**New Primary School Mathematics Book 2** , The Magical Math Book Bob Longe,1998 Fool your friends baffle your buddies and perplex your parents with dozens of amazing tricks Each of these fascinating feats appears to be the work of magical forces but their true secret lies in mathematical manipulations Correctly guess the age of any volunteer Startle a stranger with knowledge about his or her life Read minds make accurate predictions perform lightning quick calculations and demonstrate seemingly mystical powers of memory Perform extraordinary effects with cards dice pencil and paper and occasionally a calculator In all of these tricks the

mathematical principle is well concealed and in many of them the use of numbers isn't even suspected. For each trick an explanation of why it works is included in order to help you better understand the principle behind it as well as to enable you to make your own variations on the trick or to develop other tricks on your own. Suggestions are given for what to say when introducing a trick so as to heighten suspense, increase surprise and keep your audience as confounded as possible. No sleight of hand is used but with your brain power as your magic wand you'll have fun entertaining, amazing and confusing people for hours.
