**Poet of the Medieval Modern** Francesca Brooks, 2021 The early Middle Ages provided twentieth century poets with the material to re imagine and rework local religious and national identities in their writing Poet of the Medieval Modern focuses on a key figure within this tradition the Anglo Welsh poet and artist David Jones 1895 1974 representing the first extended study of the influence of early medieval English culture and history on Jones and his novel length late modernist poem The Anathemata 1952 Jones s second major poetic project after In Parenthesis 1937 The Anathemata fuses Jones s visual and verbal arts to write a Catholic history of Britain as told through the history of man as artist Drawing on unpublished archival material including manuscripts sketches correspondence and most significantly the marginalia from David Jones s Library this volume reads with Jones in order to trouble the distinction between poetry and scholarship Placing this underappreciated figure firmly at the centre of new developments in Modernist and Medieval Studies Poet of the Medieval Modern brings the two fields into dialogue and argues that Jones uses the textual and material culture of the early Middle Ages including Old English prose and poetry Anglo Latin hagiography early medieval stone sculpture manuscripts and historiography to re envision British Catholic identity in the twentieth century long poem Jones returned to the English record to seek out those moments where the histories of the Welsh had been elided or erased At a time when the Middle Ages are increasingly weaponised in far right and nationalist political discourse the book offers a timely discussion of how the early medieval past has been resourced to both shore up and challenge English hegemonies across modern British culture
