Main Philosophical Writings And The Novel Allwill:

Main Philosophical Writings and the Novel Allwill Friedrich Heinrich Jacobi, 1995-02-17 Jacobi's polemical tract Concerning the Doctrine of Spinoza in Letters to Herr Moses Mendelssohn propelled him to notoriety in 1785 This work as well as David Hume on Faith or Idealism and Realism Jacobi to Fichte and the novel Allwill is included in George di Giovanni's translation In a comprehensive introductory essay di Giovanni situates Jacobi in the historical and philosophical context of his time and shows how Jacobi's life and work reflect the tensions inherent in the late Enlightenment

Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

Kantian Reason and Hegelian Spirit Gary Dorrien, 2015-03-16 Winner 2012 The American Publishers Award for Professional and Scholarly Excellence in Theology and Religious Studies PROSE Award In this thought provoking new work the world renowned theologian Gary Dorrien reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Presents a radical rethinking of the roots of modern theology Reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Shows how it took Kant's writings on ethics and religion to launch a fully modern departure in religious thought Dissects Kant's three critiques of reason and his moral conception of religion Analyzes alternative arguments offered by Schleiermacher Schelling Hegel and others moving historically and chronologically through key figures in European philosophy and theology Presents notoriously difficult and intellectual arguments in a lucid and accessible manner

A New German Idealism Adrian Johnston, 2018-05-01 In 2012 philosopher and public intellectual Slavoj Žižek published what arguably is his magnum opus the one thousand page tome Less Than Nothing Hegel and the Shadow of Dialectical Materialism A sizable sequel appeared in 2014 Absolute Recoil Towards a New Foundation of Dialectical Materialism In these two books Žižek returns to the German idealist G W F Hegel in order to forge a new materialism for the twenty first century Žižek's reinvention of Hegelian dialectics explores perennial and contemporary concerns humanity's relations with nature the place of human freedom the limits of rationality the roles of spirituality and religion and the prospects for radical sociopolitical change In A New German Idealism Adrian Johnston offers a first of its kind sustained critical response to Less Than Nothing and Absolute Recoil Johnston a leading authority on and interlocutor of Žižek assesses the recent return to Hegel against the backdrop of Kantian and post Kantian German idealism He also presents alternate reconstructions of Hegel's positions that differ in important respects from Žižek's version of dialectical materialism In particular Johnston criticizes Žižek's

deviations from the secular naturalism and Enlightenment optimism of his chosen sources of inspiration not only Hegel but Karl Marx and Sigmund Freud too In response Johnston develops what he calls transcendental materialism an antireductive and leftist materialism capable of preserving and advancing the core legacies of the Hegelian Marxian and Freudian traditions central to i ek **The Palgrave Handbook of German Romantic Philosophy** Elizabeth Millán

Brusslan,2020-12-15 This Handbook provides a comprehensive and authoritative analysis of the philosophical dimensions of German Romanticism a movement that challenged traditional borders between philosophy poetry and science With contributions from leading international scholars the collection places the movement in its historical context by both exploring its links to German Idealism and by examining contemporary related developments in aesthetics and scientific research A substantial concluding section of the Handbook examines the enduring legacy of German romantic philosophy Key Features Highlights the contributions of German romantic philosophy to literary criticism irony cinema religion and biology Emphasises the important role that women played in the movement s formation Reveals the ways in which German romantic philosophy impacted developments in modernism existentialism and critical theory in the twentieth century Interdisciplinary in approach with contributions from philosophers Germanists historians and literary scholars Providing both broad perspectives and new insights this Handbook is essential reading for scholars undertaking new research on German romantic philosophy as well as for advanced students requiring a thorough understanding of the subject **The One and the Others**

Andrew Cutrofello,2025-11-15 An original account of Western metaphysics based on Plato s Parmenides At the end of Plato s Parmenides Parmenides concludes that whether the One is or is not it and the Others both are and are not and both appear and do not appear all things in all ways Throughout the history of philosophy various attempts have been made to make sense of Plato s puzzling dialectical exercise In this ambitious book Andrew Cutrofello shows how Kant and Hegel extended it how contemporary philosophers including Graham Priest and Alain Badiou have reinterpreted it and how poets such as Dante Shakespeare Blake Wordsworth and Susan Howe have channeled it What emerges is an original conception of the history of metaphysics as a series of antinomies and of metaphysical poetry as a type of antinomianism *Kant in Context* Daniel Patrick Kelly,2023-11-03 Kant in Context The Historical Primacy of the Transcendental Dialectic examines the introduction of Kant s critical philosophy through the lens of historical contextualization Daniel Patrick Kelly argues that Kant s seismic Copernican epistemic turn must be adequately positioned and understood within the German philosophical landscape that developed in Spinoza s wake This necessary historical analysis illuminates the development and comparative strength of Kant s emergent transcendental idealism However in order to render the introduction of Kant s critical system sufficient to this historical task this book heuristically organizes the contents of the Critique of Pure Reason to highlight the work s meta philosophical historical conclusions In this revised take on Kant s Critique Kelly argues that the Transcendental Aesthetic and subsequent Transcendental Dialectic emerge as foundational in understanding Kant s Critique as a profound historical

methodological development as they justify and ground the call for his new and supporting science of cognition placing the Transcendental Analytic as inherently secondary in this heuristic reading of the Critique The author's overarching contention is that Kant's identification of the dialectical limitations of metaphysical reasoning provides a more solid justification for Kant's transcendental idealism than that of the novel postulates of the Analytic Creative Evolution Henri Bergson, 2022-12-01 First published in French in 1907 Henri Bergson's *Evolution créatrice* is a scintillating and radical work by one of the great French philosophers of the nineteenth and twentieth centuries This outstanding new translation the first for over a hundred years brings one of Bergson's most important and ambitious works to a new generation of readers A sympathetic though critical reader of Darwin Bergson argues in *Creative Evolution* against a mechanistic reductionist view of evolution For Bergson all life emerges from a creative shared impulse which he famously terms *lan vital* and which passes like a current through different organisms and generations over time Whilst this impulse remains as forms of life diverge and multiply human life is characterized by a distinctive form of consciousness or intellect Yet as Bergson brilliantly shows the intellect's fragmentary and action oriented nature which he likens to the cinematograph means it alone cannot grasp nature's creativity and invention over time A major task of *Creative Evolution* is to reconcile these two elements For Bergson the answer famously lies in intuition which brings instinct and intellect together and takes us into the very interior of life A work of great rigour and imaginative richness that contributed to Bergson winning the Nobel Prize for Literature in 1927 *Creative Evolution* played an important and controversial role in the trajectory of twentieth century philosophy and continues to create significant discussion and debate The philosopher and psychologist William James who admired Bergson's work was writing an introduction to the first English translation of the book before his death in 1910 This new translation includes a foreword by Elizabeth Grosz and a helpful translator's introduction by Donald Landes Also translated for the first time are additional notes articles reviews and letters on the reception of *Creative Evolution* in biology mathematics and theology This edition includes fascinating commentaries by philosophers Maurice Merleau Ponty Georges Canguilhem and Gilles Deleuze

Reason and Conversion in Kierkegaard and the German Idealists Ryan Kemp, Christopher Iacovetti, 2020-05-10 In his late work *Religion within the Boundaries of Mere Reason* Immanuel Kant struggles to answer a straightforward yet surprisingly difficult question how is radical conversion a complete reorientation of a person's most deeply held values possible In this book Ryan S Kemp and Christopher Iacovetti examine how this question gets taken up by Kant's philosophical heirs Schelling Fichte Hegel and Kierkegaard More than simply developing a novel account of each thinker's position Kemp and Iacovetti trace how each philosopher formulates his theory in response to tensions in preceding views culminating in Kierkegaard's claim that radical conversion lies outside a person's control Kemp and Iacovetti close by examining some of the moral psychological implications of Kierkegaard's account particularly the question of how someone might responsibly relate to values that have by their own admission been acquired in contingent and accidental fashion **Fichte, German**

Idealism, and Early Romanticism Daniel Breazeale, Tom Rockmore, 2010 This volume of 23 previously unpublished essays explores the relationship between the philosophy of J G Fichte and that of other leading thinkers associated with German Idealism and the early Romantic movement Several papers explore the broader question of Fichte's relationship and contribution to German idealism and German romanticism in general while others offer comparative studies of the relationship between Fichte's writings and those of Leibniz Kant Schelling Hegel Friedrich Schlegel Novalis Schleiermacher and Wilhelm von Humboldt Taken collectively this set of essays provides anglophone readers with a new and historically accurate understanding of the origin development and reception of Fichte's philosophy in the context of its own era and in relationship to the most important intellectual movements of the time The authors include both well established and internationally recognized experts in their fields as well as younger scholars with fresh and challenging perspectives to offer This volume proposes a new interpretation of the history of German idealism in general and of the place therein of Fichte's Wissenschaftslehre It emphasizes the intimate connection between transcendental idealism and German romanticism and shows how developments within each of these intellectual movements reflected and in turn influenced developments within the other Finally it sheds new light on Fichte's own philosophical development and does so by relating the various stages of his writings to other contemporary movements and authors
