Orthodox Russia:

Cross and Kremlin Thomas Bremer, 2013-10-17 Russian political history and Russian church history are tied together very tightly One cannot properly understand the overall history of Russia without considering the role of the Orthodox Church in Russia Cross and Kremlin uniquely surveys both the history and the contemporary situation of the Russian Orthodox Church The first chapter gives a concise chronology from the tenth century through the present day The following chapters highlight several important issues and aspects of Russian Orthodoxy church state relations theology ecclesiastical structure monasticism spirituality the relation of Russian Orthodoxy to the West dissidence as a frequent phenomenon in Russian church history and more Orthodox Russia in Crisis Isaiah Gruber, 2012-05-15 A pivotal period in Russian history the Time of Troubles in the early seventeenth century has taken on new resonance in the country's post Soviet search for new national narratives The historical role of the Orthodox Church has emerged as a key theme in contemporary remembrances of this time but what precisely was that role The first comprehensive study of the Church during the Troubles Orthodox Russia in Crisis reconstructs this tumultuous time offering new interpretations of familiar episodes while delving deep into the archives to uncover a much fuller picture of the era Analyzing these sources Isaiah Gruber argues that the business activity of monasteries played a significant role in the origins and course of the Troubles and that frequent changes in power forced Church ideologues to innovate politically for example inventing new justifications for power to be granted to the people and to royal women These new ideas Gruber contends ultimately helped bring about a new age in Russian spiritual life and a crystallization of the national mentality Russian Society and the Orthodox Church Zoe Knox, 2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church's social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society **The Post-Soviet Russian Orthodox Church** Katja Richters, 2012-08-21 In recent years the Russian Orthodox Church has become a more prominent part of post Soviet Russia A number of assumptions exist regarding the Church's relationship with the Russian state that the Church has always been dominated by Russia's secular elites that the clerics have not sufficiently fought this domination and occasionally failed to act in the Church's best interest and that the Church was turned into a Soviet institution during the twentieth century This book challenges these assumptions It demonstrates that church state relations in post communist Russia can be seen in a much more differentiated way and that the church is not subservient very much having its own agenda Yet at the same time it is sharing the state's and Russian

society's nationalist vision The book analyses the Russian Orthodox Church's political culture focusing on the Putin and Medvedev eras from 2000 It examines the upper echelons of the Moscow Patriarchate in relation to the governing elite and to Russian public opinion explores the role of the church in the formation of state religious policy and the church's role within the Russian military It discusses how the Moscow Patriarchate is asserting itself in former Soviet republics outside Russia especially in Estonia Ukraine and Belarus It concludes by re-emphasising that although the church often mirrors the Kremlin's political preferences it most definitely acts independently Orthodox Revivalism in Russia Milena Benovska, 2020-10-12 Orthodoxy has achieved a large scale revival in Russia following the collapse of Communism However paradoxically although there is a high level of identification with Orthodoxy there is in fact a low level of church attendance This book based on in depth ethnographic fieldwork explores the social background and moral attitudes of the little flock of believers who actively participate in religious life It reveals that the complex moral beliefs of the faithful have a disproportionately high impact on Russian society overall that among the faithful there is a strong emphasis on striving for personal perfection but that also there are strong collective ideas concerning religious nationalism and the synergy between the secular and the religious *Orthodox Russia: Belief and Practice Under the Tsars*, *Holy Rus'* John P. Burgess, 2017-02-21 A fascinating vivid and on the ground account of Russian Orthodoxy's resurgence A bold experiment is taking place in Russia After a century of being scarred by militant atheistic communism the Orthodox Church has become Russia's largest and most significant nongovernmental organization As it has returned to life it has pursued a vision of reclaiming Holy Rus that historical yet mythical homeland of the eastern Slavic peoples a foretaste of the perfect justice peace harmony and beauty for which religious believers long and the glimpse of heaven on earth that persuaded Prince Vladimir to accept Orthodox baptism in Crimea in A D 988 Through groundbreaking initiatives in religious education social ministry historical commemoration and parish life the Orthodox Church is seeking to shape a new post communist national identity for Russia In this eye opening and evocative book John Burgess examines Russian Orthodoxy's resurgence from a grassroots level providing Western readers with an enlightening inside look at the new Russia **The Making of Holy Russia** John Strickland, 2020 This book is a critical study of the interaction between Russian Church and society in the late nineteenth and early twentieth century At a time of rising nationalist movement throughout Europe Orthodox patriots advocated for the place of the Church as a unifying force central to the identity and purpose of the burgeoning yet increasingly religiously diverse Russian Empire Their views were articulated in a variety of ways Bishops such as Metropolitan Antony Khrapovitsky a founding hierarch of the Russian Orthodox Church outside Russia and other members of the clergy expressed their vision of Russia through official publications including ecclesiastical journals sermons the organization of pilgrimages and the canonization of saints On the other hand religious intellectuals such as the famous philosopher Vladimir Soloviev and the controversial former Marxist Sergey Bulgakov promoted what was often a variant

