Romantic Women Poets 1788 1848:

Romantic Women Poets, 1788-1848 Andrew Ashfield,1998 In this new volume Andrew Ashfield illustrates how women extended the horizons of Romanticism by their insistent engagement with social issues such as slavery child labor and women workers His previous volume *Romantic Women Poets 1770 1838* explored how women poets made important contributions to major areas of Romanticism such as landscape and seascape Together these two volumes add new dimensions to the study of Romanticism by showing how the solitary meditation by the sea developed concurrently with major social concerns Ashfield exposes a much more complicated relationship between the self and society than has previously prevailed in our assessments of Romanticism *Women, Writing and the Public Sphere, 1700-1830* Elizabeth Eger,2001-01-04 An international team of specialists examine the dynamic relation between women and the public sphere

Fatal Women of Romanticism Adriana Craciun,2002-12-12 Incarnations of fatal women or femmes fatales recur throughout the works of women writers in the Romantic period Adriana Craciun demonstrates how portrayals of femmes fatales or fatal women played an important role in the development of Romantic women s poetic identities and informed their exploration of issues surrounding the body sexuality and politics Craciun covers a wide range of writers and genres from the 1790s through the 1830s She discusses the work of well known figures including Mary Wollstonecraft as well as lesser known writers like Anne Bannerman By examining women writers fatal women in historical political and medical contexts Craciun uncovers a far ranging debate on sexual difference She also engages with current research on the history of the body and sexuality providing an important historical precedent for modern feminist theory s ongoing dilemma regarding the status of woman as a sex **The Romantic Poets** Uttara Natarajan,2008-04-15 This welcome addition to the Blackwell

Guides to Criticism series provides students with an invaluable survey of the critical reception of the Romantic poets Guides readers through the wealth of critical material available on the Romantic poets and directs them to the most influential readings Presents key critical texts on each of the major Romantic poets Blake Wordsworth Coleridge Byron Shelley and Keats as well as on poets of more marginal canonical standing Cross referencing between the different sections highlights continuities and counterpoints *The Cambridge Companion to Women's Writing in the Romantic Period* Devoney

Looser,2015-03-12 A wide ranging and accessible account of the pioneering professional women writers who flourished during the Romantic period *The Selected Poems of Joanna Baillie, 1762-1851* Joanna Baillie,1999 Joanna Baillie s poetry ranges from songs and lyrical ballads to dramatic monologues and realistic blank verse This edition of her work gives readers the opportunity to assess her significance and her craft *The Cambridge Companion to English Literature, 1740-1830*

Thomas Keymer,Tom Keymer,Jon Mee,2004-06-17 This volume offers an introduction to British literature that challenges the traditional divide between eighteenth century and Romantic studies Contributors explore the development of literary genres and modes through a period of rapid change They show how literature was shaped by historical factors including the

development of the book trade the rise of literary criticism and the expansion of commercial society and empire The wide scope of the collection juxtaposing canonical authors with those now gaining new attention from scholars makes it essential reading for students of eighteenth century literature and Romanticism **British Poetry and the Revolutionary and Napoleonic Wars** Simon Bainbridge,2003 This book argues that poetry played a major role in the mediation of the Revolutionary and Napoleonic wars to the British public and that the wars had a significant impact on poetic practices and theories in the Romantic period It examines a wide range of writers both canonical Wordsworth Coleridge and Byron and non canonical Smith Southey Scott and Hemans and locates their work within the huge amount of war poetry published in newspapers and magazines It shows that poetry was a crucial form through which what were seen as the first modern or total wars were imagined in Britain and that it was central to the cultural and political debates over the conflict with France While the Revolutionary and Napoleonic wars compelled poets to re examine their roles it was poetry itself which produced a major transformation of the imagining of war that would be influential throughout the nineteenth century **Anthologies of British Poetry** ,2021-11-22 From Tottel s Miscellany 1557 to the last twentieth century Oxford Book of English Verse 1999 anthologies have been a prime institution for the preservation and mediation of poetry The importance of anthologies for creating and re creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions audience tastes and reading practices or as a profitable literary commodity has often been asserted Despite its impact however the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English speaking world This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets editors publishers and cultural institutions aim to do justice to the typological functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world wide web

Romantic Actors and Bardolatry Celestine Woo,2008 Especially those who have sensed that the denial of the mother s voice has played a critical role in their own self alienation and its melancholy moods will discover that this book has much to offer them as well Donald Capps Princeton Theological Seminary Book Jacket Cultural Constructions of Madness in Eighteenth-Century Writing A. Ingram,M. Faubert,2004-11-30 Cultural Constructions of Madness in the Eighteenth Century deals with the mis representation of insanity through a substantial range of literary forms and figures from across the eighteenth century and beyond Chapters cover the representation distortion sentimentalization and elevation of insanity and such associated issues as gender personal identity and performance in some of the best as well as some of the least known writers of the period A selection of visual material including works by Hogarth Rowlandson and Gillray is also discussed While primarily adopting a literary focus the work is informed throughout by an alertness to significant issues of medical and psychiatric history **Romanticism** Simon Bainbridge,2018-03-24 A wide ranging collection of the key contextual

documents which inform the Romantic period It includes material on fiercely debated areas such as the French Revolution women the slave trade science and religion Documents are supported by substantial editorial material drawing connections to the major Romantic texts **Child Murder and British Culture, 1720-1900** Josephine McDonagh,2003-12-08 In this wide ranging study Josephine McDonagh examines the idea of child murder in British culture in the eighteenth and nineteenth centuries Analysing texts drawn from economics philosophy law medicine as well as from literature McDonagh highlights the manifold ways in which child murder echoes and reverberates in a variety of cultural debates and social practices She places literary works within social political and cultural contexts including debates on luxury penal reform campaigns slavery the treatment of the poor and birth control She traces a trajectory from Swift s A Modest Proposal through to the debates on the New Woman at the turn of the twentieth century by way of Burke Wordsworth Wollstonecraft George Eliot George Egerton and Thomas Hardy among others McDonagh demonstrates the haunting persistence of the notion of child murder within British culture in a volume that will be of interest to cultural and literary scholars alike

