The Origin Myth of the Medicine Rite Paul Radin, 1950 The Caddoan, Iroquoian, and Siouan Languages Wallace L. Chafe, 2013-06-10 No detailed description available for The Caddoan Iroquoian and Siouan Languages *Wisconsin Folklore* James P. Leary, 1999-01-15 Highly entertaining and richly informative Wisconsin Folklore offers the first comprehensive collection of writings about the surprisingly varied folklore of Wisconsin Beginning with a historical introduction to Wisconsin's folklore and concluding with an up to date bibliography this anthology offers more than fifty annotated and illustrated entries in five sections Terms and Talk Storytelling Music Song and Dance Beliefs and Customs and Material Traditions and Folklife The various contributors from 1884 to 1997 are anthropologists ethnomusicologists historians journalists museologists ordinary citizens reminiscing sociologists students writers of fiction practitioners of folklore and folklorists Their interests cover an enormous range of topics from Woodland Indian place names and German dialect expressions to Welsh nicknames and the jargon of apple pickers brewers and farmers from Ho Chunk and Ojibwa mythological tricksters and Paul Bunyan legends to stories of Polish strongmen and Ole and Lena jokes from Menominee dances and Norwegian fiddling and polka music to African American gospel groups and Hmong musicians from faith healers and wedding and funeral customs to seasonal ethnic festivities and tavern amusements and from spearing decoys and needlework to church dinners sacred shrines and the traditional work practices of commercial fishers tobacco growers and pickle packers For general readers teachers librarians and scholars alike Wisconsin Folklore exemplifies and illuminates Wisconsin's cultural traditions and establishes the state's significant but long neglected contributions to American folklore **Red Man's Religion** Ruth Murray, 2018-12-01 Among the topics considered in this classic study are world origins and supernatural powers attitudes toward the dead the medicine man and shaman hunting and gathering rituals war and planting ceremonies and newer religions such as the Ghost Dance and the Peyote Religion The distinctive contribution of Red Man's Religion is the treatment of topics the insight and the perspective of the author and her ability to transmit these to the reader Traits and aspects of religion are not treated as abstract entities to be enumerated and summated assigned a geographic distribution and then abandoned No page is a dry recital each is an illumination Insight and wisdom are framed in poetic prose An offering of information in such a medium merits gratitude American Anthropologist Mississippian Culture Heroes, Ritual Regalia, and Sacred Bundles David H. Dye, 2021-07-13 In Mississippian Culture Heroes Ritual Regalia and Sacred Bundles archaeologists analyze evidence of the religious beliefs and ritual practices of Mississippian people through the lens of indigenous ontologies and material culture Employing archaeological ethnographic and ethnohistoric evidence the contributors explore the recent emphasis on iconography as an important component for interpreting eastern North America's ancient past The research in this volume emphasizes the animistic nature of animals and objects erasing the false divide between people and other than human beings Drawing on an array of empirical approaches the contributors demonstrate the

importance of understanding beliefs and ritual and the significance of investigating how people in the past practiced religion and ritual by crafting circulating using and ultimately decommissioning material items and spaces including ceramic effigies rock art sacred bundles shell gorgets stone figurines and symbolic weaponry

Being Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective Christopher Carr, 2022-01-05 This book in two volumes breathes fresh air empirically methodologically and theoretically into understanding the rich ceremonial lives the philosophical religious knowledge and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE The first volume defines cross culturally for the first time the ritual drama as a genre of social performance It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul like essences of their deceased make the journey to an afterlife The second volume builds and critiques ten formal cross cultural models of personhood and the self and infers the nature of Scioto Hopewell people s ontology Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers a relational collective concept of the self defined by the ethical quality of the relationships one has with other beings and a concept of multiple soul like essences that compose a human being and can be harnessed strategically to create familial like ethical bonds of cooperation among individuals and communities The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self and of Hopewell people s strategic uses of these are informed by three large surveys of historic Woodland and Plains Indians narratives ideas and rites about journeys to afterlives the creatures who inhabit the cosmos and the nature and functions of soul like essences coupled with rich contextual archaeological and bioarchaeological taphonomic analyses The bioarchaeological taphonomic method of l anthropologie de terrain new to North American archaeology is introduced and applied In all the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples

The Road of Life and Death Paul Radin, 1991-04-21 In this transcription of the Medicine Rite the most sacred ritual of the Winnebago Indians anthropologist Paul Radin captured a poetic source of profound importance to the understanding of mystical experience Performed by medicine men upon the initiation of a member to their cult this secret rite recapitulated the mythic origins and heroes of the Winnebago while integrating those present with the ancestral forces

