Saving Power Peter Schmiechen,2005 Jesus death and resurrection are undeniably central to the Christian faith But how precisely is their significance to be understood Concerned to reinvigorate the church s teaching on the cross the resurrection and salvation the atonement Peter Schmiechen here invites readers to rediscover the wealth of the Christian tradition In Saving Power he makes ample use of primary sources to unpack ten distinct theories of atonement welcoming aspects of each rather than championing only one Along the way he demonstrates that while most Christians assume the basic theme of atonement to be sin and forgiveness other powerful themes liberation from oppressive powers reconciliation in the face of division and the hope of resurrection in the face of death for instance also deserve to be studied and preached Affirming orthodox teaching while offering a positive take on marginal views Saving Power is a crucial resource for anyone who seeks a fuller understanding of Christ s work

The J. H. Bavinck Reader Johan Herman Bavinck,2013-06-03 Crucial themes and issues explored by a premier missiologist Johan Herman Bavinck 1895 1964 was a prominent twentieth century Dutch Calvinist missiologist who wrestled with the tension between religious absolutism and relativism as many Christians do in today s pluralistic context The J H Bavinck Reader gathers together a choice selection of Bavinck s significant writings that are essential for understanding his theology of missions his approach to world religions and his religious psychology His treatment of religious consciousness and Christian faith expands on the brief treatment of it in his own work The Church Between Temple and Mosque The concluding chapters show how Bavinck s theoretical reflection on religious consciousness was rooted in his close observation during his years as a missionary in Indonesia Offering a

constructive way forward Bavinck affirms both the particularity of salvation in Christ and the universality of the Christian hope A substantial introduction enhances the book with the most thorough biographical sketch of Bavinck available

Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1987 Our Fellow Shakespeare Horace James Bridges,1916 **The Decline of Magic** Michael Hunter,2020-01-07 A new history that overturns the received wisdom that science displaced magic in Enlightenment Britain named a Best Book of 2020 by the Financial Times In early modern Britain belief in prophecies omens ghosts apparitions and fairies was commonplace Among both educated and ordinary people the absolute existence of a spiritual world was taken for granted Yet in the eighteenth century such certainties were swept away Credit for this great change is usually given to science and in particular to the scientists of the Royal Society But is this justified Michael Hunter argues that those pioneering the change in attitude were not scientists but freethinkers While some scientists defended the reality of supernatural phenomena these sceptical humanists drew on ancient authors to mount a critique both of orthodox religion and by extension of magic and other forms of superstition Even if the religious heterodoxy of such men tarnished their reputation and postponed the general acceptance of anti magical views slowly change did come about When it did this owed less to the testing of magic than to the growth of confidence in a stable world in which magic no longer had a place
