Kowalski, 1988-01-01 The heightened interest in and the rapid expansion of adult education has become a trend in a variety of environments In order to serve these developing areas educators personnel directors as well as staff development specialists require improved methods for planning learning activities within their own unique organizational contexts In *The Organization and Planning of Adult Education* Kowalski examines the issues created by providing a social service in diverse organizational settings and presents a format for initiating and developing adult education programs In order to comprehend the complexity of the context of programming within an organization two novel components are included first a typology of sponsoring organizations is presented This allows the reader to study program development in greater detail through a categorization of the sponsoring institutions Second organizational theory is applied to the process of programming in adult education To be successful the adult educator must be able to analyze both the existing organizational climate as well as to devise programs compatible with this environment Kowalski has written a valuable resource and guide for those faced with the responsibilities of planning adult education programs in their own particular setting *Decision Making for Educational Leaders* Bob L. Johnson Jr., Sharon D. Kruse, 2012-02-01 Why another book on decision making In this increasingly complex world there are many tensions inherent in the daily practice of school leaders This book illuminates these tensions and acknowledges the reality that there are already multiple approaches to decision making in any school The authors offer a guide to integrate the influences of school and community members as well as data and organizational context into the decision making process They focus on underexamined dimensions of decision making including 1 the art of theory use 2 organizational context 3 political dynamics 4 inferential leaps and causal assumptions 5 the role of intuition 6 data driven decision making 7 the role of emotions and affect and 8 making the tough decision Dispositions that enhance success are highlighted These ideas will empower school principals superintendents and other leaders to approach with confidence the decisions they are called on to

make *The Final Report and Recommendations of the Summer Institute on the Improvement and Reform of American Education* Summer Institute on the Improvement and Reform of American Education, Clearwater, Fla., 1972,1974 **DHEW Publication No. (OE).** ,1974 Role Conflict and the Teacher Gerald Grace,2012 Gerald Grace here explores the concept of role conflict and the current theorizing about the problems of the teacher s role He investigates four potential problem areas role diffuseness role vulnerability role commitment versus career orientation and value conflict in a sample of one hundred and fifty secondary school teachers in a Midland town The analysis shows how a teacher s commitment to a particular set of values exposes him or her to conflict in an achievement oriented and pluralistic society These conflicts present in all schools are seen in their clearest form among secondary modern school teachers The author suggests that colleges of education in emphasizing commitment and in assuming value consensus predispose their students to conflict experiences He indicates that internal career possibilities in schools and the influence of graduate or certified status are also important factors in conflict exposure While accepting that certain role conflicts are important in the genesis of change the author proposes that levels of dysfunctional conflict can be reduced by the action of head teachers by structural change in the schools and innovations in teaching education **Education Professions; a Report on the People who Serve Our Schools and Colleges** United States. Office of Education,1973 **Oxford Handbook of Positive Psychology and Work** P. Alex Linley,Susan Harrington,Nicola Garcea,2010 Part of the Oxford Library of Psychology the Oxford Handbook of Positive Psychology and Work examines what positive psychology offers to our understanding of key issues in working life today Drawing on the disparate literatures from positive psychology management I O psychology and human resources the volume begins with a consideration of the changing world of work that sets the context for the rest of the book and then moves into a specific consideration of work issues from the perspective of positive psychology Chapters focus on such topics as strengths leadership human resource management employee engagement communications well being and work life balance The volume will be a core resource for both researchers and practitioners interested in the application of positive psychology to work **Effective Leadership Management** Dr. Michael Adewale Adeniyi, Ph.D.,2007-10-12 Effective Leadership Management is about theory and practice of integrating styles skills and character of today s chief executive officers It is about what a leader or a manager does to bring about staff efficiency and effectiveness A leader or a manager is effective when he or she brings about the desired results for the organization by using different approaches to the development of personal and interpersonal effectiveness of the staff by daily decision making staffing planning forecasting nurturing coaching directing organizing marketing encouraging and controlling quality Effective Leadership Management emphasizes leadership as the intersection of character knowledge skill and desire Management supervises tasks but leadership deals with people who supervise tasks In other words management is doing things right while leadership is doing the right things Effective Leadership Management styles are achievable by using mixtures of different styles as situation

Hoy,Michael DiPaola,2010-05-01 Analyzing School Contexts is the ninth volume in a series of research

and theory in school administration dedicated to advancing our understanding of schools through empirical study and theoretical analysis The current selection of readings is loosely organized around the broad topics of school contexts leadership and organizational properties that influence the effectiveness of schools The book begins with a reflective analysis of the importance of organizational theories and theorizing in educational in administration and then proceeds to examine research on how leaders especially principals can strengthen the instructional and academic capacity of the school to enhance teachers effectiveness in producing strong student outcomes The analyses deal not only with what instructional leadership practices make positive differences in teaching and learning but also with how district leadership is pivotal in developing school partnerships with business and how district mentoring programs to develop future school leaders succeed Finally we examine school climate academic optimism of teachers organizational trust and the constraints and opportunities that the law provides to develop and maintain a respectful school environment conducive to learning
