Flying Saucers and Science (EasyRead Large Bold Edition) , The Change Agent - Paradigm Shift in Consciousness Bruce Barcomb,2022-05-06 The Change Agent Paradigm Shift in Consciousness is an evolutionary look at who we are in the universal consciousness As imperfect as we are as a species we share a common thread of belief systems predicated on learned internalized data What have we seen learned practiced and become Are we capable of self examination Without the ability to examine our thoughts ideas or learned practices we are forever bound to arcane ideas or behaviors that do not reflect our natural ability to adapt The Change Agent Paradigm Shift in Consciousness reflects our collective and individual human condition spanning a few millennia In correlating the foundations of our collective concepts from books films history facts and conspiracies are incorporated all backed by supporting referential materials *The Myth and Mystery of UFOs* Thomas E. Bullard,2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent

attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
