Rolling Thunder Understanding Policy And Program Failure By Thompson James:

Special Bibliography Series ,1957 **Military Planning in the Twentieth Century** Mary Ann Robinson,1984 The essays commentaries and speeches which form this volume were presented at the Eleventh Military History Symposium held at the United States Air Force Academy on 10 12 October 1984 This conference is a biennial event sponsored jointly by the Department of History and the Association of Graduates of the United States Air Force Academy Begun in 1967 the series seeks to address problems in military history which have received limited attention and to provide a forum in which scholars may present the results of their research In this manner we hope to stimulate and encourage interest in military history among civilian and military scholars members of the armed forces and the cadets of the United States Air Force Academy

Military planning in the twentieth century , Vietnam George Donelson Moss,2016-07-01 This book provides a comprehensive narrative history of U S involvement in Southeast Asia from 1942 to 1975 with a concluding section that traces U S Vietnam relations from the end of the war in 1975 to the present Unlike most general histories of U S involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed Key topics The Fall of Saigon The End as Prelude Vietnam A Place and A People The Elephant and the Tiger An Experiment in Nation Building Raising the Stakes Going to War The Chain of Thunders The Year of the Monkey A War to End a War The End of the Tunnel Market For anyone curious to know about the long American involvement in Southeast Asia 1942 1975

Vietnam War Almanac James H. Willbanks,2013-09-03 With more than 58 000 casualties and 300 000 wounded at a cost of more than 130 billion the Vietnam War became one of the most divisive conflicts in American history The scars left by the war can still be felt today making it crucial that we have the facts about this watershed event Vietnam War Almanac contains a chronological history of the war in Vietnam with day by day listings of the war on the ground in the air and at sea international and U S events and a biographical dictionary of major military and civilian figures It may be impossible to fully understand such a complicated and horrible struggle but for the families of veterans and for historians the thorough presentation here along with its extensive bibliography and index is an excellent place to start Coverage here includes The Tet Offensive Walter L Cronkite The Battle of Dien Bien Phu Vo Nguyen Giap Ngo Dinh Diem The Battle of Ia Drang Valley Robert S McNamara The Battle of Hamburger Hill Abbie Hoffman The Battle of An Loc And much more President Nixon claimed that the war was misrepresented then and it is misremembered now This almanac will ensure that it is remembered correctly America's Forgotten Wars Sam C. Sarkesian,1984-10-24 This book provides numerous brilliant and sound insights into the nature of low level conflict Sarkesian also perceptively describes the imperatives of the military mind set and armed forces structure necessary to help the US government achieve its national objectives in a turbulent world Despite

shortcomings the book is a good and necessary work for those who want to know about the type of warfare that will engage our military forces for the rest of this century and beyond Community college and above Choice **The Rush to Policy** Peter William House, Roger Roger Don Shull, Rush to Policy explores the appropriate role of technical analysis in policy formulation The authors ask when and how the use of sophisticated analytic techniques in decision making benefits the nation They argues that these techniques are too often used in situations where they may not be needed or understood by the decision maker where they may not be to answer the questions raised but are nonetheless required by law House and Shull provide an excellent empirical base for describing the impact of politics on policies policy analysis and policy analysts They examine cost benefit analysis risk analysis and decision analysis and assess their ability to substitute for the current decision making process in the public sector They examine the political basis of public sector decision making how individuals and organizations make decisions and the ways decisions are made in the federal sector Also they discuss the mandate to use these methods in the policy formulation process The book is written by two practicing federal policy analysts who in a decade of service as policy researchers developed sophisticated quantitative analytic and decision making techniques They then spent several years trying to use them in the real world Success and failures are described in illuminating detail providing insight not commonly found in such critiques The authors delineate the interaction of politics and technical issues Their book describes policy analysis as it is not how it ought to be Peter W House is the director of policy research and analysis at the National Science Foundation He is the author of ten books on multidisciplinary science and technology policy research and analyses in government private and university sectors including The Art of Public Policy Analysis and with Roger D Shull Regulatory Reform Politics and the Environment and Regulations and Science Management of Research on Demand Roger D Shull is a senior analyst at the Division of Policy Research and Analysis National Science Foundation *Air Power and Warfare* Elwood L. White, 2002 This highly selective bibliography supplements the original bibliography developed in 1978 by Ms Betsy C Kysely to support the Eighth Military History Symposium While this bibliography focuses primarily on materials published since the earlier bibliography was developed it does include some significant materials that were published prior to 1978 but that were omitted from that edition Emphasis in this supplement is on scholarly analysis of air power itself and scholarly depictions of its history Like most editions of the United State Air Force Academy Directorate of Libraries publication Special Bibliography Series this compilation is limited to current holdings of the Academic Library at the Academy It includes books reports government documents and journal articles Excluded are pictorial works newspaper articles works of fiction studies of the technology of aircraft and associated weaponry and items focused on the general history of aviation Readers wanting information on the history of aviation certainly prior to the Wright Brothers are encouraged to consult the U S Air Force Academy Friends of the Library publication The Genesis of Flight The Aeronautical History Collection of Colonel Richard Gimbel **Anatomy of Victory** John D. Caldwell, 2018-11-09 This groundbreaking

