Gordon Plummer,1982-08 *Mathematics and the Question of Cosmic Mind* Cassius Jackson Keyser,1935 **The Sheldrake Shift** Dr. Thomas Stark, You think you understand Rupert Sheldrake s theory of formative causation and morphic resonance You have no idea how deep the rabbit hole goes Sitting beneath his theory is the most extraordinary theory of all the theory that changes everything **Catalog of Copyright Entries. Kabbalah, Hermeticism and M-theory Michael Faust,2013-02-10 M theory the latest attempt by scientists to formulate a grand theory of everything is doomed to failure from the outset Why Because it ignores the unextended domain outside space and time the domain of zero and infinity M theory explicitly sets out to prevent the appearance of zero and infinity in any of its equations It is the last will and testament of materialism its concluding grand folly before it confronts the truth of an immaterial partner to the material world So here is the tale of the cosmos We will take you on the strangest journey from Kabbalism Zoroastrianism Manichaeism Gnosticism Hermeticism Rosicrucianism Platonism Neoplatonism the Emerald Tablet the Golden Dawn Aleister Crowley the perennial philosophy genius Aristotle entelechy Forms and matter mind and matter universals and particulars all the way to M theory Judge for yourself who has the better answers regarding the true nature of existence scientists or the Pythagorean Illuminati **Cosmic Consciousness** Richard Maurice Bucke,1923 The God Game Mike Hockney,2013-09-30 What is the answer to everything Pythagoras provided a glimpse of the answer 2 500 years ago when he declared All things are numbers Mathematics is literally everything Unlike science mathematics offers certainty and absolute knowledge Mathematics unifies science religion and metaphysics and is the true Grand Unified Theory of Everything No experiment can ever contradict a mathematical truth Mathematics is the ONLY answer to everything Mathematics is the ONLY subject inherently about eternal Platonic truth The God Series starting with The God Game reveals the astonishing power of ontological mathematics to account for everything Isn t it time to convert to to the world s only rational religion Illuminism the Pythagorean religion of mathematics that infallibly explains all things and guarantees everyone a soul that s not only eternal and indestructible but also has the capacity to make each of us a true God Isn t it time to become Illuminated The God Series is what God ought to have delivered to humanity rather than the Bible Knowledge rather than faith Truth rather than fantasy *The Holographic Soul* Mike Hockney,2016-01-02 Where is your mind located How does it interact with your body When your body dies does your mind die too or does it have an afterlife That s the mystery of existence If humanity cannot answer these questions once and for all then it has no understanding of reality Holography is what allows scientific materialism to be replaced by mathematical idealism Holography allows the soul rather than matter to be considered the source of reality Over 300 years ago Leibniz with his Monadology adopted a holographic model of reality whereby dimensionless monads created the illusion of the dimensional material world The answer to

