The Power and Vulnerability of Love Elizabeth O'Donnell

Gandolfo, 2015-02-01 Gandolfo constructs a theological anthropology that begins with the condition of human vulnerability as a site to answer why human beings experience and inflict terrible suffering This volume argues that vulnerability is a dimension of human existence that causes us great anxiety which forms the basis for violence but also affords the possibility of human openness to the redemptive work of divine love Poised paradoxically between tragic and redemptive vulnerability human beings need existential resources and empowering practices to cope with and manage our vulnerability in more compassionate ways

They Call It Love Alva Gotby, 2023-01-31 The work of love is a feminist problem and it demands feminist solutions Comforting a family member or friend soothing children providing company for the elderly ensuring that people feel well enough to work this is all essential labour Without it capitalism would cease to function *They Call It Love* investigates the work that makes a haven in a heartless world examining who performs this labor how it is organised and how it might change

In this groundbreaking book Alva Gotby calls this work emotional reproduction unveiling its inherently political nature It not only ensures people s well being but creates sentimental attachments to social hierarchy and the status quo Drawing on the thought of the feminist movement Wages for Housework Gotby demonstrates that emotion is a key element of capitalist reproduction To improve the way we relate to one another will require a radical restructuring of society *Imagine The World Of Tomorrow* Xavier Pavie,2025-06-04 What is imagination It is what allows humans to differentiate ourselves from machines In the era of artificial intelligence machine learning and deep learning it is more crucial than ever for humans to develop and cultivate their imaginations to survive This book demonstrates the importance of imagination It brings together a large number of one of kind personalities from all walks of life from philosophers and artists to scientists and teachers among them household names such as Jacques Attali Liu Thai Ker Boris Cyrulnik Michel Serres Rob Hopkins Jean Marc Jancovici and C215 What each personality has in common is the fact they have imagined their lives in a unique way bringing to the table a fresh perspective on creativity and human nature Through their contributions readers will gain a better understanding of the role and importance of imagination and be inspired by their paths which are as different as they are original The Subject, Capitalism, and Religion J. Sung,2011-11-09 In order to fight for a more just society it is necessary to elaborate upon the theoretical reflections that critically analyze the faith and myths that support and legitimize the trajectory of contemporary capitalism and its utopia as well as the faith and the complex relation that exists in between the notions of the subject and societies The Wisdom and Power of the Cross Richard Viladesau,2020-09-17 The Wisdom and Power of the Cross is the fifth and final entry in Richard Viladesau s well regarded series on the theology of the cross from the historical crucifixion of Jesus to the present day Continuing his analysis of theological history through cultural contexts this volume correlates theoretical approaches with artistic representations showing the relation of theoretical to imaginative approaches The Wisdom and Power of the Cross examines modern and contemporary thought and images which look at the cross in the light of modern historical and scriptural studies science and the novelties of modern and post modern art and music Viladesau here considers how the passion of Christ has been thought about by theologians and portrayed by artists in the modern world Contemporary art and music reveal the lasting power of traditional images of the passion as well as new possibilities for expression The Wisdom and Power of the Cross surveys both traditional approaches to soteriology and revisionist theologies that take up the challenge of the meaning of the cross today in light of critical historical studies and modern science providing new understandings of traditional concepts like original sin and redemption Through his in depth exploration of the interweaving of aesthetic and conceptual theology Viladesau once more deepens our understanding of the foremost symbol of Christianity and its role in salvation history Contradictions of Capitalist Society and Culture Raju J Das,2023-05-15 Love and truth are important aspects of culture Signifying the crisis of capitalist culture in the contemporary world are their opposites i e hate and lying respectively There is rampant lying for ideological political purposes There is also

an increasing absence of genuine love i.e. love as caring and solidarity which under certain conditions takes romantic forms. Ideological political lying is connected to the corruption of love with its confinement to the private sphere of individuals and consequent isolation from the wider unequal society. This connection is via capitalism. On the one hand capitalism resorts to ideological political lying to cover up its contradictions that cause alienation suffering of the masses. Lying and alienation suffering are not conducive to genuine love in society. On the other hand a crisis ridden capitalism produces the right wing politics of lying post truth politics. This is also a politics of hatred or post love or anti love against minorities democrats and socialists a politics that is justified by lies about these subjects. The fight against hate politics and post truth politics must be part of the fight for a post capitalist world socialist democracy imagined as a truthful and caring world. *A Pope for All Seasons* Monika Jablonska, 2023-01-12. This book explores the notion of neighbourly law. In the twentieth century some German church law scholars viewed neighbour law as the foundational principle of the church law system. However this perspective has since evolved. Around the year 2000 there was a growing focus in the Anglo Saxon world on the relationship between love and law. Although neighbour law can no longer be regarded as the sole foundation of church law the obligation remains to reflect critically on the role of the neighbour in legal theological discourse the development and codification of church law and its practical application. Canon law is a diaconal ordering of God's love or neighbour law. **What's Love Got to Do with It?** Thomas J. Scheff, 2015-11-17. What do pop songs have to say about love? Surprisingly this book shows that most popular love songs express much more about alienation infatuation estrangement jealousy and heartbreak than about love. Scheff takes the reader on a tour of popular lyrics from 80 years of American song to reveal the emotional and relational meaning of lyrics. He shows that popular love songs typically steer listeners away from a healthy connection to the emotions surrounding love. Readers will gain a deeper understanding of love songs while appreciating the author's suggestions for how listeners and artists could enrich the art of the love song. **Living in Truth, Beauty, and Goodness** Jeffrey Wattles, 2016-07-21.
