Origins Of Liberal Dominance:

Origins of Liberal Dominance Andrew C. Gould, 2010-06-02 How did liberal movements reshape the modern world Origins of Liberal Dominance offers a revealing account of how states churches and parties joined together in France Belgium Switzerland and Germany to produce fundamentally new forms of organization that have shaped contemporary politics Modern political life emerged when liberal movements sought to establish elections constitutions free markets and religious liberty Yet liberalism even at its height faced strong and often successful opposition from conservatives What explains why liberals overcame their opponents in some countries but not in others This book compares successful and unsuccessful attempts to build liberal political parties and establish liberal regimes in France Belgium Switzerland and Germany from 1815 to World War I Andrew Gould argues that relations between states and churches set powerful conditions on any attempt at liberalization Liberal movements that enhanced religious authority while reforming the state won clerical support and successfully built liberal institutions of government Furthermore liberal movements that organized peasant backing around religious issues founded or sustained mass movements to support liberal regimes Origins of Liberal Dominance offers striking new insights into the emergence of modern states and regimes It will be of interest to political scientists sociologists comparative historians and those interested in comparative politics regime change and state building democratization religion and politics and European politics Andrew C Gould is Assistant Professor of Government and Kellogg Institute Fellow University of Notre Dame

The Lost History of Liberalism Helena Rosenblatt, 2020-02-04 The Lost History of Liberalism challenges our most basic assumptions about a political creed that has become a rallying cry and a term of derision in today's increasingly divided public square Taking readers from ancient Rome to today Helena Rosenblatt traces the evolution of the words liberal and liberalism revealing the heated debates that have taken place over their meaning In this timely and provocative book Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo American tradition centered on individual rights It was only during the Cold War and America's growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms

The Legacies of Liberalism James Mahoney, 2003-04-01 Winner of the Barrington Moore Jr Prize for the Best Book in Comparative and Historical Sociology from the American Sociological Association Winner of the Best Book Award in the Comparative Democratization Section from the American Political Science Association Despite their many similarities Central American countries during the twentieth century were characterized by remarkably different political regimes In a comparative analysis of Guatemala El Salvador Costa Rica Honduras and Nicaragua James Mahoney argues that these political differences were legacies of the nineteenth century liberal reform period Presenting a theory of path dependence Mahoney shows how choices made at crucial turning points in Central American history established certain directions of change and foreclosed others to shape long term development By the middle of the twentieth century three types of political regimes characterized

the five nations considered in this study military authoritarian Guatemala El Salvador liberal democratic Costa Rica and traditional dictatorial Honduras Nicaragua As Mahoney shows each type is the end point of choices regarding state and agrarian development made by these countries early in the nineteenth century Applying his conclusions to present day attempts at market creation in a neoliberal era Mahoney warns that overzealous pursuit of market creation can have severely negative long term political consequences The Legacies of Liberalism presents new insight into the role of leadership in political development the place of domestic politics in the analysis of foreign intervention and the role of the state in the creation of early capitalism The book offers a general theoretical framework that will be of broad interest to scholars of comparative politics and political development and its overall argument will stir debate among historians of particular Central American countries

Religious Origins of Democratic Pluralism Mark Safstrom, 2017-01-26 The Religious Origins of Democratic Pluralism focuses on explaining one of the riddles that fascinated historians and political scientists for much of the twentieth century namely the origin and development of Swedish social democracy While other countries in Europe experienced dramatic swings between radical and conservative political parties which resulted in tragic experiments with totalitarian regimes Sweden by contrast miraculously seemed to avoid these extremes and instead maintained space for democratic discussion and even dissent This peaceful transformation was facilitated by political actors who crafted the discourse of their debates in such a way that pluralism came to be valued as an ethical good and then vigorously defended This study examines the decades leading up to the emergence of social democracy in Sweden and in particular the career of one prominent politician Paul Peter Waldenstrom 1838 1917 Waldenstrom was a clergyman revival preacher educator author and newspaper editor whose political career began in 1868 with his participation in the Church Assembly of the Church of Sweden His role expanded during his years of service in the Swedish parliament the Riksdag from 1884 1905 This study places Waldenstrom in dialogue with his contemporaries and opponents as a means of identifying how the theological values and priorities of the religious awakening were articulated in the public sphere and contributed to the development of a new political order

