Il Suburbio di Roma. Una storia cartografica Gabriella Restaino, 2016-01-20 00:00:00+01:00 facing english text Lo studio di una parte dei dintorni di Roma in particolare del Suburbio sud orientale stata l'occasione per un interessante e complessa operazione metodologica di interpretazione cartografica finalizzata alla ricostruzione del paesaggio storico dal 500 ad oggi di un territorio tuttora particolarmente significativo per caratteri struttura e permanenze Il lavoro risulta innovativo per le tecniche utilizzate e conferma l'importanza dello studio della cartografia storica non solo come disciplina autonoma ma anche come necessaria e troppo spesso dimenticata base di informazione Tale tipo di studio infatti dovrebbe precedere ogni azione di trasformazione di ogni territorio a elevata valenza culturale per evitare di perderne sempre piú la memoria storica Dalla presentazione di Lucio Carbonara

Power and Religion in Baroque Rome Peter Rietbergen, 2006-01-01 In ten chapters partly case studies this monograph analyzes the new ways in which cultural manifestations were used to create the necessary preconditions for religious policy and power in the Rome of Urban VIII 1623-1644 It was the intensified interaction between culture and power politics that created what we now call the Baroque Based on a rich variety of hitherto largely unexplored primary sources the book addresses the basic issues of papal power in

the post Tridentine period It does not study actual papal politics but rather the cultural forms that were essential to the representation and legitimatization of the papacy's power both secular and religious and that co determined the effectiveness of papal policy Precisely during Urban's long pontificate the manifold always imaginative and often unexpected uses of power representation became in the end not so much a series of cultural forms as in a sense the structure of early modern Roman society

Dow, 2021-03-22 The essays in *Visualizing the Past in Italian Renaissance Art* address a foundational concept that was as central to early modern thinking as it is to our own: that the past is always an important part of the present. Written by the friends, students and colleagues of Dr. Brian Curran, former professor of Art History at the Pennsylvania State University, these authors demonstrate how reverberations of the past within the present are intrinsic to the ways in which we think about the history of art. Examinations of sculpture, painting and architecture reveal the myriad ways that history has been appropriated, reinvented and rewritten as subsequent generations, including the authors collected here, have attained new insight into the past and present. Opuscoli astronomici di Giuseppe Calandrelli, Andrea Conti, e Giacomo Ricchebach ... con appendice Giuseppe Calandrelli, 1824 *Roma visitata da un cattolico e da un artista novissima opera per render facile la conoscenza della città eterna ad ogni persona in ogni luogo* di Cesare Malpica, Cesare Malpica, 1847 A History of the Oratorio Howard E. Smither, 2012-09-01 Howard Smither has written the first definitive work on the history of the oratorio since Arnold Schering published his *Geschichte des Oratoriums* in 1911. This volume is the first of a four-volume comprehensive study that offers a new synthesis of what is known to date about the oratorio. Volume 1, divided into three parts, opens with the examination of the medieval Renaissance and early Baroque antecedents and origins of the oratorio with emphasis on Rome and Philip Neri's Congregation of the Oratory and with special attention to the earliest works for which the term oratorio seems appropriate. The second part recounts the development of the oratorio in Italy circa 1640-1720. It reviews the social contexts, patrons, composers, poets, librettos and music of the oratorio in Italy, especially in Vienna and Paris. The procedure adapted throughout the work is to treat first the social context, particularly the circumstances of performance of the oratorio in a given area and period, then to treat the libretto and finally the music. For each geographic area and period, the author has selected for special attention a few oratorios that appear to be particularly important or representative. He has verified the information offered in the specialized literature whenever possible by reference to the music or documents. In a number of areas, particularly seventeenth-century Italy, in which relatively few previous studies have been undertaken or secondary sources have proven to

be inadequate the author has examined the primary sources in manuscript and printed form music librettos and documents of early oratorio history Impressive research and intelligent integration of disparate elements make this complicated diffuse subject both readable and accessible to the student of music Volume 2 The Oratorio in the Baroque Era Protestant Germany and England and Volume 3 The Oratorio in the Classical Era continue and expand the study of oratorio history Although this series was originally announced as a three volume study Smither will conclude with a fourth volume This new work the first English language study of the history of the oratorio will become the standard work on its subject and an enduring contribution to music and scholarship Originally published in 1977 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
