Matter And Force:

Matter and Force, an analytical and synthetical essay on physical causation, etc Richard Laming, 1851 *What is Matter and what is Force?* Helena Petrovna Blavatsky, Life whether in its latent or dynamic form is Electricity i e Force or Spirit moving Matter Spirit is a bright flame within a transparent globule its vehicle or soul What we call light is an impression produced upon the retina by the wave like motion of the particles of matter Light like heat of which the former is the crown is simply the ghost the shadow of matter in motion the boundless eternal Infinite Space Motion Duration the Trinitarian essence of that which the Deists call God and we the One Element Spirit and Matter are two poles of One Eternal Element they are interdependent and mutually convertible Force and Matter Spirit and Matter or Deity and Nature though they may be viewed as opposite poles in their respective manifestations in essence and in truth are One Life is present as much in a dead as in a living body in inorganic as in organic matter **Energy, Force and Matter** Peter Michael Harman, 1982-04-30 By focusing on the conceptual issues faced by nineteenth century physicists this book clarifies the status of field theory the ether and thermodynamics in the work of the period A remarkably synthetic account of a difficult and fragmentary period in scientific development *Force and Matter* Ludwig Büchner, 1864 Hypothesis on MATTER Nainan K. Varghese, 2008-05-09 Hypothesis on MATTER is a revolutionary alternative concept which attempts to explain all physical phenomena related to matter based on just one type of fundamental particle the Quantum of matter These particles form what the author calls 2D energy fields Space is assumed to contain an infinite number of 2D Energy Fields extending in all directions Nainan masterfully explains a wide array of physical phenomena from the origin of matter to gravity and subatomic interactions to cosmological events based on the simple mechanical interactions of quanta of matter There is no more any need to envisage actions at a distance or to invoke irrational assumptions like diversity of forces mass energy equivalence constancy of light s speed dual nature of electric charge singularities big bang etc This new concept will radically alter our understanding of the physical universe and at the same time explain complex physical phenomena with simple Cause and Effect relationships **Force and Matter: Empirico-philosophical Studies, Intelligibly Rendered: with an Additional Introduction Expressly Written for this Edition** Friedrich Carl Christian Ludwig BUECHNER, 1864 **Donahoe's Magazine** , 1883 *The Encyclopaedia Britannica: Lor to Mun* , 1911 The Lincoln Library of Essential Information , 1929 Elements of Agricultural Chemistry and Geology James Finlay Weir Johnston, Sir Charles Alexander Cameron, 1883 Thinking Matter John W.
