J. Howgego, Volker Heuchert, Andrew M. Burnett, 2005 Coins were the most deliberate of all symbols of public communal identities yet the Roman historian will look in vain for any good introduction to or systematic treatment of the subject Sixteen leading international scholars have sought to address this need by producing this authoritative collection of essays which ranges over the whole Roman world from Britain to Egypt from 200 BC to AD 300 The subject is approached through surveys of the broad geographical and chronological structure of the evidence through chapters which focus on ways of expressing identity and through regional studies which place the numismatic evidence in local context **The Book of Acts in its First Century Setting, Volume 2** David W. Nanos, 1996-01-01 Paul's letter to the Romans says Nanos is an example of Jewish correspondence addressing believers in Jesus who are steeped in Jewish ways whether of Jewish or gentile origin Arguing against those who think Paul was an apostate from Judaism Nanos maintains Paul's continuity with his Jewish heritage Several key arguments here are Those addressed in Paul's letter were still an integral part of the Roman synagogue communities The weak are non-Christian Jews while the strong included both Jewish and gentile converts to belief in Jesus Paul as a practicing devout Jew insists on the rules of behavior for the righteous gentiles Christian subordination to authorities Romans 13:1-7 is intended to enforce submission to leaders of the synagogues not Roman government officials Paul behaves in a way to confirm the very Jewish portrait of him in Acts going first to the synagogues

Gods, Heroes, and Kings : The Battle for Mythic Britain Christopher R. Fee Assistant Professor of English Gettysburg College, David A. Leeming Professor of English & Comparative Literature University of Connecticut (Emeritus), 2001-10-18 The islands of Britain have been a crossroads of gods heroes and kings those of flesh as well as those of myth for thousands of years Successive waves of invasion brought distinctive legends rites and beliefs The ancient Celts displaced earlier indigenous peoples only to find themselves displaced in turn by the Romans who then abandoned the islands to Germanic tribes a people themselves nearly overcome in time by an influx of Scandinavians With each wave of invaders came a battle for the mythic mind of the Isles as the newcomer's belief system met with the existing systems of gods legends and myths In Gods Heroes and Kings medievalist Christopher Fee and veteran myth scholar David Leeming unearth the layers of the British Isles' unique folkloric tradition to discover how this body of seemingly disparate tales developed The authors find a virtual battlefield of myths in which pagan and Judeo-Christian beliefs fought for dominance and classical Anglo-Saxon Germanic and Celtic narrative threads became tangled together The resulting body of legends became a strange but coherent hybrid so that by the time Chaucer wrote The Wife of Bath's Tale in the fourteenth century a Christian theme of redemption fought for prominence with a tripartite Celtic goddess and the Arthurian legends of Sir Gawain itself a hybrid mythology Without a guide the corpus of British mythology can seem impenetrable Taking advantage of the latest research Fee and Leeming employ a unique comparative approach to map the origins and development of one of the richest folkloric traditions Copiously illustrated with excerpts in translation from the original sources Gods Heroes and Kings provides a fascinating and accessible new perspective on the history of British mythology

Tacoma, 2016-05-26 While the importance of migration in contemporary society is universally acknowledged historical analyses of migration put contemporary issues into perspective Migration is a phenomenon of all times but it can take many different forms The Roman case is of real interest as it presents a situation in which the volume of migration was high and the migrants in question formed a mixture of voluntary migrants slaves and soldiers Moving Romans offers an analysis of Roman migration by applying general insights models and theories from the field of migration history It provides a coherent framework for the study of Roman migration on the basis of a detailed study of migration to the city of Rome in the first two centuries A D Advocating an approach in which voluntary migration is studied together with the forced migration of slaves and the state organised migration of soldiers it discusses the nature of institutional responses to migration arguing that state controls focused mainly on status preservation rather than on the movement of people It demonstrates that Roman family structure strongly favoured the migration of young unmarried males Tacoma argues that in the case of Rome two different types of the so called urban graveyard theory which predicts that cities absorbed large streams of migrants apply simultaneously He shows that the labour market which migrants entered was relatively open to outsiders yet also rather crowded and that although ethnic community formation could occur it was hardly the dominant mode by which migrants found their way into Rome because social and economic ties often overrode ethnic ones The book shows that migration impinges on social relations on the Roman family on demography on labour relations and on cultural interaction and thus deserves to be placed high on the research agenda of ancient historians Photo Krien Clevis from the series Echoes of Eternity Krien Clevis is an artist researcher PhD who is working on an ongoing photo project part of the multi disciplinary Dutch research project Mapping the Via Appia Clevis contribution to the project is devoted to this unique historical avenue of memories which over the centuries has been subject to constant change She studies the different perspectives on this street ranging from its protection to its opening up See also www.knir.it/krienclevis or www.krienclevis.com **The Early Roman Expansion into Italy** Nicola Terrenato, 2019-05-02 Argues that Roman expansion in Italy was accomplished more by means of negotiation among local elites than through military conquest
