Romanesque Mural Painting Otto Demus, 1970      Shaping Sacred Space and Institutional Identity in Romanesque Mural Painting Otto Demus, 2004 Romanesque mural painting was arguably the most visible field for religious images in Western churches between the eleventh and thirteenth centuries Beyond its traditional justification as Bible of the illiterate mural painting demarcated the principal functional spaces within the church and propagated the sacred narratives the systems of belief and institutional politics The present volume provides the first accessible collection of essays devoted exclusively to the contextual interpretation of Romanesque mural painting They are offered in homage to Otto Demus who established the essential parameters for the field with his unsurpassed survey of the field over thirty years ago Presenting previously unpublished research on individual case studies from Italy France and Spain the collection of essays published here pursues Demus's premise that mural painting was designed both to shape the experience and ritual use of distinctive spaces within the medieval church and to advertise certain institutional affiliations and political agendas The introduction by Thomas Dale provides a methodological overview to the field assessing Demus's contribution to the study of Romanesque mural painting and surveying the scholarship of the past thirty years It also furnishes the first overview of primary texts that refer to the functions and exegesis of mural painting between the tenth and thirteenth centuries The ten essays are grouped under four topics 1 Patterns of Narrative Disposition in Sacred Space 2 Reinforcing the Praesentia of the Saints The Church as Locus Sanctus 3 The Burial Crypt as Mediator between the Living and the Dead Terrestrial and Celestial Space 4 Ecclesiastical Politics and Institutional Identity

*Relics, Prayer, and Politics in Medieval Venetia* Thomas E. A. Dale, 1997 Against a historical backdrop of relic theft and propaganda campaigns waged by two cities vying for patriarchal authority in medieval Venetia Thomas Dale shows how Romanesque mural painting shaped sacred space and institutional identity His focus is on the late twelfth century murals in the crypt of Aquileia Cathedral The crypt which contains the relics

of Aquileia's founding bishop Saint Hermagoras has a historical significance rooted in a legend identifying the saint as a direct disciple of Saint Mark the Evangelist. On this basis the Carolingians promoted the city's status as patriarchal see of Venetia, a claim that prompted Venice to steal Mark's relics from Alexandria, Egypt, and appropriate Aquileia's history. This book, the first English language study of the crypt, explores how the paintings complement the relics of Hermagoras in their distinct devotional and political roles. Hermagoras's intercessory power is activated by his orant image displayed over the central aisle within a larger hierarchy of apostles, martyrs, and bishops. The surrounding hagiographic cycle justifies in legalistic fashion Aquileia's patriarchal title and the consecration of the city as locus sanctus of Venetia by the blood of its martyrs. The iconic images in the eastern lunettes present the Virgin's compassio as a pictorial model for the vicarious experience of Christ's Passion. Finally, a fictive curtain over the socle presents allegories of spiritual warfare in the form of exempla from crusades, pilgrimage, and the epic poem *Psychomachia*, which Dale analyzes as a gloss on the main program.