Bluestockings E. Eger,2010-01-20 This study argues that female networks of conversation correspondence and patronage formed the foundation for women s work in the higher realms of Shakespeare criticism and poetry Eger traces the transition between Enlightenment and Romantic culture arguing for the relevance of rational argument in the history of women s writing Lacework or Mirror? Diary Poetics of Frances Burney, Dorothy Wordsworth and Mary Shelley Magdalena Ożarska,2014-01-08 Lacework or Mirror Diary Poetics of Frances Burney Dorothy Wordsworth and Mary Shelley sets out to determine whether each of the diaries by three female writers namely Frances Burney Dorothy Wordsworth and Mary Shelley approximates the Philippe Lejeunean concept of the diary as lacework or the more sweeping view typical of the broadly conceived autobiography which Georges Gusdorf famously likened to the mirror The author explores Burney s Wordsworth s and Shelley s attempts at concealing the gaps between their narrating and narrated I s as well as examining their diary lacunae especially helpful for illustrating the gradual emergence of the diarists individual selves Broader issues connected with diary poetics such as the use of metaphors and symbols the degree of reliance on dialogue and ensuing narrativity down to handling the past by means of anachronous eccentricities are also subject to examination The study is based on the assumption that the journal is a literary genre which can be investigated with tools routinely used for the examination of literary texts Yet beyond the issues of literariness in accordance with Philippe Lejeune s dictum the three journals reveal the writers diaristic practices In fact it seems that issues of the journal genre and the journal practice cannot be divorced and neither can their lacework and mirror aspects **The Poetry of Slavery** Marcus Wood,2003 This is the first book to collect the most important works of poetry generated by English and North American slavery Mixing poetry by the major Anglo American Romantic poets Blake Coleridge Wordsworth Shelley Keats Whittier Longfellow Lowell Whitman Melville Dickinson with curious and sometimes brilliant verse by a range of now forgotten literary figures the anthology is

designed to aid students and teachers address the Anglo American cultural inheritance of slavery Women Writers in the Romantic Age John Claiborne Isbell, 2025-04-17 This groundbreaking book offers a comprehensive review of six hundred and fifty women writers from over fifty national traditions spanning Europe and the Americas during the transformative years of 1776 to 1848 Framed by revolutionary upheavals the book explores how women writers shaped and reflected Romanticism's global currents It fills a critical scholarly gap connecting disparate traditions and uncovering voices often overlooked in male dominated literary histories Through concise entries the book names every woman writer identified in its vast research from celebrated figures like Phillis Wheatley to lesser known authors whose manuscripts lay buried in archives Each entry provides essential biographical details while select excerpts in seventeen languages bring these voices to life revealing how women navigated the era's revolutionary ideals and patriarchal barriers Structured democratically the volume treats all writers equally whether anonymous pseudonymous or celebrated in their time It highlights their diverse experiences poets and novelists abolitionists and suffragists mothers and mill workers From memoirs to political tracts their works testify to the rich tapestry of women's contributions to Romanticism By illuminating these stories this book challenges national silos offering a panoramic view of Romanticism as a truly transnational female inclusive phenomenon It represents a go to resource for students and interested readers while setting the ground for future scholars to expand this vital field of study

Romantic Women Poets, 1770-1838 Andrew Ashfield, 1997 Andrew Ashfield provides an important feminist document and a genuine means of unravelling Romanticism in *Romantic Women Poets* an anthology of some 180 poems from the period 1770 to 1838 Writing Romantic Climate Change Anya Heise-von der Lippe, 2024-06-04 In the Romantic period women writers developed specific aesthetics and writing strategies in their engagements with climate change and climate catastrophe Anya Heise von der Lippe draws on intersectional feminist and ecocritical approaches to highlight gender as a complicating category in Romantic engagements with these topics She addresses the ways in which gendered critical framings continue to resonate in current Anthropocene discourses that use Romantic conceptualizations of Nature impacting contemporary approaches to the relationship between humans and non humans in the ongoing climate catastrophe

Thomas Holcroft's Revolutionary Drama Amy Garnai, 2023-01-13 A key figure in British literary circles following the French Revolution novelist and playwright Thomas Holcroft promoted ideas of reform and equality informed by the philosophy of his close friend William Godwin Arrested for treason in 1794 and released without trial Holcroft was notorious in his own time but today appears mainly as a supporting character in studies of 1790s literary activism Thomas Holcroft's *Revolutionary Drama* authoritatively reintroduces and reestablishes this central figure of the revolutionary decade by examining his life plays memoirs and personal correspondence In engaging with theatrical censorship apostasy and the response of audiences and critics to radical drama this thoughtful study also demonstrates how theater functions in times of political repression Despite his struggles Holcroft also had major successes this book examines his surprisingly robust

afterlife as his plays especially *The Road to Ruin* were repeatedly revived worldwide in the nineteenth century
