Romaines Crimean War:

Romaine's Crimean War William Govett Romaine, 2005 The Crimean War 1854 56 between the United Kingdom France and the Ottoman Empire on the one hand and Russia on the other has become notorious for the poor administration and bad generalship suffered by the British forces Four fifths of their deaths were due not to enemy action but to sickness and disease Contemporary accounts have often

The Railway that Helped Win the Crimean War Anthony Dawson, 2022-09-15 Week after week the guns of the British expeditionary force battered away at the defences of Sevastopol eight miles away from Balaklava the port through which all besiegers supplies arrived As autumn turned to winter rain and frost turned the track from Balaklava into a muddy quagmire and soon it became virtually impassable Horses were dying daily in their endeavours to pull carts up the hills to the siege lines and with few supplies reaching the front the troops suffered terribly from malnutrition and frostbite Unless a solution could be found the entire operation was doomed to humiliating disastrous failure When news of the terrible plight of the troops reached the UK a leading railway contractor and his partners undertook to build a railway at cost from Balaklava to the front line and promised that they could construct it in just three weeks after they arrived in the Crimea Though it took almost seven weeks to complete the railway in that time a double track which rose 500 feet from the port and travelled for seven miles to the siege lines had been laid With food clothing and ammunition at last able to reach the front the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK

The Crimean War Professor Andrew Lambert, 2013-07-28 In contrast to every other book about the conflict Andrew Lambert's ground breaking study The Crimean War British Grand Strategy against Russia 1853 1856 is neither an operational history of the armies in the Crimea nor a study of the diplomacy of the conflict The core concern is with grand strategy the development and implementation of national policy and strategy The key concepts are strategic derived from the works of Carl von Clausewitz and Sir Julian Corbett and the main focus is on naval not military operations This original approach rejected the Continentalist orthodoxy that dominated contemporary writing about the history of war reflecting an era when British security policy was dominated by Inner German Frontier the British Army of the Rhine and Air Force Germany Originally published in 1990 the book appeared just as the Cold War ended the strategic landscape for Britain began shifting away from the continent and new commitments were emerging that heralded a return to maritime strategy as adumbrated in the defence policy papers of the 1990s With a new introduction that contextualises the 1990 text and situates it in the developing historiography of the Crimean War the new edition makes this essential book available to a new generation of scholars

book focuses on moments of intimacy and reassessment between military enemies truces treatment of the wounded relationships with prisoners of war It is concerned with the work done by declarations of fellow feeling both to challenge and enable militarism The book explores enemy intimacies in literature philosophy and life writings to ask questions about the nature of amity enmity familiarity and otherness It ranges across British conflicts of the long nineteenth century a period in which ideas about the uniqueness of combat experience coalesced with a European effort to secure a distinctive version of so called civilized humanity The sense that soldiers of the other side bonded by experiences unavailable to civilians were just like us came into tension with views about the dissimilarity of other nations and races This book considers which enemies can become familiar and which are held as other investigating dividing lines of nation race religion and culture *Enemy Intimacies and Strange Meetings* asks how far these affectively powerful encounters can shift individual and wider narratives about civilisation and humanitarianism Attention to the violence that can be done by claiming and denying fellow feeling is held in tension with hope in the queer possibilities of reoriented compassion This book uncovers a rich cultural history of enemy intimacies to consider different orientations of cosmopolitanism and humanitarian fellow feeling while recognizing and explaining the ways in which full international kinship remains elusive *Engines for empire* Edward Spiers, 2017-03-01 *Engines for Empire* examines the use of the railway by the British army from the 1830s to 1914 a period of domestic political strife and unprecedented imperial expansion The book uses a wide array of sources and images to demonstrate how the Victorian army embraced this new technology how it monitored foreign wars and how it came to use the railway in both support and operational roles The British army's innovation is also revealed through its design and use of armoured trains the restructuring of hospital trains and in its capacity to build and repair railway track bridges and signals under field conditions This volume provides insights on the role of railways in imperial development as a focus of social interaction between adversaries and as a means of projecting imperial power It will make fascinating reading for students academics and enthusiasts in military and imperial history Victorian studies railway history and colonial warfare **Scottish Soldier and Empire, 1854-1902** Edward M. Spiers, 2006-07-20 *The Scottish Soldier and Empire 1854 1902* reflects upon the iconic role of the Scottish soldier as an empire builder from the Crimean War to the end of the nineteenth century It examines how the soldier commented on this imperial experience largely through letter diaries and poems published in the provincial press how his exploits were reviewed in Scotland and how military achievements contributed to both a growing sense of national identity and a deepening degree of imperial commitment **In the Land of the Romanovs** Anthony Cross, 2014-04-27 Over the course of more than three centuries of Romanov rule in Russia foreign visitors and residents produced a vast corpus of literature conveying their experiences and impressions of the country The product of years of painstaking research by one of the world's foremost authorities on Anglo Russian relations *In the Lands of the Romanovs* is the realization of a major bibliographical project that records the details of over 1200 English language accounts of the Russian Empire Ranging

