The Mallen litter, Catherine Cookson Catherine Cookson, **A Dictionary of Writers and their Works** Christopher Riches,Michael Cox,2015-01-29 Over 3 200 entries An essential guide to authors and their works that focuses on the general canon of British literature from the fifteenth century to the present There is also some coverage of non fiction such as biographies memoirs and science as well as inclusion of major American and Commonwealth writers This online exclusive new edition adds 60 000 new words including over 50 new entries dealing with authors who have risen to prominence in the last five years as well as fully updating the entries that currently exist Each entry provides details of a writer s nationality and birth death dates followed by a listing of their titles arranged chronologically by date of publication

British Working Class women authors (born before 1962) a list Stefan Szczelkun ,2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s Writing on the Line 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel

Of Modern Dragons John Lennard,2007 **The Woman's Historical Novel** D. Wallace,2004-11-19 The historical novel has been one of the most important forms of women s reading and writing in the twentieth century yet it has been consistently under rated and critically neglected In the first major study of British women writers use of the genre Diana Wallace tracks its development across the century She combines a comprehensive survey with detailed readings of key writers including Naomi Mitchison Georgette Heyer Sylvia Townsend Warner Margaret Irwin Jean Plaidy Mary Renault Philippa Gregory and Pat Barker

Catherine Cookson Country Julie Taddeo,2016-12-05 Britain s most widely read author of the late twentieth century Catherine Cookson published more than 100 books including The Fifteen Streets The Black Velvet Gown and Katie Mulholland Set in England s industrial northeast her novels depict the social economic and emotional hardships of that area In the first essay collection devoted to Cookson the contributors examine what Cookson s memoirs and historical fiction mean to readers including how her fans contribute to her position in the cultural imaginary constructions of gender class and English and Irish identity in her work the importance of place in her novels Cookson s place in the heritage

industry and television adaptations of Cookson's works Cookson's work tackled topics that were still taboo in the early post World War II era such as domestic abuse rape and incest This collection places Cookson in historical context and shows how skillful she was at pushing generic boundaries

Falling for London Sean Mallen, 2018-10-13 When Sean Mallen finally landed his dream job it fell on him like a ton of bricks Not unlike the plaster in his crappy overpriced London flat The veteran journalist was ecstatic when he unexpectedly got the chance he'd always craved to be a London based foreign correspondent It meant living in a great city and covering great events starting with the Royal Wedding of William and Kate Except his tearful wife and six year old daughter hated the idea of uprooting their lives and moving to another country Falling for London is the hilarious and touching story of how he convinced them to go how they learned to live in and love that wondrous but challenging city and how his dream came true in ways he could have never expected

Rewriting English Janet Batsleer, Tony Davies, Rebecca O'Rourke, Chris Weedon, 2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it Yet this is nowhere more apparent than in the central field of what may in general terms be called literary studies New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study
