Original Self Living With Paradox And Originality:

Original Self Thomas Moore, 2001-08-07 In *Original Self* spiritual pioneer Thomas Moore guides readers back to their God given personalities through fifty heart lifting meditations This inspiring collection offers fresh interpretations of living with originality rather than conformity presenting multidimensional portraits of the creative self and different angles from which to top one s primal emotions and possibilities Learn what it means to live from the burning essence of the heart with the creativity that comes from allowing the soul to blossom in its own colors and shapes With his usual grace and insight Moore counters the prevailing assumptions of the day and offers strikingly unorthodox views on what is virtuous and healthy opening up possibilities for a renewal of the way we live socially and in our private lives *Get Real: From Storytelling to Authenticity* Robin Toler, ATR-BC, LAC, with Burl Eugene Forgey, MD, 2012-06-17 This workbook was written to reduce unnecessary suffering by helping those who want to take off their masks and Get Real This is a how to guide filled with multileveled exercises activities and initiatives to help practically anyone build a functional practical and sustainable life story Get Real From Storytelling to Authenticity is a practical and creative process where personal truths are woven into a good enough Story bringing positive and negative aspects of an individual s life into a meaningful unified whole Life Story Writing encourages being Real through accepting personal truths Many have found answers to their problems and have worked out difficult issues and live out meaningful and sustainable lives Everyone has a powerful life story and when one can discern decipher and describe their life story in an authentic and genuine way incredible personal energy is released The Paradox of Authenticity Eric E. Hall, 2015-08-11 In this book Eric E Hall takes up the question of the meaning of a vigorously used concept in the liberal west authenticity and the pursuit of personal originality By uncovering this idea s uses within three deepening contexts the ethical the ontological and the theological the author unfolds authenticity s origins and implications To the degree that authenticity seeks in all contexts freedom from social horizons the conclusion renders attempts to embody this ideal secularly impossible The goal requires a total transcendence that only the divine could fulfill Human authenticity thus emerges in creatively imitating God s self sacrificial expression on the cross which both transcends and revalues the horizons of this world Healing Words for the Body, Mind, and Spirit Caren Goldman, 2009-09-01 Easy to use in a variety of ways Healing Words is complementary medicine for the mind body and spirit that has a history of proven efficacy for people of all faiths on their journeys to healing and wholeness Every two page spread is a chapter headlined by one of 101 words that relate to healing the mind body and spirit as a process or event The word is followed by a definition a personal reflection or a story that relates to the healing power of the word quotes and an affirmation for the reader to use on his or her healing journey The quotes include contemporary excerpts as well as words from the sages plus proverbs psalms and more *A Peircean Reimagining of Thomas Moore's Spirituality* Nathan Garcia, 2025-09-04 Thomas Moore s psycho spirituality offers many practical insights for people to cultivate their soulfulness Underlying his program is the internal

dichotomy between imaginal soul and intellectualizing spirit Moore prioritizes soul and privileges its mystical worldview which can lead to exaggerating introspectiveness and difficulty bridging a world of imagination with a world of fact This book devises a pragmatic model of spirituality to serve as an alternative to Moore s Platonically inspired soul program This model draws from Moore s vibrant character of soul and redirects it toward a critical social dialogue scientific inquiry and elevated political participation Drawing from the Pragmatism of Charles Sanders Peirce this book uses his famous Three Categories and Modes of Inference to reinterpret Moore s concepts of soul and spirit Peirce s metaphysical categories situate soul in distinct relationship with the world while the epistemological modes guide spirit to educate soul through experience The concluding tripartite model is called a soulful anthropology a nascent foundation for a 21st century American theological anthropology dedicated to the needs and charisms of today s culture