book provides the first systematic comparison of America's modern wars and why they were won or lost John D Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts Unlike WWII the Korean Vietnam and Iraqi Wars were limited but they required enormous national commitments produced no lasting victories and generated bitter political controversies Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different He defines a strategic architecture as an interlinked set of continually evolving policies strategies and operations by which combatant states work toward a desired end Policy defines the high level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one Policy makers direct a broad course of action and strive to control the initiative When they make decisions they have to respond to unforeseen conditions to guide and determine future decisions Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time Operations are the actions that occur when politicians soldiers and diplomats execute plans A strategic architecture Caldwell argues is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict **Military Law**

Review, 1980 *DA Pam*, 1980 Crosswinds Earl H. Tilford, Jr., Earl H. Tilford, 2008-12-19 Tilford exposes the generals' tunnel vision He demolishes the myth that the 1972 Christmas bombing brought Hanoi to its knees His controversial thesis is that the bombing of the North and the interdiction campaign against the Ho Chi Minh Trail were in no way decisive and that USAF leadership obtusely failed to perceive that North Vietnam an agricultural nation was simply not susceptible to strategic bombing Publishers Weekly hard hitting study on the failure of American air power in the Vietnam War The acute intellectual content of the book and the author's engaging writing style make the book easy to recommend Armed Forces Journal International America's War in Vietnam Larry H. Addington, 2000-04-22 If you want to read one book about Vietnam read this one New York Review of Books Drawing on years of experience teaching about the war Larry H Addington presents a short narrative history of the origins course and outcome of America's military involvement in Vietnam Not intended as a competitor to the many excellent comprehensive studies of the Vietnam Era this book will prove a useful introduction and a concise reference to America's longest most controversial war Addington reviews the history of pre colonial Vietnam the impact of French imperialism and the Indochina War and the Cold War origins of American involvement He then details US policy after the 1954 Geneva Accords its role in the establishment of South Vietnam and the outbreak of a new war Turning to America's deepening involvement Addington examines the US strategies for waging air and ground war the impact of the war at home and the reasons for the failure of US policy under President Johnson He studies the successes and failures of the policy of withdrawal under President Nixon and concludes with an overview of the war's aftermath and its legacy

Crucible of Power Howard Jones, 2009 Employing a narrative approach that uncovers the tangled and often confusing

nature of foreign affairs *Crucible of Power* focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration s foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter **The Columbia Guide to the Vietnam War** David L. Anderson, 2002 The Vietnam War remains a major point of reference in discussions of U S foreign policy and national character The lessons and legacies of the most divisive event in U S history in the twentieth century are hotly debated to this day Written by a renowned scholar of the conflict *The Columbia Guide to the Vietnam War* provides students and researchers with the materials to think seriously about the conflict s many paradoxes and ramifications *Policymaking Under Adversity* Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror s *Public Policymaking Reexamined* by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners

How the Weak Win Wars Ivan Arreguín-Toft, 2005-12-08 How do the weak win wars The likelihood of victory and defeat in asymmetric conflicts depends on the interaction of the strategies weak and strong actors use Using statistical and in depth historical analyses of conflicts spanning two hundred years in this 2005 book Ivan Arreguín-Toft shows that independent of regime type and weapons technology the interaction of similar strategic approaches favors strong actors while opposite strategic approaches favors the weak This approach to understanding asymmetric conflicts allows us to make sense of how the United States was able to win its war in Afghanistan 2002 in a few months while the Soviet Union lost after a decade of brutal war 1979-89 Arreguín-Toft s strategic interaction theory has implications not only for international relations theory but for policy makers grappling with interstate and civil wars as well as terrorism *Da Nang Diary* Tom Yarborough, 2002-09-16 THEY FLEW LOW SLOW AND INTO THE FACE OF ENEMY FIRE In Vietnam an elite group of air force pilots fought a secret air war in Cessna 0 2 and OV 10 Bronco prop planes flying as low as they could get The eyes and ears of the fast moving jets who rained death and destruction down on enemy positions the forward air controller made an

art form out of an air strike knowing the targets knowing where friendly troops were and reacting with split second life and death decisions as a battle unfolded For Tom Yarborough the risk was constant intense electrifying A member of the super secret Prairie Fire unit Yarborough became one of the most frequently shot up pilots flying out of Da Nang engaging in a series of dangerous secret missions in Laos This is Yarborough s adrenaline pumping chronicle of heroism danger and brotherhood in Vietnam From the rescuing of downed pilots to taking out enemy positions to the most harrowing day long missions here is the dedication courage and skill of the fliers who took the war into the enemy s backyard **A**
