Mysticism And The New Age Christic Consciousness In The New Creation:

Mysticism and the New Age George A. Maloney,1991 Everyone has heard of the occult inspired New Age Movement How many people have heard of the authentic orthodox Catholic New Age Movement that does in reality what the others only claim to do This book describes a Christian spirituality that restores for us the sense of God s sacred presence in all of creation This spirituality is based on the Bible and on the church s ancient system of Logos mysticism taught by such figures as St Maximus the Confessor and Teilhard de Chardin Father Maloney shows how the members of Christ s Body can with God s grace reach mystical states of consciousness and cooperate in the ongoing divine plan of creation *The*

Encyclopedic Sourcebook of New Age Religions James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public s curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement s historical roots A unique feature of Dr Lewis s work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon **The New Age Movement and**

de Pisón L.,1997 *Christian Responses to the New Age Movement* John A. Saliba,1999 For Christians the first encounter with the New Age Movement may prove confusing On the one hand there is an attraction in New Age ideology and ritual practice but on the other this very attraction raises theological and pastoral questions for the Churches whose responses have been ambiguous and conflicting The author analyses the real challenge the New Age offers the Churches today and gives an overview of the way in which Christian groups have responded to it *Teilhard Lexicon* Sion Cowell,2004-06-01 Written to enable researchers and students to better understand the specialised language of Teilhard's transdisciplinary approach which he found himself compelled to develop as a means of expressing that extraordinary vision of a universe in process of convergence towards a cosmic centre of unity he identifies with the Cosmic Christ **Spirituality Old and New** Donald G. The Other Half of My Soul Beatrice Bruteau,Bede Griffiths,1996-05-01 Every age has its visionaries Bede Griffiths the gentle Benedictine monk who traveled to India to seek the other half of his soul was one such spiritual giant Like Mother Teresa and Thich Nhat Hanh Father Bede s spirituality transcends sectarian labels His Shantivanam Forest of Peace monastery in India is Christian in faith but Hindu in lifestyle The essays and stories in the moving tribute to Father Bede by such luminaries as Thomas Berry dissolve the boundaries between Christian belief and Eastern practice Foreword by the Dalai Lama **Experiencing Hildegard** Avis Clendenen,2012-12-30 With a Foreword by Sister Joan Chittister OSB Experiencing Hildegard is a synthesis of Hildegard of Bingen s spirituality with insights from Jungian depth psychology particularly regarding the unconscious and the reality of the soul In this revised and expanded edition Clendenen brings the scholarship up to date and addresses the changes wrought by Hildegard being named a Doctor of the Church **Mysticism: A Study in Nature and Development of Spiritual Consciousness** Evelyn Underhill,2017-02-15 Remaining a classic in its field this book explains first how mysticism relates to such things as vitalism theology psychology symbolism and magic This treatment may seem unusual for Christian mysticism but it relates widely to the world as we know it and the different practices therein Part Two explores the awakening purification and illumination of yourself and gives solid groundwork for such things as voices visions dreams and other mystical experience *Radical Wisdom* Beverly Lanzetta, Lanzetta illuminates the transformative potential of the classical tradition of women mystics especially in light of contemporary violence against women around the world Focusing on the contemplative process as women s journey from oppression to liberation Lanzetta draws especially on the mysticism of Julian of Norwich and Teresa of Avila She lays out the contemplative techniques used by mystics to achieve their highest spiritual potential and also investigates how unjust social and political conditions afflict women s souls Lanzetta identifies a specific historical female mystical path the via feminina and draws contemporary conclusions for how women might understand their bodies their rights and their ethics **Exploring Lost Dimensions in Christian Mysticism** Louise Nelstrop,Simon D. Podmore,2016-04-15 Mystical theology has developed through a range of meanings from the hidden dimensions of divine significance in the community s interpretation of its scriptures to the much later science of the soul s ascent into communion with God The thinkers and questions addressed in this book draws us into the heart of a complicated beautiful and often tantalisingly unfinished conversation continuing over

centuries and often brushing allusively into parallel concerns in other religions Raising fundamental matters of epistemology representation metaphysics and divine reality contributors approach the mystical from postmodern feminist sociological and historical perspectives through thinkers such as Meister Eckhart Thomas Aquinas Catherine of Siena Ignatius of Loyola William James Evelyn Underhill Ernst Troeltsch Rudolf Otto Jacques Derrida Jean Luc Marion and Jean Louis Chr tien Medieval and early modern radical prophetic approaches are also explored This book includes new essays by Sarah Apetrei Tina Beattie Raphael Cadenhead Oliver Davies Philip Endean Brian FitzGerald Ann Loades George Pattison Simon D Podmore Joel D S Rasmussen and Johannes Zachhuber **The Churchman** ,1927 *Psychology, Religion, and Spirituality* James M. Nelson,2009-02-27 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our fundamental und standings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical ba ground Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult
