Roman Pines at Berkeley Hugh O'Donnell,1990 **Salmon , Planting a Mouth** Hugh O'Donnell,2007 *Salmon* Jessie Lendennie,2007 *NASA's University Program* United States. National Aeronautics and Space Administration. Office of University Affairs, **The British National Bibliography** Arthur James Wells,1993 **Small Press Record of Books in Print** Len Fulton,1993 *1995* Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors *Imperial Cults* Rebecca Robinson,2023 *Imperial Cults* looks at the role of religious institutions in shaping imperial authority in Ancient China and Rome By examining the changes made by rulers of each state Emperor Wu of Han and Octavian Augustus in Rome it demonstrates that both rulers reshaped their respective religious institutions in order to consolidate both religious and political authority **Escape from Rome** Walter Scheidel,2021-03-16 The gripping story of how the end of the Roman Empire was the beginning of the modern world The fall of the Roman Empire has long been considered one of the greatest disasters in history But in this groundbreaking book Walter Scheidel argues that Rome s dramatic collapse was actually the best thing that ever happened clearing the path for Europe s economic rise and the creation of the modern age Ranging across the entire premodern world *Escape from Rome* offers new answers to some of the biggest questions in history Why did the Roman Empire appear Why did nothing like it ever return to Europe And above all why did Europeans come to dominate the world In an absorbing narrative that begins with ancient Rome but stretches far beyond it from Byzantium to China and from Genghis Khan to Napoleon Scheidel shows how the demise of Rome and the enduring failure of empire building on European soil launched an economic transformation that changed the continent and ultimately the world **A Literary Companion to Rome** John Varriano,1995-05-15 Arranged as a series of walks through the city this book is both an illuminating guide for the visitor to Rome and a delight to read at home for those who love the city and want to enrich their knowledge of it Includes 10 walking tours illustrations *Irish Publishing Record* ,1992 *Nothing Forgotten* Jessica Levine,2025-07-30 an example of women s fiction at its best Foreword Reviews When Anna now living in California is contacted by the Italian lover she knew decades before she recalls their affair and the child she gave up for adoption As the episode returns to haunt her threatening the life she s built including her marriage the story moves back in time to her youth in Europe Rome 1979 Anna twenty two and living abroad is involved with a man already engaged to be married When she meets and befriends his fianc e she is forced to confront the moral consequences of her actions But an unexpected pregnancy an anonymous letter and threatening relatives complicate the picture A novel in which an unconventional heroine far from

home is forced to reckon with the judgment of others Nothing Forgotten is the third novel in Jessica Levine s The Cousins Series It can be read after The Geometry of Love or as a standalone *Irish University Review*, 1992 *Between Command and Market* Elisa Levi Sabattini, Christian Schwermann, 2021-12-20 A deeply researched and thought provoking set of essays on a sorely neglected topic in Chinese economic intellectual and political history **Rulers and Ruled in Ancient Greece, Rome, and China** Hans Beck, Griet Vankeerberghen, 2021-02-04 Situated on opposite flanks of Eurasia ancient Mediterranean and Han Chinese societies had a hazy understanding of each other s existence But they had no grounded knowledge about one another nor was there any form of direct interaction In other words their historical trajectories were independent In recent years however many similarities between both cultures have been detected which has energized the field of comparative history The present volume adds to the debate a creative method of juxtaposing historical societies Each contribution covers both ancient China and the Mediterranean in an accessible manner Embarking from the observation that Greek Roman and Han Chinese societies were governed by comparable features the contributors to this volume explain the dynamic interplay between political rulers and the ruled masses in their culture specific manifestation as *demos* Greece *populus* Rome and *min* China **Private Worship, Public Values, and Religious Change in Late Antiquity** Kimberly Diane Bowes, 2008-07-28 In this book Kim Bowes examines the late antique Christian rituals of the home and rural estate *A B C Pathfinder Shipping and Mailing Guide ...* New England Railway Publishing Company, 1917 *Rome, China, and the Barbarians* Randolph B. Ford, 2020-04-23 This book addresses a largely untouched historical problem the fourth to fifth centuries AD witnessed remarkably similar patterns of foreign invasion conquest and political fragmentation in Rome and China Yet while the Western Roman Empire was never reestablished China was reunified at the end of the sixth century Following a comparative discussion of earlier historiographical and ethnographic traditions in the classical Greco Roman and Chinese worlds the book turns to the late antique early medieval period when the Western Roman Empire fell and China was reconstituted as a united empire after centuries of foreign conquest and political division Analyzing the discourse of ethnic identity in the historical texts of this later period with original translations by the author the book explores the extent to which notions of Self and Other of barbarian and civilized help us understand both the transformation of the Roman world as well as the restoration of a unified imperial China **State Power in Ancient China and Rome** Walter Scheidel, 2015 Two thousand years ago the Qin Han and Roman empires were the largest political entities of the ancient world developing simultaneously yet independently at opposite ends of Eurasia Although their territories constituted only a small percentage of the global land mass these two Eurasian polities controlled up to half of the world population and endured longer than most pre modern imperial states Similarly their eventual collapse occurred during the same time The parallel nature of the Qin Han and Roman empires has rarely been studied comparatively Yet here is a collection of pioneering case studies compiled by Walter Scheidel that sheds new light on the prominent aspects of imperial state formation This essential new volume

builds on the foundation of Scheidel's *Rome and China* 2009 and opens up a comparative dialogue among distinguished scholars. They provide unique insights into the complexities of imperial rule including the relationship between rulers and elite groups, the funding of state agents, the determinants of urban development, and the rise of bureaucracies. By bringing together experts in each civilization, *State Power in Ancient China and Rome* provides a unique forum to explore social evolution, helping us further understand government and power relations in the ancient world.