A Story as Sharp as a Knife Robert Bringhurst, 2011-03-15 The Haida world is a misty archipelago a hundred stormy miles off the coasts of British Columbia and Alaska For a thousand years and more before the Europeans came a great culture flourished in these islands The masterworks of classical Haida sculpture now enshrined in many of the world s great museums range from exquisite tiny amulets to magnificent huge housepoles Classical Haida literature is every bit as various

and fine It extends from tiny jewels crafted by master songmakers to elaborate mythic cycles lasting many hours The linguist and ethnographer John Swanton took dictation from the last great Haida speaking storytellers poets and historians from the fall of 1900 through the summer of 1901 His Haida hosts and colleagues had been raised in a wholly oral world where the mythic and the personal interpenetrate completely They joined forces with their visitor consciously creating a great treasury of Haida oral literature in written form Poet and linguist Robert Bringhurst has worked for many years with these century old manuscripts which have waited until now for the broad recognition they deserve **Bibliography** Jacques

Waardenburg,1973 Sinceits founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline Publication Indiana University. Research Center in Anthropology,

Folklore, and Linguistics,1966 **Spirit Wars** Ronald Niezen,2000-08-28 Spirit Wars is an exploration of the ways in which the destruction of spiritual practices and beliefs of native peoples in North America has led to conditions of collective suffering a process sometimes referred to as cultural genocide Ronald Niezen approaches this topic through wide ranging case studies involving different colonial powers and state governments the seventeenth century Spanish occupation of the Southwest the colonization of the Northeast by the French and British nineteenth century westward expansion and nationalism in the swelling United States and Canada and twentieth century struggles for native people s spiritual integrity and freedom Each chapter deals with a specific dimension of the relationship between native peoples and non native institutions and together these topics yield a new understanding of the forces directed against the underpinnings of native cultures *The Languages of Native North America* Marianne Mithun,2001-06-07 This book provides an authoritative survey of the several hundred languages indigenous to North America These languages show tremendous genetic and typological diversity and offer numerous challenges to current linguistic theory Part I of the book provides an overview of structural features of particular interest concentrating on those that are cross linguistically unusual or unusually well developed These include syllable structure vowel and consonant harmony tone and sound symbolism polysynthesis the nature of roots and affixes incorporation and morpheme order case grammatical distinctions of number gender shape control location means manner time empathy and evidence and distinctions between nouns and verbs predicates and arguments and simple and complex sentences and special speech styles Part II catalogues the languages by family listing the location of each language its genetic affiliation number of speakers major published literature and structural highlights Finally there is a catalogue of languages that have evolved in contact situations An Archaeology of the Soul Robert L. Hall,1997 The richness and the range of Native American spirituality has long been noted but it has never been examined so thoroughly nor

with such an eye for the amazing interconnectedness of Indian tribal ceremonies and practices as in *An Archaeology of the Soul* In this monumental work destined to become a classic in its field Robert Hall traces the genetic and historical relationships of the tribes of the Midwest and Plains including roots that extend back as far as 3 000 years Looking beyond regional barriers *An Archaeology of the Soul* offers new depths of insight into American Indian ethnography Hall uncovers the lineage and kinship shared by Native North Americans through the perspectives of history archaeology archaeoastronomy biological anthropology linguistics and mythology The wholeness and panoramic complexity of American Indian belief has never been so fully explored or more deeply understood Indiana University Publications in Anthropology and Linguistics ,1969 *Culture & Rhetoric* Ivo A. Strecker,Stephen A. Tyler,2009 While some scholars have said that there is no such thing as culture and have urged to abandon the concept altogether the contributors to this volume overcome this impasse by understanding cultures and their representations for what they ultimately are rhetorical constructs These senior international scholars explore the complex relationships between culture and rhetoric arguing that just as rhetoric is founded in culture culture is founded in rhetoric This intersection constitutes the central theme of the first part of the book while the second is dedicated to the study of figuration as a common ground of rhetoric and anthropology The book offers a compelling range of theoretical reflections historical vistas and empirical investigations which aim to show how people talk themselves and others into particular modalities of thought and action and how rhetoric and culture in this way are co emergent It thus turns a new page in the history of academic discourse by bringing two disciplines anthropology and rhetoric together in a way that has never been done before Publisher s website Native Languages of the Americas Thomas Sebeok,2013-11-11 Thirteen of the chapters that comprise the contents of this first volume of *Native Languages of the Americas* were originally commissioned by the undersigned in his capacity as Editor of the fourteen volume series 1963 1976 *Current Trends in Linguistics* All appeared in 1973 under Part Three of the quadripartite Vol 10 subtitled *Linguistics in North America* Two additional chapters are being held over for the volume to follow shortly devoted to Central and South American languages and linguistics where they more appropriately belong A fourteenth chapter on the Historiography of native North American linguistics was written similarly by invitation for Vol 13 subtitled *Historiography of Linguistics* published in 1975 Both Volumes 10 and 13 were jointly financed by the United States National Science Foundation and National Endowment for the Humanities with an enhancing contribution to the former by the Canada Council The generosity of these funding agencies was of course previously acknowledged in my respective Editor s Introductions to the two books mentioned but cannot be repeated too often without their welcome and timely assistance the global project could scarcely have been realized on so comprehensive a scale The *Current Trends in Linguistics* series was a long term venture of Mouton Publishers of The Hague under the imaginative in house direction of Peter de Ridder Various spin offs were foreseen and some of them happily realized **Journal of American Folk-lore** ,1888 Structural Drill and the Language Laboratory Francis West
