Romantic Medicine and John Keats Hermione de Almeida, 1990-11-15 Using original research in scientific treatises philosophical manuscripts and political documents this pioneering study describes the neglected era of revolutionary medicine in Europe through the writings of the English poet and physician John Keats De Almeida explores the four primary concerns of Romantic medicine the physician s task the meaning of life the prescription of disease and health and the evolution of matter and mind and reveals their expression in Keats's poetry and thought By delineating a distinct but unknown era in the history of medicine charting the poet s milieu within this age and providing close reading of his poems in these contexts Romantic Medicine and John Keats illustrates the interdisciplinary bonds between the two healing arts of the Romantic period medicine and poetry Romantic Medicine and John Keats Hermione De Almeida, 2023 Addresses the fundamental intellectual issues of Romantic medicine as they were given expression in the works of Keats who was a licensed apothecary and general practitioner of medicine Romanticism, Medicine, and the Poet's Body James Robert Allard, 2016-04-08 That medicine becomes professionalized at the very moment that literature becomes Romantic is an important coincidence and James Allard makes the most of it His book restores the physical body to its proper place in Romantic studies by exploring the status of the human body during the period With meticulous detail he documents the way medical discourse consolidates a body susceptible to medical authority that is then represented in the works of Romantic era poets In doing so he attends not only to the history of medicine's professionalization but significantly to the rhetoric of legitimation that advances the authority of doctors over the bodies of patients and readers alike After surveying trends in Romantic era medicine and analyzing the body s treatment in key texts by Wordsworth and Joanna Baillie Allard moves quickly to his central subject the Poet Physician This hybrid figure discovered in the works of the medically trained John Keats John Thelwall Thomas Lovell Beddoes embodies the struggles occasioned by the discrepancies and affinities between medicine and poetry Romanticism, Medicine and the Natural Supernatural Gavin Budge, 2012-10-17 This fascinating interdisciplinary study examines the relationship between literary interest in visionary kinds of experience and medical ideas about hallucination and the nerves in the first half of the nineteenth century focusing on canonical Romantic authors the work of women writers influenced by Romanticism and visual culture Romanticism, Medicine, and the Poet's Body James Robert Allard, 2007-01-01 James Allard's book restores the physical body to its proper place in Romantic studies by exploring the status of the human body during the stunning historical moment that witnessed the emergence of Romantic literature alongside the professionalization of medical practice His central subject is the Poet Physician a hybrid figure in the works of the medically trained Keats Thelwall and Beddoes who embodies the struggles over discrepancies and affinities between medicine and poetry The Oxford Handbook of British Romanticism David Duff, 2018-09-26 The Oxford Handbook of British Romanticism offers a comprehensive guide to the literature and thought of the Romantic period and an overview of

hardcore facts of his time Departing from previous studies due to its emphasis on subjectivity and relationality the book discusses Keats with regard to post non anthropocentric alternative subject positions and subject object relations in his Ode to a Nightingale In drear nighted December Isabella or The Pot of Basil Lamia La Belle Dame sans Mercy and Ode on a Grecian Urn Drawing on Lacanian and Braidottian epistemologies in its discussion of the intricacy between the imaginary and the symbolic the irruption of the psychotic into the symbolic and the agency of the object on the subject in Keats's poetry the book suggests that the inner dynamics of both the subject and the object acquire agency which shatters Oneness and Genre in English Medical Writing, 1500 | 1820 Irma Taavitsainen, Turo totality assumed in the Cartesian self Hiltunen, Jeremy J. Smith, Carla Suhr, 2022-10-13 This multidisciplinary volume offers new insights into the development of genres of medical discourse in changing socio cultural contexts **Consumption and Literature** C. Lawlor, 2006-10-31 This book seeks to explain how consumption a horrible disease came to be the glamorous and artistic Romantic malady It tries to explain the disparity between literary myth and bodily reality by examining literature and medicine from the Renaissance to the late Victorian period covering a wide range of authors and characters Ecological Literary Criticism Karl Kroeber, 1994 Kroeber argues that literary criticism needs to reestablish connections to a wide range of social activities especially the thinking of contemporary scientists This new kind of criticism ecological literary criticism sets out to correct the abstractions of current theorizing about literature and to make humanistic studies more socially responsible Though applicable to any writer of any period Kroeber points out that the proto ecological tendencies of the English Romantic poets make them especially useful as a starting point for this approach Since the Romantics believed that people were and should be at home in the natural world Ecological Literary Criticism asks that we examine poetry from a perspective that assumes that the imaginative acts of cultural beings offer valuable insights into how and why cultural and natural phenomena have interrelated in the past and how they could more advantageously interrelate in the future Kroeber argues that this approach to criticism will help us to develop mutually enriching links between humanistic and scientific modes of understanding humankind and the earth we inhabit <u>Liberating Medicine</u>, 1720–1835 Tristanne Connolly, Steve Clark, 2015-10-06 During the 18th century medicine became an autonomous discipline and practice Surgeons justified themselves as skilled practitioners and set themselves apart from the unspecialized hack barber surgeons of early modernity This title presents 17 essays on the relationship between medicine and literature during the Enlightenment **Blind and Blindness in Literature of the Romantic Period** Edward Larrissy, 2007-06-19 In the first full length literary historical study of its subject Edward Larrissy examines the philosophical and literary background to representations of blindness and the blind in the Romantic period In detailed studies of literary works he goes on to show how the topic is central to an understanding of British and Irish Romantic literature While he considers the influence of Milton and the Ossian poems as well as of philosophers including Locke Diderot Berkeley and Thomas Reid much of the book is taken up with new readings of writers

of the period These include canonical authors such as Blake Wordsworth Scott Byron Keats and Percy and Mary Shelley as well as less well known writers such as Charlotte Brooke and Ann Batten Cristall There is also a chapter on the popular genre of improving tales for children by writers such as Barbara Hofland and Mary Sherwood Larrissy finds that despite the nostalgia for a bardic age of inward vision the chief emphasis in the period is on the compensations of enhanced sensitivity to music and words This compensation becomes associated with the loss and gain involved in the modernity of a post bardic age Representations of blindness and the blind are found to elucidate a tension at the heart of the Romantic period between the desire for immediacy of vision on the one hand and on the other the historical self consciousness which always attends it
