Napoleon to Nasser: The Story of Modern Egypt Raymond Flower, 2011-06-01 The story of modern Egypt is more than just a cavalcade of colourful personalities To get beneath the skin of the Egyptians themselves it is essential to recognize the pressures to which they have so long been subjected to understand how overburdened by history and exiled from power in their own land they have been elbowed out by foreign manipulation to a point where explosive action was the only remedy From the time that Napoleon brought Europe to Egypt in 1798 few areas of the globe have aroused more passions than this ancient land Napoleon's own dreams of glory were short lived but he paved the way for Mohammed Ali the rogue Pasha that Palmerston wanted to chuck in the Nile to found a dynasty and very nearly take over the whole Ottoman Empire with his fellah armies Less astute his son Said was hoaxed by de Lesseps over the Suez Canal concession and his grandson Ismail precipitated a British occupation with the de facto reign of the hardline proconsuls such as Cromer and Kitchener Although the British presence brought prosperity to Egypt and security for monarchs like Fouad and Farouk it also caused growing frustration to the multiplying mass of the Egyptian people Finally Gamal Abdel Nasser put an end to the ancient regime and threw the Europeans out again to embark on his astonishing career as aspirant leader of the Arab world In this entertaining book Raymond Flower unfolds the panorama of events from the arrival of Napoleon to the death of Nasser not only as it appears to an historian but also to the man in the street in Cairo Well qualified to do so having lived there for part of the historic span he covers Mr Flower has known most of the significant figures in the days of Farouk as well as in the revolutionary Egypt and thus is able to give an enthralling and well balanced account of a vital period in recent history

Crusade and Jihad William R. Polk, 2018-01-09 Crusade and Jihad is the first book to encompass in one volume the entire history of the catastrophic encounter between the Global North China Russia Europe Britain and America and Muslim societies from Central Asia to West Africa William R Polk draws on more than half a century of experience as a historian policy planner diplomat peace negotiator and businessman to explain the deep hostilities between the Muslim world and the Global North and show how they grew over the centuries Polk shows how Islam arose and spread across North Africa into Europe climaxed in the vibrant and sophisticated caliphate of al Andalus in medieval Spain

and was the bright light in a European Dark Age Simultaneously Islam spread from the Middle East into Africa India and Southeast Asia But following the Mongol invasions Islamic civilization entered a decline while Europe began its overseas expansion Portuguese buccaneers dominated the Indian Ocean the Dutch and the English established powerful corporations that turned India and Indonesia into colonies Russian armies pushed down the Volga into Central Asia destroying its city states and the Chinese Qing dynasty slaughtered an entire Central Asian people Britain crushed local industry and drained off wealth throughout its vast colonies Defeated at every turn Muslims tried adopting Western dress organizing Westernstyle armies and embracing Western ideas None of these efforts stopped the conquests For Europe and Russia the nineteenth century was an age of colonial expansion but for the Muslim world it was an age of brutal and humiliating defeat Millions were driven from their homes starved or killed and their culture and religion came under a century long assault In the twentieth century brutalized and disorganized native societies even after winning independence fell victim to post imperial malaise typified by native tyrannies corruption and massive poverty The result was a furious blowback A sobering scrupulous and frank account of imperialism colonialism insurgency and terrorism Crusade and Jihad is history for anyone who wishes to understand the civilizational conflicts of today s world **The British Defence of Egypt, 1935-40** Steve Morewood,2004-11-25 A comprehensive and challenging analysis of the British defence of Egypt primarily against fascist Italy in the critical lead up period to the Second World War Culminating in the decisive defeat of the Italian military threat at Sidi Barrani in December 1940 this is a fascinating new contribution to the field **Egypt** James Whidden,2017-06-26 This book is a comprehensive portrait of the British colony in Egypt which also takes a fresh look at the examples of colonial cultures memorably enshrined in Edward W Said s classic Orientalism Arguing that Said s analysis offered only the dominant discourse in imperial and colonial narratives it uses private papers letters memoirs as well as the official texts histories and government reports to reveal both dominant and muted discourses While imperial sentiment certainly set the standards and sealed the image of a ruling caste culture the investigation of colonial sentiment reveals a more diverse colony in temperament and lifestyles often intimately rooted in the Egyptian setting The method involves providing biographical treatments of a wide range of colonials and the sometimes contradictory responses to specific colonial locations historical junctures and seminal events like invasion and war or grand imperial projects including the Alexandria municipality