From Popular Liberalism to National Socialism Oded Heilbrunner, 2017-05-15 Long live liberty equality fraternity and dynamite So went the traditional slogan of the radical liberals in Greater Swabia the south western part of modern Germany This book investigates the development of what the author terms popular liberalism in this region in order to present a more nuanced understanding of political and cultural patterns in Germany up to the early 1930s In particular the author offers an explanation for the success of National Socialism before 1933 in certain regions of South Germany arguing that the radical liberal sub culture was not subsumed by the Nazi Party but instead changed its form of representation Together with the famous v lkish fraction and the leftist fraction within the chapters of the Nazi Party there were radical liberal associations ex members of radical liberal parties sympathizers with these parties and notables with a radical orientation derived from family and regional traditions These people and associations believed that the Nazi Party could fulfil

their radical liberal vision rooted in the local democratic and liberal traditions which stretched from 1848 to the early 20th century By looking afresh at the relationship between local regional identities and national politics this book makes a major contribution to the study of the roots of Nazism **Congressional Record** United States. Congress,1970 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Secularism and State Policies Toward Religion** Ahmet T. Kuru,2009-04-27 Comparing policy in America France and Turkey this book analyzes the impact of ideological struggles on public policies toward religion **Citizens and Believers** Robert Curley,2018-11-15 This book shows the centrality of religion to the making of the 1910 Mexican revolution It goes beyond conventional studies of church state conflict to focus on Catholics as political subjects whose religious identity became a fundamental aspect of citizenship during the first three decades of the twentieth century **Piety and Privilege** Tom A. O'Donoghue,Judith Harford,2021 For centuries the Catholic Church ran schools around the world but by the 20th century most countries had moved to a state school system Piety and Privilege shows Ireland as an exception with the state financing schools leaving the Church to promote practices aimed at salvation of souls and at the reproduction of a loyal middle class **Toward the Light of Liberty** A. C. Grayling,2009-05-26 The epic story of the interlocking struggles to achieve the individual rights and freedoms that characterize Western civilization by one of the world s leading public intellectuals Perhaps the hallmark of western civilization over the past five hundred years writes A C Grayling is the series of liberation struggles without which the ordinary citizen in Western countries would not enjoy the rights and freedoms we now take for granted They began with the often violent battle to allow independent thought uncontrolled by the Church which led in time to political freedom as monarchies were gradually replaced by more representative forms of government These in turn made possible the abolition of slavery rights for working men and women universal education the enfranchisement of women and much more Each of these struggles was a memorable human drama and Grayling skillfully interweaves the stories of celebrated and little known heroes alike from Martin Luther and John Locke to the sixteenth century French scholar Sebastien Castellio and the nineteenth century feminist Elizabeth Cady Stanton The triumphs and sacrifices of those who dared to oppose authority ring loudly down the ages proving how hard won each successive victory has been And yet as Grayling persuasively shows in a cautionary coda democratic governments under pressure have often thought it necessary to restrict rights in the name of freedom further underlining how precious they are Toward the Light of Liberty is thus particularly relevant as we head toward an election season in which our own civil liberties will surely be an issue *Comparative Politics* Jeffrey Kopstein,Mark Lichbach,2005-09-05 Now in a completely updated second edition this textbook has become a favorite for the

introductory undergraduate course in comparative politics It features ten theoretically and historically grounded country studies that show how the three major concepts of comparative analysis interests identities and institutions shape the politics of nations Throughout the presentation countries appear in the context of a changing global order that creates challenges to each country s path of development These challenges frequently alter domestic interests and identities and force countries to find new institutional solutions to the problems of modern politics Written in a style free of heavy handed jargon and organized to address the concerns of contemporary comparativists this textbook provides students with the conceptual tools and historical background they need to understand the politics of our complex world **Democratic Quality in Southern**

