Astrology Math Made Easy Kevin B. Burk, 2005 Don't Panic This workbook is designed to help you to overcome your fears about astrology math. If you didn't have at least some fears about learning how to calculate charts by hand you wouldn't be reading this book. This is nothing to be ashamed of. Unless you have kids in high school the last time you were presented with an algebra problem was probably when you were in high school. And face it you probably hated it then too. This will be much easier for you than it was in high school. For one thing you're allowed and even expected to use a calculator here. Math is in fact your friend. Granted it's the kind of friend that wakes you

up in the middle of the night raids your refrigerator and then passes out on your living room floor but it's still your friend And if you're serious about learning astrology you do have to be able to do the math or at the very least understand how the math is done This workbook will teach you all of the astrology math you will ever need **Maths Made Easy Ages 10-11 Key Stage 2 Beginner** Carol Vorderman, 2011-01-20 Let Carol Vorderman help your child to succeed in Maths Maths Made Easy is packed with notes and tips to make learning about Maths easy and fun Follow the exercises with your child then reward them with gold stars for their efforts Each title contains a progress chart so your child can keep track of all the exercises they have completed A great way to improve your child's early maths skills the more you practice the better you'll be Carol Vorderman