pseud RAMESES,1937 Exiled from Jerusalem Rafiq Husseini,2020-04-30 The diaries of Dr Hussein Fakhri al Khalidi offer a unique insight to the peculiarities of colonialism that have shaped Palestinian history Elected mayor of Jerusalem his city of birth in 1935 the physician played a leading role in the Palestinian Rebellion of the next year with profound consequences for the future of Palestinian resistance and British colonial rule One of many Palestinian leaders deported as a result of the uprising it was in British imposed exile in the Seychelles Islands that al Khalidi began his diaries Written with equal attention

to lively personal encounters and ongoing political upheavals entries in the diaries cover his sudden arrest and deportation by the colonial authorities the fifteen months of exile on the tropical island and his subsequent return to political activity in London then Beirut The diaries provide a historical and personal lens into Palestinian political life in the late 1930s a period critical to understanding the catastrophic 1948 exodus and dispossession of the Palestinian people With an introduction by Rashid Khalidi the publication of these diaries offers a wealth of primary material and a perspective on the struggle against colonialism that will be of great value to anyone interested in the Palestinian predicament past and present Living with Colonialism Heather J. Sharkey, 2003-03-18 Histories written in the aftermath of empire have often featured conquerors and peasant rebels but have said little about the vast staffs of locally recruited clerks technicians teachers and medics who made colonialism work day to day Even as these workers maintained the colonial state they dreamed of displacing imperial power This book examines the history of the Anglo Egyptian Sudan 1898 1956 and the Republic of Sudan that followed in order to understand how colonialism worked on the ground affected local cultures influenced the rise of nationalism and shaped the postcolonial nation state Relying on a rich cache of Sudanese Arabic literary sources including poetry essays and memoirs as well as on colonial documents and photographs this perceptive study examines colonialism from the viewpoint of those who lived and worked in its midst By integrating the case of Sudan with material on other countries particularly India Sharkey gives her book broad comparative appeal She shows that colonial legacies such as inflexible borders atomized multi ethnic populations and autocratic governing structures have persisted hobbling postcolonial nation states Thus countries like Sudan are still living with colonialism struggling to achieve consensus and stability within borders that a fallen empire has left behind **Race, Ethnicity, and Violence in South Sudan** Amir Idris, 2024-06-19 The purpose of this book is to understand how and why liberators of South Sudan have become perpetrators of ethnically driven violence How and why did violence happen immediately after independence in South Sudan South Sudan slid into civil war in December 2013 just two years after winning its hard won independence A great deal has been written about the conflict and violence of this period much of which emphasizes the notion that the root causes of the conflict can be traced to the ethnic division and hatred among the population or the lack of state capacity to manage ethnic diversity and hostilities However the existing literature exhibits important analytical gaps focusing primarily on the state of the violence and the immediate political history of South Sudan dating back to its political independence in 2011 but lacking critical analysis of historical and anthropological interpretations of state and society This book addresses these gaps in knowledge and understanding and in so doing seeks to explain how and why liberators become perpetrators of violence and how the intersection of the legacies of slavery colonialism and national liberation struggle contributed to violence in South Sudan Through a comprehensive exploration of identity and violence within the broader context of state formation the book sheds light on why those who sought sovereignty may turn against their own drawing parallels with colonial discourse It aspires to provide nuanced frameworks and empirical

insight for scholars students practitioners and policymakers engaged in South Sudan politics development and peacebuilding