vision of the nation through the publication of books and articles Even the once persecuted Old Believers emboldened by a religious toleration edict of 1905 sought to claim a role in national leadership And many in particularly famous painter Mikhail Vasnetsov looked to art and architecture as a way of defining the religious ideals of modern Russia Whilst other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces the reader to a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Ultimately neither the conservative voices presented here nor those of their better known liberal protagonists were able to prevent the calamity that befell Russia with the Bolshevik revolution in 1917 Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative Faith on the other *The Making of Holy Russia* John Strickland (Archpriest),2013 At the beginning of February 2013 the Bishops Council of the Russian Orthodox Church met in Moscow In their concluding statement the Bishops declared Orthodoxy is being reborn as the foundation of national self consciousness uniting all the healthy forces in society those forces which strive for the transformation of life on the basis of a sure foundation and the spiritual and moral values that have entered the flesh and blood of our peoples This book is a critical study of an earlier period in the history of the Russian Church The late nineteenth and early twentieth century in which Orthodox patriots advocated for the place of the Church as a unifying force central to the identity and purpose of the burgeoning Russian Empire Their views were articulated not only in numerous publications but also through art and architecture Whilst other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces the reader to a wide range of conservative opinion that equally strove for the renewal of the Church and the spread of the Gospel Ultimately neither these conservative voices presented here nor those of their better known liberal protagonists were able to prevent the calamity that befell Russia with the Bolshevik revolution in 1917 The relatively narrow scope of this study should not conceal the wider relevance of its debates to the broader and continuing discussion of the relationship between national and ethnic identities and the self understanding of Orthodoxy as a universal and transformative Faith Book jacket *A Concise History of the Russian Orthodox Church* Neil Kent,2022-03 Orthodox Christianity is one of the world s major religions and the Russian Orthodox Church is by far its largest denomination Few know its history and spiritual richness however Neil Kent s comprehensive new book fills that gap The Russian Orthodox Church s Eastern roots including its dogma canons and practices are explored along with the political and military contexts in which it carried out its mission over the centuries Hemmed in between the Catholic powers of pre Reformation Europe in the West the Mongol steppe empires to the East and the Islamic civilizations to the South Russia and its Church found themselves in a difficult position during the Middle Ages The Russian Orthodox Church s greatest strength

was in the spiritual power of its liturgy prayerfulness icons and monastic life But even as the Church consolidated its authority under its own metropolitan and later patriarch it came into conflict with political rulers who sought to undermine it After defeating foreign challenges the Church underwent a painful reformation and schism finally coming under government control The Church survived this Babylonian Captivity and in philosophical and spiritual terms flourished under tsarist rule while still facing rising opposition The fall of the monarchy in 1917 led to the Church's brief rejuvenation but communist rule spelled relentless persecution with little respite at home and a lively migr church carrying Russian traditions abroad In post Soviet times however the Church enjoyed an extraordinary resurrection and benefiting from the spiritual richness and reunion with the Russian Orthodox Church abroad once again became a spiritual pillar of the Russian people and a beacon of hope and Christian values not only in Russia but anywhere it is currently practiced

