Orientalism in Art Christine Peltre, 1998 The romance and exoticism of the Orient as captured by 19th century European and American painters are brought to life in this important volume Nineteenth century Europe was fascinated by the Orient Napoleon's Egyptian campaign of 1798 initiated this phenomenon and its history the most notable episodes of which include the Greek uprising against the Turks in 1821 and the French taking of Algiers in 1830 was closely linked to changing attitudes toward the Eastern question Artists of the period too were captivated by these events and the rich body of imagery they produced is the subject of this volume Incorporating much recent research author Christine Peltre's elegant text retraces Orientalism's artistic history in which the French and British schools predominated The high poetry of the Romantics Orient often inspired by Byron or Hugo strove for dramatic effect as the works of David Roberts Alexandre Gabriel Decamps and Eugène Delacroix attest A different brand of imagery was produced by the ethnographic gaze of the century's middle years practiced by artists who visited the sites they represented such as John Frederick Lewis Eugène Fromentin and Jean-Léon Gérôme as well as by others who remained studio bound including J. A. D. Ingres and Adolphe Monticelli Work of this kind was eventually superseded by a third style a fusion of European and

Eastern elements as seen in the work of August Macke Wassily Kandinsky Paul Klee and Henri Matisse Witnesses to a history that they influenced in subtle ways through their imagery the Orientalist painters also produced a history of their own that of a spiritual and formal quest to find in the East the ideal of primitive purity Illustrated with more than two hundred expertly selected Orientalist paintings and drawings *Orientalism in Art* is an indispensable volume for art historians and anyone lured by the romance and exoticism of Orientalist art **AUTHOR** Christine Peltre is professor of the history of contemporary art at the Universit des Sciences Humaines in Strasbourg The author of a book on the encounter of nineteenth century European artists with Greece *Retour en Arcadie* 1997 she is also a specialist in Orientalism and has published widely on the subject *L'Atelier du voyage* 1995 **ILLUSTRATIONS** 220 illustrations *Orientalism* Roger Benjamin, Art Gallery of New South Wales, 1997 Painting catalogue Photography catalogue Oriental mirage Post Colonial taste Non Western markets for Orientalist art From Empire's end Australians as Orientalists 1880 1920 Artists biographies Photographers biographies Catalogue of an exhibition to be held at The Art Gallery of New South Wales December 1997 February 1998 and the Auckland City Art Gallery March June 1998 **Orientalism in Paintings** Lacey Belinda Smith, 2013-04-21 Orientalism in paintings Exposed By Lacey Belinda Smith **The Orient in Western Art** Gérard-Georges Lemaire, 2013 **Orientalism** Christine Peltre, 2004 This is a sociological and historical study into the intimate and complex relationship between 19th century Western artists and the Orient Paintings by amongst others Gros Girodet Delacroix Ingres Chasseriau and Corot give examples of what became known as the Orientalist movement The Orient in Western Art Gérard-Georges Lemaire, 2008-02 The oriental motif is a recurring theme in western painting From the Renaissance with its awakening interest in ancient cultures and art to the 18th century with its Grand Tours and Turkish fashion the oriental theme has not only documented artists travels to the East but has projected the wishes desires and imagination of the West From ethnographic etchings to exaggerated displays of the sultans splendor this paradox of fact and fantasy culminated in the 19th century with the genre Orientalism Napoleon's conquest of Egypt European colonization and archaeological excavations opened up the region to numerous artists such as Decamps Delacroix Fromentin Ingres Lear and Hunt whose most famous works express oriental imagery The Orient in Western Art presents the emergence and development of an artistic motif accompanied by explanations of social and cultural history Book jacket **BOOK JACKET** **Orientalist Painting** Patrick Berko, Viviane Berko, Philippe Cruysmans, 1982 **Orientalism** Gérard-Georges Lemaire, 2013 History of art Orientalism in American Painting 1830-1900 Mary Patricia Carroll Brigotti, 1987 **Orient in Western Art** Gérard-Georges Lemaire, 2008-09-15 The orient and the mystical images it evokes have always been a special source of inspiration in the history of european painting From the Venetian portrayal of the Renaissance and the first examples of Turkish Fashion to the heyday of the 19th century and the Tunis paintings by August Macke and Paul Klee this volume traces the development of the oriental motif in painting Geographically so near culturally so different the countries of the Arabian Peninsula and North
