literary and oral texts representing social life over three hundred years of dramatic change between the seventeenth and twentieth centuries. The selections in this volume represent a wide range of literary forms and styles both elite and popular with subjects ranging from literature history theater and art to the history of architecture and gardening and of material culture at large. Readers will come across rarely found details of everyday life: the sights, smells, and sounds of the lanes and teahouses; a world of taverns, pilgrimages, communal baths, fish markets, salt merchants, acting troupes, and food in one of the wealthiest cities of imperial China. Each text has an introductory essay and rich textual notes by an expert in the relevant field. The general introduction provides an in-depth discussion of the roles of the local in historical, cultural, literary, and linguistic terms as mirrored by the wide range of translated sources collected in this volume. The selected texts are historically and intellectually important in their own right, but the volume greatly enhances their collective value by combining them, arranging them in historical sequence, and providing a dense network of cross-references that invite comparisons and reveal contrasts in style, form, focus, and topic. With its compelling accounts of material culture, urban spaces, entertainment, and gender, *Yangzhou: A Place in Literature* will fascinate scholars and students alike by opening a window to the rich cultural history of Yangzhou. The volume can serve as a textbook for courses on traditional and modern Chinese literature, popular culture, the city, or social history. It will be of great interest to scholars of East Asian studies as well as to those in a variety of comparative fields such as urban studies, theater studies, and gender studies.

The Iron Curtain of Language Jennie Wang, 2007 On Translation Xu Jun, 2025-06-30 This book presents a fresh perspective on translation, exploring it as a complex process of cultural exchange involving both language and culture. The author examines the core aspects of translation, including its nature and procedures, key factors, text selection, and approaches. It also examines the internal tensions and dynamics between authors, translators, and readers, and the value system of translation criticism. The book also illustrates the role of culture in translation, discussing the cultural information embedded in language, the relationship between culture and meaning, the cultural interpretation of meaning, and texts, the intersection of translation and cultural psychology, and the principles and methods of translation studies from a cultural perspective. By developing a systematic theoretical framework, the book aims to present translation as a complex facet of intercultural communication. This insightful work will appeal to scholars, students, translators, and anyone interested in translation theory, translation studies, and intercultural communication.

The Search for the Beautiful Woman Cho Kyo, 2012-10-16 While a slender body is a prerequisite for beauty today, plump women were considered ideal in Tang Dynasty China and Heian period Japan. Starting around the Southern Song period in China, bound feet symbolized the attractiveness of women. But in Japan, shaved eyebrows and blackened teeth long were markers of loveliness. For centuries, Japanese culture was profoundly shaped by China, but in complex ways that are only now becoming apparent. In this first full comparative history of the subject, Cho Kyo explores changing standards of feminine beauty in China and Japan over the past two millennia. Drawing on a rich array of literary and

artistic sources gathered over a decade of research he considers which Chinese representations were rejected or accepted and transformed in Japan He then traces the introduction of Western aesthetics into Japan starting in the Meiji era leading to slowly developing but radical changes in representations of beauty Through fiction poetry art advertisements and photographs the author vividly demonstrates how criteria of beauty differ greatly by era and culture and how aesthetic sense changed in the course of extended cultural transformations that were influenced by both China and the West The Western Romance MEGAPACK® Zane Grey, William MacLeod Raine, James Oliver Curwood, Grace Livingston Hill, B.M.
