House with open door kameel Ahmady,2021,□□□□□ □□□□□ House with Open Door A Comprehensive Research Study on White Marriage Cohabitation in Iran By Kameel Ahmady The study reported in this book by the British Iranian anthropologist Kameel Ahmady considers both legal and informal coupledness in Iran It is hugely broad in scope and also detailed in specifics In considering the factors which shape young Iranian s decisions about heterosexual relationships Ahmady takes us from the end of the secular era of the Shahs of Iran to the modern day ultra religious administration We are also guided across many regions of the globe and across cultures from the largely closed communities of decades ago to the present age of instant global communication and influence Ahmady s endeavours explore a way of living and understanding society that most in the West have rarely encountered We may know that in some countries bigamy even polygamy is still permitted we may even know that in some places children are permitted to be married at a very early age often in Iran girls to older men but never forget that some western states also permit very young people to marry What we are less likely to know however is that Iran has specific contemporarily reiterated legislation allowing temporary or white marriage sigheh whereby the licence is for a specified duration in fact anywhere between one hour and 99 years Nor are we likely to know that sexual involvement outside marriage is increasingly common in the Iranian metropolises but also as confirmed by post Millennium legislation and should the authorities so decide on the basis of the evidence punishable in some cases by lashing stoning or even death Present day Iran is a complex nation on the one hand imbued with centuries of deeply religious tradition and family strictures and on the other informed about the modern world by sophisticated and easily accessible technologies available to millions of highly educated young citizens men and women alike In this book Kameel Ahmady sets himself the task of exploring how the contradictions between these fundamentally conflicting factors are resolved or not by the young people in his country of birth As in many parts of the world age of marriage in Iran has risen dramatically over the past few decades the duration of adolescence has increased significantly Amongst the most important influences in this trend have been low rates of secure employment unmet expectations of good jobs by both male and female graduates housing problems inflation the significant costs including mehr or dowry of formal marriage and poverty and the greater expectation now of autonomy and self direction in younger adults These factors insofar as they are recognised at all are a matter of concern sometimes alarm on the part of older family members and traditionalists who fear that their faith culture and traditions are under threat Thousands of young Iranians therefore live double lives conventionally single in public but living as married couples in private Since the law concedes nothing to these private arrangements there is no protection for the more vulnerable partner

and indeed no prospect of active citizenship for any children born to the couple these illegitimate offspring Ahmady tells us will not even acquire a birth certificate or rights to education There is he says an urgent necessity for legislators in Iran to acknowledge and face up to these serious problems and issues Driving the trend to illicit or temporary marriage are a number of matters considered entirely private and personal in most of western society Kameel Ahmady s and his team respondents have a lot to tell us quite explicitly about their sexual needs and about the necessity according to the Iranian Civil Code or otherwise of virginity before marriage These are unlikely issues for discussion in most though not all parts of the modern world For the first time in Iran this book will reveal the hidden and wide angle aspects of this phenomenon at macro level with an emphasis on the Tehran Mashhad and Isfahan metropolitan areas house_ with_ open_ door Age_of_marriage_in_Iran temporary_marriage white_marriage cohabitation Cohabitation_in_Iran White_marriage_in_Iran sighe_mahramiat Gender gender_problem_in_iran women women_right Handbook of Relationship Initiation Susan Sprecher,Amy Wenzel,John Harvey,2018-09-05 The Handbook of Relationship Initiation is the first volume to focus specifically on the very beginning stage of relationships their origin In this Handbook leading scholars on relationships review the literature on various processes related to the initiation of relationships how people meet communicate for the first time and begin to define themselves as being in a relationship Topics include attraction mate selection influence of social networks on relationship initiation initiation over the internet hook ups among young adults and flirting and opening gambits In addition the dark side of relationship initiation is considered including unwanted relationship pursuit and barriers to relationship initiation including social anxiety This volume provides an overdue synthesis of the literature on this topic It is especially timely in view of the growing prevalence on relationship initiation online through matchmaking and other social networking sites which has increased awareness that science can be used to understand create and facilitate compatible matching This Handbook provides an essential resource for an interdisciplinary range of researchers and students who study relationships including social psychologists communication scientists and scholars of marriage and the family The Intricacies of Love and Intimacy Ami Rokach,2024-08-30 This book explores the meaning of love and intimacy from a variety of perspectives specifically philosophical psychological and cultural This volume is a focussed study on what makes them and what may break love and intimacy Love and intimacy are central to us is sought by almost everyone and while we seem to know what they are they are not easily described The present volume includes eleven chapters which are divided into two parts The first part describes the meaning of love intimacy and romantic relations and the second highlights what may go wrong in such relationships and why The book explores theoretical debates and contemporary research around emotions and will be of interest to students and researchers of psychology philosophy as well as sex marriage and family therapists and counselors The chapters in this book were originally published in The Journal of Psychology The SAGE Encyclopedia of Lifespan Human Development Marc H.
