Failure* presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor

The Castration of Oedipus Joseph C. Smith, Carla J. Ferstman, 1996-03 The intellectual movements of psychoanalysis postmodernism and feminism have redefined the ways in which we think about human experience And yet an integration of these movements has been elusive if not impossible In this landmark book J C Smith and Carla J Ferstman combine these disparate traditions to create a provocative unified and tightly woven perspective that transcends the misogyny implicit in much of Freudian psychoanalytic theory The dialectics of domination and submission are central to Smith and Ferstman's argument Men and women they insist must avoid the temptation to fetishize equality and recognize the roles of domination and submission in the human psyche or in Nietzsche's terms the Will to Power They argue that the unification of psychoanalysis postmodernism and feminism leads us to a shocking conclusion that women and men cannot move beyond the suffering which so haunts the human condition unless heterosexual men surrender the power that is causing their misery and affirm life by joyfully accepting domination by women

And women conversely must reaffirm their power by rejecting Oedipal genderization and embracing a liberating matriarchal consciousness and a matrifallic sexuality A work of tremendous insight and extraordinary intellectual energy The  
Castration of Oedipus will provoke strong reactions in all readers regardless of ideology
