Northcote Whitridge Thomas

Orkney And Shetland:

The Northern Isles Alexander Fenton, 1997 The Northern Isles stand at a crossroads of North Atlantic Europe subject to the competing influences of Scandinavia and Scotland Sandy Fenton's detailed study of the material culture of Orkney and Shetland is combined with thorough linguistic analysis and is based on years of study and sifting of a mass of detail Much of the material is new based on extensive research by the author on manuscript and other written sources and on knowledge freely imparted by many local inhabitants It illuminates the complexity of numerous interlocking factors draws a picture of a fascinating and varied existence and reveals the past not as a static tableau but a process of continuous change This book recreates the physical environment in which the people lived their crops and livestock the harvest of the sea their houses the food they ate These things dominated their lives and form the background which is the key to understanding the character of these fascinating islands This major work has earned its place as a key contribution to European ethnology and won the Dag Stromback Award of the Royal Gustav Academy Sweden

The Early English Settlement of Orkney and Shetland Graeme Davis,2007 Written by one of Britain s foremost experts in medieval culture this account counters popular historical belief by proposing that there was a Saxon settlement in both Orkney and Shetland Scotland during the fourth century AD Arguing that the Saxons a minority group were subsumed into the Norwegian Viking population that migrated to the islands around AD 790 it demonstrates how these people had a 400 year presence on the islands Based on extensive linguistic historical and archaeological research this book casts a new light on the origins of the first island settlers