Coleman, 2014-09-03 From sermons and clerical reports to personal stories of faith this book of translated primary documents reveals the lived experience of Orthodox Christianity in 19th and early 20th century Russia These documents allow us to hear the voices of educated and uneducated writers of clergy and laity nobles and merchants workers and peasants men and women Russians and Ukrainians Orthodoxy emerges here as a multidimensional and dynamic faith Beyond enhancing our understanding of Orthodox Christianity as practiced in Imperial Russia this thoughtfully edited volume offers broad insights into the relationship between religious narrative and social experience and reveals religion's central place in the formation of world views and narrative traditions

The Orthodox Church and Civil Society in Russia Wallace L. Daniel, 2006-08-09 In the void left by the fall of Communism in Russia during the late twentieth century can that country establish a true civil society Many scholars have analyzed the political landscape to answer this question but in *The Orthodox Church and Civil Society in Russia* Wallace L. Daniel offers a unique perspective within the church are individuals who hold the values and institutional models that can be vital in determining the direction of Russia in the twenty first century Daniel tells the stories of a teacher and controversial parish priest the leader of Russia's most famous women's monastery a newspaper editor and a parish priest at Moscow University to explore thoroughly and with a human voice the transformation from Communist country to a new social order Daniel explores specific religious communities and the way they operate their efforts to rebuild parish life and the individuals who have devoted themselves to such goals This is the level Daniel shows at which the reconstruction of Russia and the revitalization of Russian society is taking place This book is written for general readers interested in the intersection between politics religion and society as well as for scholars

Fluid Russia Vera Michlin-Shapir, 2021-12-15 *Fluid Russia* offers a new framework for understanding Russian national identity by focusing on the impact of globalization on its formation something which has been largely overlooked This approach sheds new light on the Russian case revealing a dynamic Russian identity that is developing along the lines of other countries exposed to globalization Vera Michlin Shapir shows how along with the freedoms afforded when Russia joined the globalizing world in

the 1990s came globalization's disruptions Michlin Shapir describes Putin's rise to power and his project to reaffirm a stronger identity not as a uniquely Russian diversion from liberal democracy but as part of a broader phenomenon of challenges to globalization She underlines the limits of Putin's regime to shape Russian politics and society which is still very much impacted by global trends As well Michlin Shapir questions a prevalent approach in Russia studies that views Russia's experience with national identity as abnormal or defective either being too weak or too aggressive What is offered is a novel explanation for the so called Russian identity crisis As the liberal postwar order faces growing challenges Russia's experience can be an instructive example of how these processes unfold This study ties Russia's authoritarian politics and nationalist rallying to the shortcomings of globalization and neoliberal economics potentially making Russia patient zero of the anti globalist populist wave and rise of neo authoritarian regimes In this way Fluid Russia contributes to the broader understanding of national identity in the current age and the complexities of identity formation in the global world

The Making of Holy Russia John Strickland, 2013-09-01 This book is a critical study of the interaction between the Russian Church and society in the late 19th and early 20th century While other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative faith on the other

Proselytism and Orthodoxy in Russia John Witte, Michael Bourdeaux, 2009-05-01 Few of the struggles Russia has undergone since the fall of Communism have been fiercer than that being fought between the long repressed Russian Orthodox Church and a host of groups seeking to evangelize the Russian people This volume assesses the legitimacy of the Orthodox attempt to reclaim the spiritual and moral heart of the Russian people and to retain their adherence in a new pluralistic world where many Christians and followers of other traditions seek the right to establish themselves Proselytism and Orthodoxy in Russia also brings together the latest scholarship on the new Russian laws regarding religion as well as suggesting guidelines for foreign missionaries in Russia

