Gramsci's Critique of Civil Society Marco

Fonseca, 2016-03-31 Antonio Gramsci was an Italian Marxist thinker whose radical ideas on how to build an alternative world from below remain vigorously relevant today Gramsci's philosophy of praxis critically dissects the institutions of modern liberal democracy to reveal what is perhaps its deepest secret it is the most successful political system in modernity at preserving an objective condition of domination while transforming it into a subjective conviction of freedom Based on a careful reading of Gramsci's *The Prison Notebooks* Marco Fonseca shows hegemony as more than leadership of elites over subaltern majorities based on consent Following Gramsci's critique of citizenship civil society and democracy including the current project of neoliberal democracy promotion particularly in the Global South he discloses a hidden process of hegemony that generates the preconditions for consent and thus successful domination As the struggles from Zapatismo to Chavismo and from the Arab Springs to Spain's Podemos show liberation is not possible without counter hegemony This book will be of interest to activist scholars engaged in the study of Marxism Gramsci political philosophy and contemporary debates about the renewal of Marxist thought and the relevance of revolution and Communism for the twenty first century

Exploring Civil Society Marlies Glasius, David Lewis, Hakan Seckinelgin, 2004-08-02 This volume explores how the idea of civil society has been translated in different cultural contexts and examines its impact on politics worldwide Comparing and contrasting civil society in Latin America and Eastern Europe Western Europe and the United States Africa and South Asia and the Middle East the contributors show that there are multiple interpretations of the concept that depend more on the particular political configuration in different parts of the world than on cultural predilections They also demonstrate that the power of civil society depends less on abstract definitions and more on the extent to which it is grounded in the context of actual experiences from around the world This book includes some of the biggest names in the area such as Mary Kaldor Ronnie Lipschutz and Helmut Anheier

Re-Imagining Community and Civil Society in Latin America and the Caribbean Roberta Rice, Gordana Yovanovich, 2016-07-15 Latin American and Caribbean communities and civil societies are undergoing a rapid process of transformation Instead of pervasive social atomization political apathy and hollowed out democracies which have become the norm in some parts of the world this region is witnessing an emerging collaboration between community civil society and government that is revitalizing democracy This book argues that a key explanation lies in the powerful and positive relationship between community and civil society that exists in the region The ideas of community and civil society tend to be studied separately as analytically distinct concepts however this volume seeks to explore their potential to work together A unique contribution of the work is the space for dialogue it creates between the social sciences and the humanities Many of the studies included in the volume are based on primary fieldwork and place based case studies Others relate literature music and film to important theoretical works providing a new direction in interdisciplinary studies and highlighting the role that the arts play in community revival and broader processes of social change A truly multi disciplinary book bridging established notions of civil society and community through an authentically interdisciplinary approach to the topic

The Politics of Gay Marriage in Latin America Jordi Díez, 2015-05-05 Addressing one of the defining social issues of our time The Politics of Gay Marriage in Latin America explores how and why Latin America a culturally Catholic and historically conservative region has become a leader among nations of the Global South and even the Global North in the passage of gay marriage legislation In the first comparative study of its kind Jordi D ez explains cross national variation in the enactment of gay marriage in three countries Argentina Chile and Mexico Based on extensive interviews in the three countries D ez argues that three main key factors explain variation in policy outcomes across these cases the strength of social movement networks forged by activists in favor of gay marriage the access to policy making afforded by particular national political institutions and the resonance of the frames used to demand the expansion of marriage rights to same sex couples

The Prism of Race David Lehmann, 2018-07-12 Brazil has developed a distinctive response to the injustices inflicted by the country s race relations

regime Despite the mixed racial background of most Brazilians the state recognizes people's racial classification according to a simple official scheme in which those self assigned as black together with brown and indigenous preto pardo indigena can qualify for specially allocated resources most controversially quota places at public universities Although this quota system has been somewhat successful many other issues that disproportionately affect the country's black population remain unresolved and systemic policies to reduce structural inequality remain off the agenda In *The Prism of Race* David Lehmann explores theoretically and practically issues of race the state social movements and civil society and then goes beyond these themes to ask whether Brazilian politics will forever circumvent the severe problems facing the society by co-optation and by tinkering with unjust structures Lehmann disrupts the paradigm of current scholarly thought on Brazil placing affirmative action disputes in their political and class context bringing back the concept of state corporatism and questioning the strength and independence of Brazilian civil society
