The Oxford Companion to Canadian Theatre Eugene Benson, Leonard W. Conolly, 1989 The Canadian theatre has seen an extraordinary growth in writing talent and new professional companies in the last two decades This is the first book accurately to chart its expansion and development from the beginnings to the present day With some 680 entries including biographies of actors playwrights directors and designers and details of major plays and such diverse subjects as theatres and companies collective theatre ethnic theatre musical theatre and radio and television drama this is a unique and definitive reference work offering a mine of fascinating information to all readers interested in the theatre *Redressing the Past* Kym Bird, 2004 Focusing on a body of lost and forgotten plays by women and situating them in the context of the early women's movement and its major discourses on suffrage higher education and social gospel Kym Bird challenges the male defined focus of recent historical studies into 19th century Canadian drama She argues that in a society that preferred to think of men and women as part of separate but complimentary spheres the woman naturally suited for the private world of the home and motherhood and the man for the public world of work and politics these plays advanced two forms of feminist politics Liberal or equality feminism demanded the same rights and privileges for women as those accorded men domestic or maternal feminism justified women's participation in the public sphere based on their natural materialism and moral superiority the contradictory relations within these forms of feminism on the one hand they represent women's social and political emancipation and on the other they affirm patriarchal structures and the status quo Implicitly this study calls into question what traditionally constitutes drama by treating plays written in non canonical forms mounted in nonprofessional venues and published by marginal presses or not at all as important literary theatrical and historical documents