The Orthodox Church in the History of Russia Dimitry Pospelovsky, 1998-01-01 A panoramic view of one of the largest most controversial spiritually profound and deeply suffering of all Christian churches The author begins with the legalization of Christianity by Constantine the Great and the subsequent chapters lead the reader to the calamities of the 20th century under communism The book ends with a brief survey of the post Communist era

The Catholic Church and Soviet Russia, 1917-39 Dennis Dunn, 2016-11-18 This book based on extensive research including in the Russian and Vatican archives charts the development of relations between the Catholic Church and the Soviet Union from the Bolshevik Revolution of 1917 to the death of Pope Pius XI in 1939 It provides background information on the animosity between the

Orthodox and Catholic churches and moves towards reconciliation between them discusses Soviet initiatives to eradicate religion in the Soviet Union and spread atheist international communism throughout the world and explores the Catholic Church's attempts to survive in the face of persecution within the Soviet Union and extend itself Throughout the book reveals much new detail on the complex interaction between these two opposing bodies and their respective ideologies **Ukraine and Russia** Paul D'Anieri, 2023-03-23 In this fully revised and updated in depth analysis of the war in Ukraine Paul D Anieri explores the dynamics within Ukraine between Ukraine and Russia and between Russia and the West that emerged with the collapse of the Soviet Union and eventually resulted in Russia's invasion in 2022 Proceeding chronologically this book shows how Ukraine's separation from Russia in 1991 at the time called a civilized divorce led to Europe's most violent conflict since WWII It argues the conflict came about because of three underlying factors the security dilemma the impact of democratization on geopolitics and the incompatible goals of a post Cold War Europe Rather than a peaceful situation that was squandered D Anieri argues that these were deep seated pre existing disagreements that could not be bridged with concerning implications for the prospects of resolution of the Ukraine conflict **A Geography of Russia and Its Neighbors** Mikhail S. Blinnikov, 2021-02-17 Authoritative yet accessible the definitive undergraduate text on Russian geography and culture has now been thoroughly revised with current data and timely topics such as the annexation of Crimea and Sevastopol and other background for understanding Russia's 2022 invasion of Ukraine Thematic chapters provide up to date coverage of Russia's physical political cultural and economic geography Regional chapters focus on the country's major regions and the other 14 former Soviet republics Written in a lucid conversational style by a Russian born international expert the concise chapters interweave vivid descriptions of urban and rural landscapes examinations of Soviet and post Soviet life deep knowledge of environmental and conservation issues geopolitical insights engaging anecdotes and rigorous empirical data Over 200 original maps photographs and other figures are also available as PowerPoint slides at the companion website many in color New to This Edition Separate chapter on Ukraine and Crimea covering events through 2019 Timely topics the political crisis in Ukraine and annexation of Crimea and Sevastopol the return of Putin as president climate change and environmental degradation economic slowdown political shifts in the republics the role of Russian backed forces in Syria Libya and Central African Republic changes in Russia United States relations and more Thoroughly updated population economic and political data 80 new or updated figures tables and maps Pedagogical Features End of chapter review questions suggested assignments and in class exercises Within chapter vignettes about Russian places culture and history End of chapter internet resources and suggestions for further reading Companion website with all figures and maps from the book many in full color **Russia as Civilization** Kåre Johan Mjør, Sanna Turoma, 2020-05-18 Analyzing the use of civilization in Russian language political and media discourses intellectual and academic production and artistic practices this book discusses the rise of civilizational rhetoric in Russia and global politics Why does the concept of civilization play

such a prevalent role in current Russian geopolitical and creative imaginations The contributors answer this question by exploring the extent to which discourse on civilization penetrates Russian identity formations in imperial and national configurations and at state and civil levels of society Although the chapters offer different interpretations and approaches the book shows that Russian civilizationism is a form of ideological production responding to the challenges of globalization The concept of civilization while increasingly popular as a conceptual tool in identity formation is also widely contested in Russia today This examination of contemporary Russian identities and self understanding will be of particular interest to students and scholars of Russian area studies and Slavic studies intellectual and cultural history nationalism and imperial histories international relations discourse analysis cultural studies media studies religion studies and gender studies