chronologically from the accession of Mikhail Fedorovich in 1613 to the abdication of Nicholas II in 1917 this is the most comprehensive bibliography of first hand accounts of Russia ever to be published Far more than an inventory of accounts by travellers and tourists Anthony Cross s ambitious and wide ranging work includes personal records of residence in or visits to Russia by writers ranging from diplomats to merchants physicians to clergymen gardeners to governesses as well as by participants in the French invasion of 1812 and in the Crimean War of 1854 56 Providing full bibliographical details and concise but informative annotation for each entry this substantial bibliography will be an invaluable tool for anyone with an interest in contacts between Russia and the West during the centuries of Romanov rule A Victorian Dissenter David E. Seip, 2018-04-24 This book introduces the reader to Robert Govett 1813 1901 dissenting clergyman and author who wrote as a scholar of biblical prophecy primarily on the subject of the exclusion of believers in the Millennial Kingdom an idea of which he conceived The purpose of the book is threefold 1 to describe Govett his life and his printed work 2 to analyze Govett s eschatological beliefs especially those he originated and 3 to investigate why a respected theologian in England who had published over 180 books and tracts disappeared from dissenting print culture early in the twentieth century Govett s doctrine of exclusion was heavily intertwined with most of his writings It was a topic that he developed throughout his career Yet as the center of dispensationalism shifted to America Govett s views of the Rapture began to be seen as extreme The book explains why Govett was eclipsed as the center of the evangelical movement shifted and its theology ossified Since his death Govett has been occasionally remembered in scholarship but with increasing inaccuracies and skepticism This book seeks to remove the mystery **The Siege of Sevastopol, 1854-1855** Anthony Dawson, 2017-06-30 A history of the grueling Crimean War battle as told through personal accounts of those who fought there The Crimean War the most destructive and deadly war of the nineteenth century has been the subject of countless books yet historian Anthony Dawson has amassed an astonishing collection of previously unknown and unpublished material including numerous letters and private journals Many untapped French sources reveal aspects of the fighting in the Crimea that have never been portrayed before The accounts demonstrate the suffering of the troops during the savage winter and the ravages of cholera and dysentery that resulted in the deaths of more than 16 000 British troops and 75 000 French Whilst there is graphic first hand testimony from those that fought up the slopes of the Alma in the valley of death at Balaklava and the fog of Inkerman the book focusses upon the siege the great artillery bombardments the storming of the Redan and the Mamelon and the largest man made hole in history up to that time when the Russians blew up the defences they could not hold with their own men inside The Siege of Sevastopol also highlights for the first time the fourth major engagement in the Crimea the Battle of the Tchernaya in August 1855 the Russians last great attempt to break the siege This predominantly French fought battle has never before examined in such in English language books Praise for The Siege of Sevastopol 1854 1855 In this fascinating book the voices of men involved in the war in the Crimea are heard for the first time Compelling and intriguing stuff Books

The Military and Colonial Destruction of the Roman Landscape of North Africa, 1830-1900 Michael Greenhalgh, 2014-05-08 The French invaded Algeria in 1830 and found a landscape rich in Roman remains which they proceeded to re use to support the constructions such as fortresses barracks and hospitals needed to fight the natives who continued to object to their presence and to house the various colonisation projects with which they intended to solidify their hold on the country and to make it both modern and profitable Arabs and Berbers had occasionally made use of the ruins but it was still a Roman and Early Christian landscape when the French arrived In the space of two generations this was destroyed just as were many ancient remains in France in part because real architecture was Greek not Roman
