**Suffering and Sentiment in Romantic Military Art** Philip Shaw, 2017-07-05 In a moving intervention into Romantic era depictions of the dead and wounded Philip Shaw s timely study directs our gaze to the neglected figure of the common soldier How suffering and sentiment were portrayed in a variety of visual and verbal media is Shaw s particular concern as he examines a wide range of print and visual media from paintings to sketches to political prose and anti war poetry and from writings on culture and aesthetics to graphic satires and early photographs Whilst classical portraiture and history painting certainly conspired with official ideologies to deflect attention from the true costs of war other works of art literary as well as visual proffered representations that countered the view that suffering on and off the battlefield is noble or heroic Shaw uncovers a history of changing attitudes towards suffering from mid eighteenth century ambivalence to late eighteenth and early nineteenth century concepts of moral sentiment Thus Shaw s story is one of how images of death and wounding facilitated and queried these shifts in the perception of war qualifying as well as consolidating ideas of individual and

national unanimity Informed by readings of the letters and journals of serving soldiers surgeons notebooks and sketches and the writings of peace and war agitators Shaw s study shows how an attention to the depiction of suffering and the development of liberal sentiment enables a reconfiguring of historical and theoretical notions of the body as a site of pain and as a locus of violent national imaginings *De Luxe Illustrated Catalogue of Early American Portraits* Thomas Benedict Clarke,1919 **Illustrated Catalogue of the Remarkable and Widely Known Collection of Early American and British Portraits** American Art Association,1920 **Book Review Digest** ,1983 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher **Public Art, Memorials and Atlantic Slavery** Celeste-Marie Bernier,Judie Newman,2013-09-13 In this collection distinguished American and European scholars curators and artists discuss major issues concerning the representation and commemoration of slavery as brought into sharp focus by the 2007 bicentennial of the abolition of the slave trade Writers consider nineteenth and twentieth century American and European images of African Americans art installations photography literature sculpture exhibitions performances painting film and material culture This is essential reading for historians cultural critics art historians educationalists and museologists in America as in Europe and an important contribution to the understanding of the African diaspora race American and British history heritage tourism and transatlantic relations Contributions include previously unpublished interview material with artists and practitioners and a comprehensive review of the commemorative exhibitions of 2007 Illustrations include images from Louisiana Maryland and Virginia many previously unpublished in black and white which challenge previous understandings of the aesthetics of slave representation This book was published as a special issue of *Slavery and Abolition* **Britannia's Palette** Nicholas Tracy,2007-02-09 Britannia s Palette looks at the lives of British artists who witnessed the naval war against the French Republic and Empire between 1793 and 1815 This band of brothers through their artistic and entrepreneurial efforts established the images of the war at sea that were central to the understanding their contemporaries had of events images that endure to this day In this unprecedented book Nicholas Tracy reveals the importance of the self employed artist to the study of a nation at war He includes lively accounts of serving officers retired sailors and academy trained artists who often under the threat of debtor s prison struggled to balance the standards of art with the public desire for heroic reassuring images Containing over eighty illustrations Britannia s Palette explores a varied and exciting collection of paintings that reveal the poignancy of the human experience of war **American Paintings at Harvard** Theodore E.
