Against the Law Ching Kwan Lee, 2007 This powerful study opens a critical perspective on the slow death of socialism and the rebirth of capitalism in the world's most dynamic and populous country. Based on remarkable fieldwork and extensive interviews in Chinese textile, apparel, machinery, and household appliance factories, *Against the Law* dissects the world of Chinese workers today and finds a rising tide of labor unrest, mostly hidden from the world's attention. Intense working-class agitation is being spurred by massive unemployment of Mao's socialist proletariat in the northern rustbelt and by the exploitation of millions of young workers in the southern sunbelt. Providing a broad comparative political and economic analysis of the vast mosaic of this labor struggle, together with unprecedented fine-grained ethnographic detail, the book portrays the multi-faceted humanity of the Chinese working class as their stories unfold in bankrupt state factories and global sweatshops, in crowded dormitories and remote villages, at heroic moments of street protests as well as in quiet disenchantment with the corrupt officialdom and the fledgling legal system.
