**Chivalry and Exploration, 1298-1630** Jennifer Robin Goodman, 1998 The literature of medieval knighthood is shown to have influenced exploration narratives from Marco Polo to Captain John Smith Explorers from Marco Polo to Captain John Smith viewed their travels and discoveries in the light of attitudes they absorbed from the literature of medieval knighthood Their own accounts and contemporary narratives reinforced by the interest of early printers reveal this interplay but historians of exploration on the one hand and of chivalry on the other have largely ignored this cultural connection Jennifer Goodman convincingly develops the idea of the chivalric romance as an imaginative literature of travel she traces the publication of medieval chivalric texts alongside exploration narratives throughout the later middle ages and renaissance and reveals parallel themes and preoccupations She illustrates this with the histories of a sequence of explorers and their links with chivalry from Marco Polo to Captain John Smith and including Gadifer de la Salle and his expedition to the Canary Islands Prince Henry the Navigator Cortés Hakluyt and Sir Walter Raleigh JENNIFER GOODMAN teaches at Texas A M University

**Romance** Barbara Fuchs, 2004-09-09 Often derided as an inferior form of literature romance as a literary mode or genre defies satisfactory definition dividing critics scholars and readers alike This useful guidebook traces the myriad transformations of romance from medieval courtly love to Mills and Boon and claims that its elusive and complex nature serves as a touchstone for larger questions of literary and cultural theory such as How does the history of romance as a category force us to rethink the historicization of literary genres What definitions can we provide for our own time to help us recognize and analyze new forms of romance To what extent is the resistance to romance a resistance to the imaginative force of literature The case for romance as a concept is presented clearly and imaginatively arguing that its usefulness to contemporary critics can be maintained if it is regarded as a literary strategy rather than a fixed genre In encouraging the reader to consider the fluidity of literature Romance will be of equal value to all students of historical and comparative literatures and of modern literary forms

particularly female and rhetorical styles of the ancient novels signify political and social reform. **Reading and the History of Race in the Renaissance** Elizabeth Spiller, 2011-05-12 Elizabeth Spiller studies how early modern attitudes towards race were connected to assumptions about the relationship between the act of reading and the nature of physical identity. As reading was understood to happen in and to the body, what you read could change who you were. In a culture in which learning about the world and its human boundaries came increasingly through reading, one place where histories of race and histories of books intersect is in the minds and bodies of readers. Bringing together ethnic studies, book history and historical phenomenology, this book provides a detailed case study of printed romances and works by Montalvo, Heliodorus, Amyot, Ariosto, Tasso, Cervantes, Munday, Burton, Sidney and Wroth. *Reading and the History of Race* traces ways in which print culture and the reading practices it encouraged contributed to shifting understandings of racial and ethnic identity.

**Renaissance Romance** Dr Nandini Das, 2013-05-28 Romance was criticized for its perceived immorality throughout the Renaissance, and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions. Yet despite that general condemnation, the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form. In *Renaissance Romance*, Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture. Across a range of texts in which romance was adopted by the court, by popular print and by women, Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance. In the fiction produced by writers such as Sir Philip Sidney, Robert Greene and Lady Mary Wroth, the transformative interaction of romance with other emergent forms, from the court masque to cartography, was determined by specific configurations of social groups drawn along the lines of generational difference. What emerged as a result of that interaction radically changed the possibilities of fiction in the period.

*The Cambridge Companion to Medieval Romance* Roberta L. Krueger, 2000-06-22 This Companion presents fifteen original and engaging essays by leading scholars on one of the most influential genres of Western literature. Chapters describe the origins of early verse romance in twelfth-century French and Anglo-Norman courts and analyze the evolution of verse and prose romance in France, Germany, England, Italy and Spain throughout the Middle Ages. The volume introduces a rich array of traditions and texts and offers fresh perspectives on the manuscript context of romance, the relationship of romance to other genres, popular romance in urban contexts, romance as mirror of familiar and social tensions, and the representation of courtly love, chivalry, other worlds and gender roles. Together, the essays demonstrate that European romances not only helped to promulgate the ideals of elite

societies in formation but also held those values up for questioning An introduction a chronology and a bibliography of texts and translations complete this lively useful overview      **The Arthur of the Iberians** David Hook,2015-06-15 Up to date Coverage of the scope and extent of the important tradition of Arthurian material in Iberian languages and of the modern scholarship on it Wide ranging bibliographical coverage and guide to both texts and research on them Written by Specialists in the different Romance languages of the Iberian Peninsula Portuguese Catalan Galician Spanish and its dialects Expert analysis of different traditions by leading scholars from Spain and the UK Wide ranging Study not only of medieval and Renaissance literary texts but also of modern Arthurian fiction of the global spread of Arthurian legends in the Spanish and Portuguese worlds and of the social impact of the legends through adoption of names of Arthurian characters and imitation of practices narrated in the legends A comprehensive guide to both literary and social impact of Arthurian material in major world languages      Cultural Encounters in Contemporary Spain Debra Faszter-McMahon,2010-07 Previous critical studies have focused on feminist approaches to Janes s oeuvre This study seeks to expand those discussions through an analysis of the aesthetics of cultural otherness rather than simply gendered otherness within Janes s prolific literary production