existence has always been right in front of humanity in the shape of mathematics The spacetime universe of matter is nothing but an ontological hologram that comes inbuilt with mathematical forcefields that lend it the illusion of being solid It's all in the math Everything starts with unextended minds dimensionless Fourier singularities mathematical souls **Gaither's Dictionary of Scientific Quotations** Carl C. Gaither, Alma E. Cavazos-Gaither, 2012-01-04 This unprecedented collection of 27 000 quotations is the most comprehensive and carefully researched of its kind covering all fields of science and mathematics With this vast compendium you can readily conceptualize and embrace the written images of scientists laymen politicians novelists playwrights and poets about humankind's scientific achievements Approximately 9000 high quality entries have been added to this new edition to provide a rich selection of quotations for the student the educator and the scientist who would like to introduce a presentation with a relevant quotation that provides perspective and historical background on his subject Gaither's Dictionary of Scientific Quotations Second Edition provides the finest reference source of science quotations for all audiences The new edition adds greater depth to the number of quotations in the various thematic arrangements and also provides new thematic categories *What Is Mathematics?* Dr. Thomas Stark, So you know what mathematics is right Well if you do you're a smarter person than Nobel laureates Albert Einstein and Eugene Wigner who were baffled by what mathematics is and how it relates to science and the world Wigner wrote a famous paper entitled The Unreasonable Effectiveness of Mathematics in the Natural Sciences No scientist has ever explained why mathematics is so uncannily appropriate to describing Nature Galileo said The Book of Nature is written in mathematical language and its characters are triangles circles and other geometric figures without which it is impossible to humanly understand a word without these one is wandering in a dark labyrinth Do you want to escape from the dark labyrinth Then you must discover what mathematics really is The answer will blow your mind Guaranteed Come on the greatest detective adventure of them all where you do nothing but exercise pure deduction Come and be a cosmic Sherlock Holmes Put on your deerstalker and practice the pristine science of deduction Determining the true nature of mathematics is the No 1 problem facing humanity To explain mathematics is to explain reality itself Psychophysics Mike Hockney, 2015-09 One hundred percent of scientists think that Einstein's special theory of relativity is correct One hundred percent of scientists are wrong Isn't that astounding Why is it so hard for scientists to see the blatant errors in Einstein's logic The central reason for the failure of Einstein's theory as an account of ultimate existence is that like everything else in science it denies the real existence of mind Once mind is admitted to physics Einstein's fallacies become obvious To refute both Einstein only one thing is required to place an eternal non sensory mathematical Singularity at the centre of the spacetime universe This Singularity is a Fourier frequency domain but is functionally equivalent to a Cosmic Mind Because it's an immaterial dimensionless entity outside space and time the Singularity is undetectable by any scientific experiment yet its existence automatically disproves all claims of scientific materialism regarding the fundamental nature of reality **Mathematically Speaking** C.C.

Gaither,Alma E Cavazos-Gaither,1998-01-01 For the first time a book has brought together in one easily accessible form the best expressed thoughts that are especially illuminating and pertinent to the discipline of mathematics Mathematically Speaking A Dictionary of Quotations provides profound wise and witty quotes from the most famous to the unknown You may not find all the quoted jewels that exist but you will definitely a great many of them here The extensive author and subject indexes provide you with the perfect tools for locating quotations for practical use or pleasure and you will soon enjoy discovering what others have said on topics ranging from addition to zero This book will be a handy reference for the mathematician or scientific reader and the wider public interested in who has said what on mathematics **Foundations**

relationship to the earth in the context of the cosmos Transconsciousness Steve Madison, 2020-10-12 Are you one of the few individuals capable of understanding and attaining Transconsciousness Dante Hegel and Philip K Dick were pioneers in this field Can you join the greats Inside Reality Dr. Thomas Stark, There are those such as scientists who see only the outside of reality its appearance its surface its phenomenal aspect They are blind to the inside the substance the foundation the noumenal aspect They dismiss it as non existent or illusion or epiphenomenon Scientists are those that believe that phenomena have no underlying noumena What you see is what you get Seeing is believing Everything is appearance Nothing is concealed There are no hidden variables and no unobservables The scientific method says Observe That works only if everything is observable If there are foundational unobservables science is catastrophically wrong and has cut itself off from the truth The only truth it can furnish is that of surfaces and appearances with no substance Those who truly want to understand reality must become masters of both perspectives inside and outside noumenon and phenomenon and see how they relate communicate and interact *The False Awakeners: Illusory Enlightenment* Mark Romel, 2018-04-10 False Awakening A convincing dream about awakening from sleep when in reality you are still asleep Wake up What is the most sinister world you can imagine the worst of all possible worlds It s the one where all of the people are endarkened but believe themselves enlightened None of them wants to change because they think they are perfect They exist forever in this benighted condition doing nothing to discover the Truth of reality to find the answers to existence to see the real light rather than the fake light Our world is full of the fake enlightened the phony awakened the fraudulent lightworkers The so called light they perceive is darkness visible i e Satanic light the light of hell Nothing is more dangerous than a false awakening The world is full of legions of the falsely awakened of endarkened zombies They are still asleep still inside the cave and merely dreaming that they have seen the light Wake up