Europe Tiago Fernandes,2024-05-15 Fueled by new data from the Varieties of Democracy project Democratic Quality in Southern Europe takes a close look at the democratic trajectories of France Greece Italy Portugal and Spain over the past fifty years Despite similar beginnings France Greece Italy Portugal and Spain have experienced significant variations in the way their democracies have evolved Covering ground from the protest movements of the late 60s and early 70s to the challenges that resulted from the financial crisis of the Great Recession editor Tiago Fernandes expertly draws together a collection of essays that look beyond the impact of socioeconomic development in these five countries exploring innovative and nuanced explanations for their diverging paths Democratic Quality in Southern Europe combines new data with classical methodologies to create fresh convincing hypotheses on the development quality and depth of democracy in this critical region Contributors Tiago Fernandes Rui Branco Jo o Cancela Edna Costa Pedro Diniz de Sousa Pedro T Magalh es Edalina Rodrigues Sanches Jos Santana Pereira Tiago Tib rcio **Comparative Historical Analysis in the Social Sciences** James

Mahoney,Dietrich Rueschemeyer,2003-02-10 This book systematically investigates the past accomplishments and future agendas of contemporary comparative historical analysis Its core essays explore three major issues the accumulation of knowledge in the field over the past three decades the analytic tools used to study temporal process and historical patterns and the methodologies available for making inferences and for building theories The introductory and concluding essays situate the field as a whole by comparing it to alternative approaches within the social sciences Comparative Historical Analysis in the Social Sciences will serve as an invaluable resource for scholars in the field and it will represent a challenge to many other social scientists especially those who have raised skeptical concerns about comparative historical analysis in the past **Evangelicals and Electoral Politics in Latin America** Taylor C. Boas,2023-01-26 This book analyzes the rise of evangelical Christians in Latin American electoral politics comparing six Latin American countries

The Intellectual Origins of Mass Parties and Mass Schools in the Jacksonian Period Julie M. Walsh,1998 Argues that in the 1830s and 1840s all three main US political parties despite their rhetorical differences maintained consensus about citizenship training through educating children which produced the first generation of politically passive Americans content to vote loyally for their party and demand little or no input into the formation of its platform This in turn is seen as essential for building the

type of political party that has endured since Annotation copyrighted by Book News Inc Portland OR Critical Junctures and Historical Legacies David Collier, Gerardo L. Munck, 2022-02-28 Over the past 50 years scholars across the social sciences have employed critical juncture analysis to understand how social orders are created become entrenched and change In this book leading scholars from several disciplines offer the first coordinated effort to define this field of research assess its theoretical and methodological foundations and use a critical assessment of current practices as a basis for guiding its future Contributors include stars in this field who have written some of the classic works on critical junctures as well as the rising stars of the next generation who will continue to shape historical comparative analysis for years to come Critical Junctures and Historical Legacies will be an indispensable resource for social science research methods scholars and students

Liberals Roy Douglas, 2005-03-01 The party of Gladstone Asquith and Lloyd George the Liberal Party emerged in mid Victorian Britain from a combination of Whigs Radicals and Peelites Tories It was a dominant force in Britain and the world at the height of the power of the British Empire Split by Gladstone's Home Rule Bills it nevertheless returns to power in Edwardian England and held it until after the outbreak of the First World War with Lloyd George heading a Coalition Government from 1916-22 Riddled by internal divisions and increasingly challenged by Labour the party lost ground in Parliament becoming little more than a rump for many years With the foundation of the Social Democrats in 1981 and their subsequent merger with the Liberals as Liberal Democrats in 1988 a modern version of the party emerged under Paddy Ashdown Charles Kennedy and now Menzies Campbell as a significant third force in British politics

Radical, Reformist, and Aborted Liberalism James Lee Mahoney, 1997

A History of Western Public Law Bruno Aguilera-Barchet, 2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events

The Rise of the Global Imaginary Manfred B. Steger, 2008-07-03 A tour de force examination of the contemporary ideological landscape by one of the world's leading analysts of globalization
