Mathura The Cultural Heritage:

Mathurā Doris Srinivasan,1989 This Book Is A Collection Of Papers Focussing On The Major Facets Of Life Within The Town Of Ancient Mathura From Earliest Times Up To And Including The Third Century A D The Formative Period Of Indian Culture And Urban Growth **Many Heads, Arms and Eyes** Doris Meth Srinivasan,2024-03-25 One of the first things that strike the Western viewer of Indian art is the multiplicity of heads arms and eyes This convention grows out of imagery conceived by Vedic sages to explain creation This book for the first time investigates into the meaning of this convention The author concentrates on its origins in Hindu art and on preceding textual references to the phenomenon of multiplicity The first part establishes a general definition for the convention Examination of all Brahmanical literature up to and sometimes beyond the 1st 3rd century A D adds more information to this basic definition The second part applies this literary information mainly to icons of the Yaksha iva V sudeva K s a and the Goddess and indicates how Brahmanical cultural norms exemplified in Mathur can transmit textual symbols Both Part I and Part II provide iconic modules and a methodology to generate interpretations for icons with this remarkable feature through the Gupta age Collected Papers on Buddhist Studies Padmanabh S. Jaini,2001 In this volume a companion to the author s Collected Papers on Jaina Studies twenty nine of his articles encompassing some forty years of research on various facets of Buddhism have been brought together for the first time They cover a wide range of topics including comparative studies with Jainism points of controversy within Abhidharma the Bodhisattva career of Maitreya based on narratives from the Jatakas and Mahayana Sutras and selections from Buddhist ritual texts *Religion, Landscape and Material Culture in Pre-modern South Asia* Tilottama Mukherjee,Nupur Dasgupta,2023-02-10 This book highlights emerging trends and new themes in South Asian history It covers issues broadly related to religion materiality and nature from differing perspectives and methods to offer a kaleidoscopic view of Indian history until the late eighteenth century The essays in the volume focus on understanding questions of premodern religion material culture processes and their spatial and environmental contexts through a study of networks of commodities and cultural and religious landscapes From the early history of coastal regions such as Gujarat and Bengal to material networks of political culture from temples and their connection with maritime trade to the importance of landscape in influencing temple building from regions considered peripheral to mainstream historiography to the development of religious sects this collection of articles maps the diverse networks and connections across regions and time The volume will be of great interest to scholars and researchers of history archaeology museum and heritage studies religion especially Hinduism Sufism and Buddhism and South Asian studies *A History of India through 75 Objects* Sudeshna Guha,2022-12-19 With a curation of objects from the prehistoric ages through twenty first century India Sudeshna Guha provides a panoramic view of the rich histories of the subcontinent The incisive essays in this collection detail not just the objects but the histories of their reception examining how changing times and attitudes cast their shadow on the ways in

which the past is interpreted and narrated In doing so A History of India through 75 Objects inspires us to interrogate our own notions of a knowable past and fixed national history Teeming with thought provoking insights and surprising anecdotes the essays instill a sense of wonder about the continuous processes by which histories are constructed The Archaeology of Sacred Spaces Susan Verma Mishra,Himanshu Prabha Ray,2016-08-05 This volume focuses on the religious shrine in western India as an institution of cultural integration in the period spanning 200 BCE to 800 CE It presents an analysis of religious architecture at multiple levels both temporal and spatial and distinguishes it as a ritual instrument that integrates individuals and communities into a cultural fabric The work shows how these structures emphasise on communication with a host of audiences such as the lay worshipper the ritual specialist the royalty and the elite as well as the artisan and the sculptor It also examines religious imagery inscriptions traditional lore and Sanskrit literature The book will be of special interest to researchers and scholars of ancient Indian history Hinduism religious studies architecture and South Asian studies **Growing Stories from India** A. Whitney Sanford,2012-01-01 The costs of industrial agriculture are astonishing in terms of damage to the environment human health animal suffering and social equity and the situation demands that we expand our ecological imagination to meet this crisis In response to growing dissatisfaction with the existing food system farmers and consumers are creating alternate models of production and consumption that are both sustainable and equitable In Growing Stories from India Religion and the Fate of Agriculture author A Whitney Sanford uses the story of the deity Balaram and the Yamuna River as a foundation for discussing the global food crisis and illustrating the Hindu origins of agrarian thought By employing narrative as a means of assessing modern agriculture Sanford encourages us to reconsider our relationship with the earth Merely creating new stories is not enough she asserts that each story must lead to changed practices Growing Stories from India demonstrates that conventional agribusiness is only one of many options and engages the work of modern agrarian luminaries to explore how alternative agricultural methods can be implemented Framing the Mahabharata Saikat K Bose,2018-05-01 It all probably was a tale However serious research does identify some events from about a thousand years before the Common Era that qualify as the bases of the epic s plot Apparently collective memory evolved significantly through the centuries before their stories legends and allegories took the forms that we know from the epic today And yet even if no set of historical events can be found to correspond with epic episodes its many stories legends and allegories nevertheless conform to themes that were at one time authentic In other words whether or not epic episodes were historical the ideas and concepts they represent were It is with these ideas and concepts that Framing the Mahabharata weaves the pattern of South Asian society as it evolved through the cusp of the Bronze and Iron Ages developing motifs we are familiar with today Against this pattern it reconstructs the military tactics technology and sociology that marked the interplay of nomadic and sedentary folks most poignantly depicted in the career of war chariots **Open Boundaries** John E. Cort,1998-01-01 Open Boundaries provides a new perspective on Jainism one of the oldest yet least studied of the world s

living religions Ten closely focused studies investigate the interactions between Jains and non Jains in South Asian society with detailed studies of yoga tantra aesthetic theory erotic poetry theories of kingship goddess worship temple ritual polemical poetry religious women and historiography Viewing the Jains within a South Asian context results in a strikingly different portrait from the standard models represented in both traditional Western and Indian scholarship **Vaiṣṇavi**
